James G. Clarke	703
Robert Gardner	648
Lyman B. Preston	567
Joseph O. Severance, Jr.	901
Arthur W. Stevens	438
Blanks	2309

HERBERT G. SUMMERS

In the passing of Herbert G. Summers, the Town of Scituate has lost a citizen and benefactor not to be replaced. Born in Cambridge, Mass., July 23, 1881, Mr. Summers was graduated from the Manual Training School in that city.

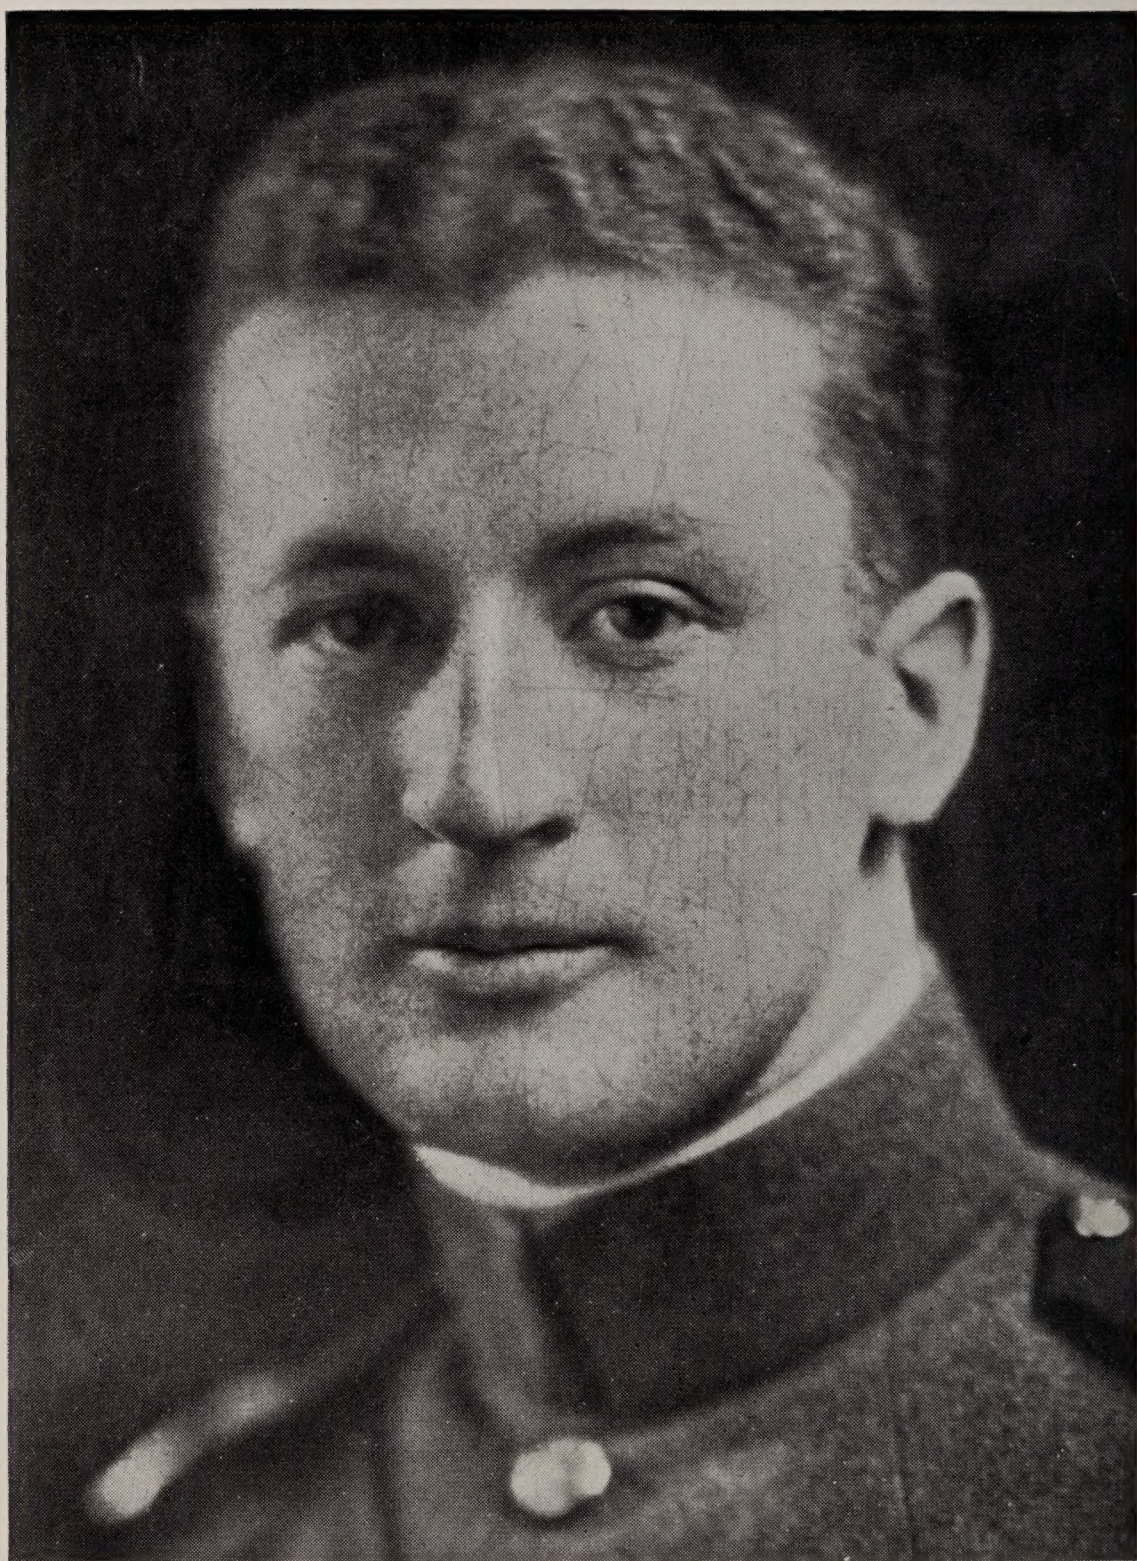

He became interested in the hotel business while stopping at the Mitchell House at North Scituate Beach, then operated by the late George G. Smith, and whose daughter, Miss Fanny M. Smith, he married on June 24, 1907. He soon joined the staff of the Hotel Thorndike in Boston, under the management of Lynnfield Damon.

In 1911 Mr. Summers took over the management of the Charlesgate in Boston, later purchasing the property. In 1913 he purchased the Cliff Hotel and Cottages at North Scituate Beach and operated both hotels successfully until the time of his death, which occurred in St. Petersburg, Florida, February 24, 1937.

For many years Mr. Summers served the Town of Scituate. He was elected March 10, 1924, to the office of Selectman, Assessor, and Overseer of the Poor for a three-year term. On March 12, 1929, he was elected to the Advisory Board for a three-year term. Mr. Summers was a 32nd degree Mason, Knight Templar, Shriner and member of many clubs.

The Cliff properties, which grew and flourished under his guidance, were the means of acquainting countless summer visitors from all over the United States and Canada, with Scituate.

Scituate will miss this kindly and beloved citizen, but will not forget him. His life and work spelled his epitaph simply and sincerely, with one word. Service.

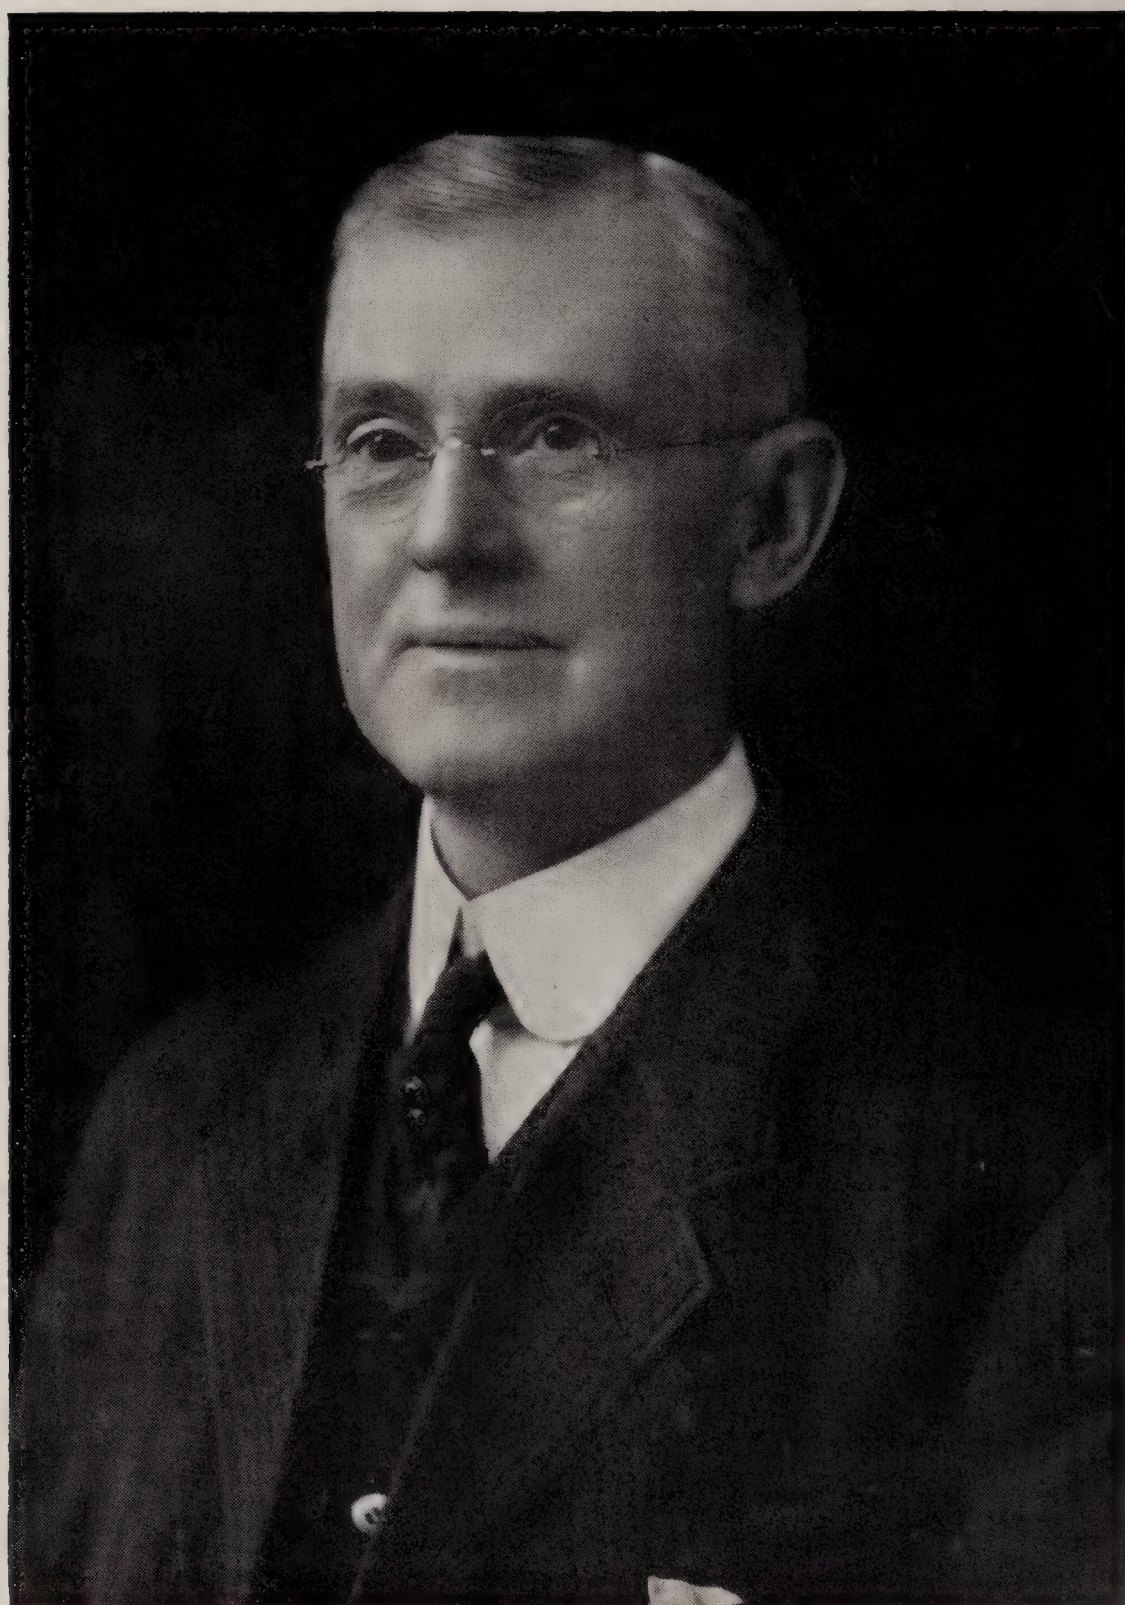

PAUL FROST IVES

Born in Brookline August 12, 1893.

Attended grade schools of Boston. Graduated from West Roxbury High School. Secured alternate appointment to West Point.

Was given contract in Frederic Fuller Agency of Equitable Life Assurance Co. on January 9, 1915, and was directly associated with company from that time until his death.

Mr. Ives was elected to the Advisory Board on March 10, 1930, and served continuously until his death.

WILLIAM H. NORTH

William H. North was born in Watertown, Mass., in 1853. At the age of twenty he entered the employ of the Oriental Tea Company, then located in Scollay Square, as a bookkeeper and continued with this company for 65 years or until his death at which time he was the senior member of this firm.

He first became interested in Scituate in 1898 at which time he built his home on the Cliff at North Scituate Beach and established his legal residence here.

He served the Town as Chairman of the Park Commissioners from 1908 to 1923 never accepting pay for any of his services. He was foremost in the development of the Hatherly Play Ground which later became the present Hatherly Country Club. He was sponsor for the restoration of the Old Light House, instrumental in securing the present Railroad Station at North Scituate and also the dedication of Hollet Island as a park.

Mr. North was a charter member of the Scituate Historical Society, a member of Satuit Lodge, and the Winslow Lewis Lodge of Masons in which order he attained the 33rd degree.

Hardly a Scituate organization that was not the recipient of a steaming tank of delicious coffee, on occasions of banquets or suppers, with the cordial compliments of "Uncle Billy North" as he was affectionately known by his hosts of friends.

Word of his death on September 12th, 1937 was a sad message to us all.

REPORT OF SELECTMEN

To the Citizens of Scituate:

The fact that our taxes are increasing year by year is a matter of serious and vital concern. At Town Meetings tax payers practically levy burden upon themselves, now, unless this growing tendency is curbed and corrected we shall cease to extend much inducement for people to build homes, or those having built homes, long remain here, thereby blight our growth and future developments. Taxes are paid out of income and since the income of our taxpayers has been substantially reduced it is self-evident, therefore, that taxation must be substantially reduced in order that we may not exceed the taxpaying ability of our citizens. The only way so far as we know to lower taxes is to reduce expenditures. Our financial structure as present stands on a solid foundation as demonstrated on following pages, also as indicated by our being able to borrow on anticipation notes so low as one-fourth of one per cent. We recommend that the endeavor should be to protect and maintain this record and adopt so far as possible a "Pay As You Go Policy." We commit ourselves to the policy of reducing costs without eliminating services essential to an attractive and progressive town, schools that are second to none in our Commonwealth, streets that are well built, properly lighted and well maintained, police and fire departments adequately equipped and trained. Such a course, if pursued, would, in our opinion, present a picture pleasing to contemplate.

As we scan the achievements of the twelve months past, it affords considerable satisfaction to note the

enduring benefits which have accrued to our town during that period. Having issued thirty-nine commercial shell fish permits, it resulted in the digging and sale of ten thousand two hundred and nine bushels of clams which sold at one dollar to one dollar and twenty-five cents per bushel; thus providing work and revenue to a number of our citizens who otherwise, several of them may have been compelled to accept charities. In addition to the commercial permits there were issued four hundred and ninety-nine family permits which were free of charge. The Board feels that our shell fish areas are a valuable asset to the town. A code of rules and regulations were formulated by the Board and enforced by a shell fish constable in order to protect our industry from poachers. We recommend that the town again vote a sufficient appropriation that this benefit may continue.

Due to persistent and vigorous activity at many hearings before State and Federal Officials, including the Army Engineers at Washington, D. C., they at last recommended our Harbor Dredging Project involving a Federal allotment of one hundred thirty-nine thousand five hundred and sixty dollars, and a State allotment of ninety-six thousand dollars, making an aggregate of two hundred thirty-five thousand five hundred and sixty dollars, which will require from the town as a contribution only twenty-four thousand two hundred dollars and we confidently expect the work to begin this year, including extension of the north breakwater at an additional expense to the Federal Government.

The result of the town's appropriation for 1937 meeting the Federal and State requirements for projects, etc., has been most gratifying, which consisted of laying 3,783 ft. of 8" water mains, completion of Curtis Street sidewalks, Maple and Park avenues and Ridge Hill Road construction and roadside beautification. The

battle against unemployment has by no means been won and it yet remains one of our major problems. It is our duty to do everything to relieve the situation. We recommend a substantial appropriation for the purpose as voted last year which will again serve as a security program and a moral measure for 1938 in order that scores of our able bodied citizens who have been cut off from every available means of earning food, clothing and shelter may provide for their human needs and not be driven to a dole which saps the character of those who live upon it and if permitted to long continue would ruin our community by breaking the spirit and self-respect and thus our willing and able workers would become a group of idlers, whose morale would be exceedingly difficult to restore.

To see scores of autos parked off the highway at Peg-gotty and hundreds of Scituate citizens enjoying ocean bathing with children playing or basking on the cool wet sand in the benign influence of the beach on a blistering summer day is a factual demonstration of the town's wisdom in acquiring land adjacent to the beach in order that our people may avail themselves of their rightful heritage and the gift that Dame Nature has bestowed upon them should make the heart of any humanitarian spirited person throb with thankfulness and satisfaction.

We desire at this time to express our appreciation to the several departments for the courtesy which they have shown us on many occasions when we conferred with them and the sincere manner in which they approached consideration of our suggestions.

Respectfully submitted,

W. IRVING LINCOLN, Chairman,
HARRY F. CLEVERLY

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Division of Accounts

REPORT OF AN AUDIT

of

THE ACCOUNTS OF THE

TOWN OF SCITUATE

FOR THE YEAR ENDING DECEMBER 31, 1937

Made in Accordance with the Provisions of
Chapter 44, General Laws

February 20, 1936

REPORT OF STATE AUDIT

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Division of Accounts

State House, Boston

To the Board of Selectmen

Mr. W. Irving Lincoln, Chairman
Scituate, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the general accounts of the town of Scituate for the fiscal year ending December 31, 1936, and of the town collector's accounts from March 13, 1936, the date of the recommitment of the tax, assessment, departmental, and water accounts, to the end of the fiscal year 1936, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL,

TNW:DS

Mr. Theodore N. Waddell

Director of Accounts

Department of Corporations and Taxation

State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the general accounts of the town of Scituate for

the fiscal year ending December 31, 1936, and of the town collector's accounts from March 13, 1936, the date of the recommitment of the tax, assessment, departmental, and water accounts, to the end of the fiscal year 1936, the following report being submitted thereon:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined, checked, and reconciled with the books and records of the town accountant.

The books and accounts kept by the town accountant were examined and checked in detail. The recorded receipts were verified by a comparison with the treasurer's books and with the records in the several departments making the original charges. The payments were checked with the warrants authorizing the treasurer to disburse town funds and with the payments as shown by the treasurer's books. The recorded appropriations, loan orders, and transfers were checked with the town clerk's records of town meetings and with the advisory board's records of transfers from the reserve fund.

The ledger accounts were analyzed, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town as of December 31, 1936.

The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were analyzed and compared with the collector's records of payments to the treasurer, with the records in the several departments collecting money for the town, and with the other sources from which money was paid into the town treasury, while the payments were checked with the selectmen's warrants to the treasurer.

The cash book was added throughout for the period covered by the audit and the treasurer's cash balance on January 19, 1937, was proved by a reconciliation of the bank balances with statements received from the banks of deposit.

The recorded payments on account of maturing debt and interest were checked with the amounts falling due and with the cancelled securities and coupons on file, the outstanding securities and coupons being listed and reconciled with a statement furnished by the bank.

The tax title deeds on hand were examined and listed. The amounts transferred from the tax and assessment levies to the tax title account were verified, the reported redemptions were checked, and the tax title deeds as listed were reconciled with the accountant's ledger account.

The savings bank books representing the investment of the trust funds in the custody of the selectmen were examined and listed. The income was proved and the transfers to the town were verified.

The books and accounts of the town collector were examined and checked. The tax, assessment, departmental, and water accounts outstanding at the time of the previous examination were audited, and all subsequent commitment lists were added and reconciled with the records in the departments committing the accounts for collection.

The collector's cash books were footed, the payments to the treasurer by the collector were checked to the treasurer's and the accountant's books, the recorded abatements were compared with the assessors' records

and the records of other departments authorized to grant abatements, and the outstanding accounts were listed and reconciled with the accountant's ledger accounts.

Verification of the outstanding accounts was made by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

The records of licenses and permits issued by the selectmen and by the police and health departments were examined and checked, and the payments to the town treasurer were verified.

The town clerk's records of dog licenses issued on behalf of the county, for sporting and trapping licenses, the proceeds of which are paid to the State, and fees received on account of transient vendors' licenses issued by the State, were checked with the records of licenses issued and fees received. The payments to the county, to the Division of Fisheries and Game, and to the town treasurer were verified.

Collections on account of dog licenses issued should be paid by the town clerk to the town treasurer on the first Monday of each month or oftener, as required by Section 147, Chapter 140, General Laws, as amended.

The surety bonds of the financial officials bonded for the faithful performance of their duties were examined and found to be in proper form.

In addition to the departments mentioned, the available records of all other departments receiving money

for the town were checked and the payments to the treasurer were verified.

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's and the collector's cash, summaries of the tax, assessment, tax title, departmental, and water accounts, as well as tables showing the condition and transactions of the trust funds.

While engaged in making the audit, cooperation was received from the officials of the town, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

HERMAN B. DINE,
Assistant Director of Accounts

ACCOUNTANT'S REPORT

To the Honorable Board of Selectmen:

Gentlemen: In compliance with the provisions of Chapter 44 of the General Laws, I herewith submit the following report of the Accounting Department for the year ending December 31, 1937.

I have also included a detailed statement of disbursements showing amounts paid and the persons to whom payments were made as requested by vote at the annual meeting held March 7, 1937.

BERTHA A. DAVENPORT,
Town Accountant.

REPORT OF TOWN COUNSEL

In closing ten years of public service as Town Counsel for this municipality, I can claim some small part in the town's progress and orderly conduct such as permitted to counsel working in close harmony with other town officials during this period.

"Of course, we must realize that a so-called Town Counsel is no longer merely an advisor, as the name implies, or an attorney in a court case from time to time. His position has become similar to that of counsel for a large corporation, the complexity of whose activities demand constant specialized legal service to avoid unpleasant entanglements and heavy expenses of special counsel for each new matter. To Scituate, large territorially, growing in population, and diverse in its interests, suburban and seashore, the above statement is particularly applicable." (Excerpt—Report for 1928, p. 151)

In my first year of service I was called upon to assist in the improvement of the handling of public aid, revision of the local traffic regulations, and granting of a franchise for gas light and heat.

In 1930 I rendered gratuitous service in the compilation of the town's by-laws, departmental regulations and previously accepted acts of the legislature.

In 1931 we acquired the Scituate Water Company then owned by a Delaware Corporation under New

York control. Early in that year we defeated their efforts to almost double water rates before the Department of Public Utilities. The acquisition of the plant followed acceptance of an impartial report by Honorable James W. Turner, then chairman of the Board of Selectmen, the late Honorable William F. Smith, Treasurer, and myself.

In 1932 we took another farsighted step forward in adding to our water system the Humarock Beach Water Company upon the advice of our Water Commissioners.

In 1933 we were first confronted with problems (old and new) arising out of the new Alcoholic Beverage Act as to liquor sales. Likewise federal and state legislation as to relief work and governmental projects necessitated additional legal efforts.

In 1934 the situation then facing us prompted the following statement in my Report:

“Municipal governments, as well as State and Federal, are constantly being required to play a greater part in the lives of our people, in consequence of which more and more legal problems arise. Neglect of these problems only involves the Municipality in more serious difficulties, with greater expense and disturbance. The Town’s officials, face to face with these problems, are alone in a position to judge whether or not the services of a lawyer are necessary for the efficient conduct of the Town’s affairs.”

During the ten-year period referred to herein, notable additions to the town’s by-laws are those creating the Planning Board (1929) and Zoning (1936). There have

been created many other new agencies and public duties, many of which have fallen upon the Board of Selectmen, such as liquor license board, directors of shellfish activities, custodians of town lands acquired by the Town Treasurer, and the Zoning Board of Appeals. The Assessors now have additional duties in connection with the State Tax Appeal Board; the Welfare Board added responsibilities of Old Age Assistance and of other modes of public aid including relief work on federal projects and distribution of goods to needy persons. Among the town's new agencies no doubt the most active is the Water Department under the direction of the Water Commissioners and Superintendent, many improvements and extensions having been made in our water system since that first purchase in 1931.

The requirement of licenses has extended to many activities such as shellfishing, parking spaces, amusements, Sunday sports, sales of fire arms and of certain other kinds of merchandise. Regulations by State departments, too, have increased constantly, even to the recent specifying of wages to be paid to town labor and contractors on local public works.

Probably no special activity of the town, however, has led to so fortunate results as the struggle to eradicate the mosquito nuisance begun in 1930 and continued from 1931 on under special legislature acts providing for the South Shore Mosquito Control project. This work was so efficiently carried out that our community was saved from a real estate slump comparable to that in Florida some years ago. Many thousands of dollars state aid enabled us to carry out this work effectively. No reference to this accomplishment would be complete without mentioning Mrs. Elberta Copeland, who led the fight for the necessary action by state and local

agencies, and also the splendid co-operation of the late Honorable Walter Haynes.

We have been particularly lucky in having the confidence and generous co-operation of the Department of Public Works and other state officials in such projects. Moreover, the State and County have been generous with us in shore and highway development, erection of sea walls and harbor improvements. In the past year we have been assured about \$140,000 from the federal government in addition to a large sum from the State for Scituate Harbor.

In closing, I will comment briefly upon our present difficulties.

The new Zoning by-law has necessitated variance hearings and litigation as to its application. Mandamus proceedings as to Dreamwold Inn, begun early in the past year, were referred by the Single Justice of the Supreme Court in Boston to an Auditor who heard the case both there and here in Scituate for eleven days in all. It then went again before the Single Justice who sustained the action of our Board of Selectmen (a majority thereof) in having granted a common victualer's license to Michael Zullas, et al. An appeal by George R. Paul and other residents of Scituate is now awaiting argument before the full bench of the Supreme Court. A lesson in tolerance could be had in no better way than in noting the example of the parties involved in this litigation who have honestly differed in their views, but who have constantly displayed good will throughout the contest.

The past year has been an unusually busy one for your Town Counsel on account of this case, other mat-

ANNUAL REPORT, TOWN OF SCITUATE, 1937

ters referred to herein, and many legal problems such as fire departmental building and equipment; the Peggotty Beach Parking space takings, nuisances, and land sales. In cross actions pending between Scituate and Boston on welfare payments, Scituate has already received one payment of \$1,000. in the past year.

It is needless to stress further that our problems of government are multiplying. The above report has pointed out many of them to which Town Counsel has given serious attention throughout these years.

Appreciation by the Selectmen, Advisory Board and by other boards, officials and fellow citizens has ever been an inspiration and incentive to faithful service. I have found much happiness in serving Scituate.

VERNON W. MARR,

Town Counsel.

Scituate, Massachusetts
January, 1938.

REPORT OF TOWN CLERK

ANNUAL TOWN MEETING, 1937

HELD ON TWO DAYS

Under Authority of Chapter 284, Acts of 1915

March 1, 1937

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs, held at the High School Auditorium in said Scituate on Monday, the first day of March, 1937, at 9 o'clock A. M., the meeting was called to order by Moderator Philip S. Bailey.

The warrant was read by Town Clerk William M. Wade.

Tellers appointed by the Moderator and sworn to their duties by the Town Clerk were: John S. Fitts, Lester D. Hobson, Robert Gardner, John G. Vollmer, Charles E. Mitchell.

Article 1

To choose all the necessary Town Officers other than those elected by ballot, viz., Surveyor of Lumber, Measurer of Wood and Bark, two or more Field Drivers, one Pound Keeper.

Voted, To elect same officers as in 1936; Surveyor of Lumber, Measurer of Wood and Bark, Ansel F. Servan.

Two or more Field Drivers.

Voted, The Constables.

One Pound Keeper.

Voted, Augustus L. Abbott.

Article 2

To hear the report of the Selectmen, other Town Officers and Standing Committees, and act thereon.

Voted, To accept reports of Town Officers as printed in the Town Report.

Article 3

Will the Town vote to establish salaries and compensation of all elected Town Officers, or act thereon?

Voted, To establish salaries and compensation of all elected Town Officers as follows:

Selectmen, \$2,000.00 for Chairman and legitimate expenses. Other members \$600.00 each and legitimate expenses.

Board of Public Welfare, Chairman, \$500.00 and legitimate expenses. Other members \$100.00 each and legitimate expenses.

Assessors, Chairman, \$1,800.00 and legitimate expenses. Other members \$450.00 each and legitimate expenses.

Highway Surveyor, \$2,200.00, he to furnish his own conveyance while in the performance of his duties and receive \$250.00 to cover expense of same.

ANNUAL REPORT, TOWN OF SCITUATE, 1937

Town Clerk, \$1,200.00 and legitimate expenses.

Town Collector, \$2,000.00 and legitimate expenses, all fees to accrue to the benefit of the Town.

Tree Warden, \$300.00.

Water Commissioners, \$200.00 for each member and legitimate expenses.

Town Treasurer, \$1,800.00 and legitimate expenses.

Board of Health, \$1,000.00 for the salaries of the three members, and legitimate expenses.

Park Commission, each member be paid the same amount per hour for work actually performed as is paid laborers in the Highway Department.

Moderator, \$10.00 each meeting.

Article 4

To raise and appropriate such sums of money as may be necessary to defray the expenses estimated for the year 1937, or any other sums hereunder and make appropriations for the following departments:

Selectmen's Department	Estimated
1. Services and Expenses	\$4,353.00

Article 27

Will the Town vote to rescind the vote of last year, on Article 5, relative to zoning, or act thereon?
—Henry C. Seavern et al.

Voted, Yes 296, No 271, Blanks 3. Not the necessary 2/3 vote required to rescind.

Article 28

To see if the Town will correct Section 8 of its zoning by-laws by striking out the words "shall be removed and the person or persons guilty of the violation" to correct a typographical error, so that Section 8 will read as follows:

"Section 8. The invalidity of any section or provisions of this by-law shall not invalidate any other section or provisions thereof."

—Planning Board.

Voted, Yes. Unanimous vote.

Article 29

To see if the Town will raise and appropriate a sum of money to acquire by purchase or by taking by eminent domain a parcel of land adjoining Peggoty Beach in said Town of Scituate for recreational purposes with space for parking vehicles and to improve and maintain said premises for the public use of its inhabitants under the direction of the Selectmen, unless the Town by its vote shall designate otherwise; and borrow a sum of money for said purposes as provided by law, said land being in accordance with plan on file with the Town Clerk and Town Engineer, or take any other action relative thereto.

—Selectmen.

Voted, That the Town appropriate \$20,000.00 from the Excess and Deficiency Account for acquiring by purchase or taking by eminent domain, land adjoining Peggoty Beach in accordance with plans on file with the Town Engineer and Town Clerk for recreational purposes, with space for parking vehicles, and for

improving and maintaining said premises for the public use of its inhabitants under the direction of the Selectmen.

Article 30

To see if the Town will accept the layout of the Selectmen altering and re-locating First Parish Road at the Junction of new Route 3A as on file in the office of the Town Clerk, the necessary land to be acquired from Annie S. Kaplan, a resident of said First Parish Road, in consideration of the transfer of portions of said roadway previously abandoned by the Town; and to see if the Town will raise and appropriate \$1,500 for the improvement of the said layout, or take any action relative thereto. —Selectmen.

Voted Voted, Yes. \$1,500.00.

Article 31

Will the Town accept the layout of the Selectmen affecting changes in the present lines of Edward Foster Road easterly and northerly from Edward Foster Bridge and as on file at the Town Clerk's office and raise and appropriate the sum of \$1,600 to cover land damage and improvement of same, or act thereon.—Selectmen.

Voted, Yes. \$1,600.00.

Article 32

Will the Town accept the layout of the Selectmen on the Southerly side of Beaver Dam Road and Westerly side of Hazel Avenue as on file at the office of the Town Clerk and the gift by deed of Annie P. Foster granting

the land for highway purposes and raise and appropriate \$1,750 for same, or act thereon? —Selectmen.

Voted, Yes. \$1,750.00.

Article 33

Will the Town accept the layout of the Selectmen making Sixth Avenue, in that section of the Town known as Hatherly Beach, a Town highway as on file at the Town Clerk's office and raise and appropriate the sum of \$1,500.00 for the improvement of the same, and act thereon? —Selectmen.

Voted, Yes. \$1,500.00.

Article 34

Will the Town appoint a committee of five composed of Chairman Selectmen, Chairman School Committee, Chairman Park Committee, Highway Surveyor, and one to be appointed by the moderator to investigate the draining situation on easterly and westerly side of Town Owned Property on Cudworth Road and report at the next annual Town Meeting, or act thereon.

—Selectmen.

Voted, Yes.

Article 35

To see if the Town will raise and appropriate the sum of \$713.50 for the publishing of the historical books commemorating the Town's Tercentenary and provide for their disposition so that the Town may be reimbursed for said expenditure, or take any action thereto. —Tercentenary Committee.

Voted, That the Town raise and appropriate the sum of \$713.50 for the publishing of the historical books commemorating the Town's Tercentenary, and that the Scituate Historical Society be appointed custodian of said books and said Society to pay to the Town the proceeds of sales of said books, so that the Town may be reimbursed for said expenditure.

Article 36

Will the Town vote to appoint a committee of 3 to consider the acceptance of Section 13, Chapter 40, of the General Laws (Ter. Ed.) with reference to municipal insurance, said committee to report at a subsequent Town Meeting, or act thereon? —Selectmen.

Voted, Yes.

Article 37

Will the Town raise and appropriate the sum of Twenty-seven thousand five hundred dollars (\$27,500) and authorize and instruct its Board of Fire Engineers to expend said sum for an aerial ladder truck with equipment; the extension of the fire alarm system to First, Second and Third Cliffs; and the remodelling of the Brook Street Fire Station; Fifty-five Hundred Dollars (\$5,500) to be raised in the current tax levy and the balance to be borrowed by loans payable within five years, or take any other action relative thereto?

—Board of Engineers.

Voted, That the Town raise and appropriate the sum of \$27,500.00 and authorize and instruct its Board of Engineers to expend said sum for an aerial ladder truck with equipment, the extension of the fire alarm system to First, Second and Third Cliffs, and the re-

modelling of the Brook Street Fire Station; and that the Town raise \$5,500.00 in the current tax levy and the Town Treasurer be and hereby is authorized to borrow \$22,000.00 with bonds or notes therefor to be payable in accordance with the provision of General Laws, Chapter 44, so that the whole loan shall be paid in not more than five years from the date of issue of the first bond or note or at such earlier date as the Town Treasurer and Selectmen may determine.

Yes 290, No 66 (2/3 vote required).

Article 38

Will the Town raise and appropriate the sum of Eight Thousand Five Hundred Thirty-six Dollars and Eighty Cents (\$8,536.80) to remodel and enlarge the Brook Street Station known as Engine One House, or take any other action relative thereto? —Board of Engineers.

Voted, To indefinitely postpone.

Article 39

Will the Town raise and appropriate the sum of Fifteen Thousand Dollars (\$15,000) for an aerial ladder truck with equipment, or take any other action relative thereto? —Board of Engineers.

Voted, To indefinitely postpone.

Article 40

Will the Town raise and appropriate the sum of Four Thousand Dollars (\$4,000) for the extension of

Fire Alarm System to the First, Second, and Third Cliffs or take any other action relative thereto?

—Board of Engineers.

Voted, To indefinitely postpone.

Article 41

Will the Town accept Section 48 of Chapter 31 of the General Laws of Massachusetts so that its regular fire force shall be subject to said Chapter 31 and rules made thereunder, said acceptance to include both the regular and call members of the Scituate Fire Department?

—Board of Engineers.

Voted, Yes 414, No 176, Blanks 1.

Article 42

“That the Town, for the purpose of discharging a moral obligation, appropriate a sum of money not to exceed \$8,000 to be paid to Henry T. Cole of said Town for work and materials furnished to said Town in connection with the contract or contracts for making fill on the waterfront side of Front Street in said Town:—the payment of such appropriation so made being dependent upon an affirmative vote by the registered voters of said Town on the official ballot for the election of Town Officers at the Annual Town Meeting for 1937 on which ballot there is to be printed, in accordance with the Acts and Resolves of the Commonwealth of Massachusetts for 1936, Chapter 235, Sects. 1 to 3 inclusive, the question of whether such payment should be so made to the said Henry T. Cole.”

—Ernest L. Pinkham, et al.

Voted, To lay on table.

Article 43

To see if the Town will appropriate from funds in the Treasury, the amount earned by or appropriated for the Water Department, and a sum of money equal to, but not exceeding the amount of the water revenue, to meet the payments of bonds, interest, operation and improvement of the Water Department for the ensuing year, or take action relative thereto.

—Water Commissioners.

Voted, That an amount equal to the revenue for the ensuing year be appropriated for the use of the Water Department as follows:

For payment of bonds	\$29,000.00
For interest on water bonds	25,336.25
For maintenance, operation and improvement of the Water Department the actual balance of the water revenue to be received, now estimated at	36,735.23

Article 44

To see if the Town will raise and appropriate a sum of money to be expended by the State Department of Public Works with State Funds in conjunction with any funds which may be contributed therefor by the County Commissioners for the eradication of a pest constituting a public nuisance in the Musquashcut Pond section as provided for in a special act of the Massachusetts Legislature and in co-operation with the Federal Government in unemployment relief; and borrow a sum of money for said undertaking; or take any other action relative thereto.

—Board of Health.

Voted, To indefinitely postpone.

Article 45

Will the Town raise and appropriate Twenty-five Hundred Dollars to be expended under the direction of the Board of Health for the eradication of public health nuisance in and around Musguashcut Pond and seek the co-operation of the Federal Government for unemployment relief through this project, or take any other action relative thereto? —Board of Health.

Voted, Yes 188, No 73. \$2,500.00.

Article 46

Will the Town raise and appropriate the sum of \$3,800.00 for the purchase of a compressor unit mounted on truck together with the necessary tools to be used by the Highway Department, or act thereon?

—Road Surveyor.

Voted, Yes. \$3,800.00.

Article 47

To see if the Town will raise and appropriate the sum of fifteen hundred dollars (\$1,500) for care and upkeep of Civic Center Grounds. —School Committee.

Voted, Yes. \$1,500.00.

Article 48

To see if the town will raise and appropriate the sum of seven hundred ninety-one dollars and fifty cents (\$791.50) to purchase materials for placing two hydrants at Jenkins School for fire protection.

—School Committee.

Voted, Yes. \$791.50.

Article 49

To see if the Town will raise and appropriate a sum of money for providing quarters for the Satuit Post of the Veterans of Foreign Wars, Number 3169, by repairing and remodelling the Greenbush Fire Station, so that the second floor thereof may be available for said Veterans' organization.

—Elmer F. Ramsdell, Chairman Housing Committee.

Voted, No.

Article 50

To see what sum the Town will appropriate or what action the town will take to provide quarters for the Satuit Post No. 3169, Veterans of Foreign Wars, in accordance with the provisions of General Laws, Chapter 40 (Ter. Ed.), Section 9.

—Elmer F. Ramsdell, Chairman Housing Committee.

Voted, \$350.00.

Article 51

To see if the Town will raise and appropriate the sum of \$1,000 to be expended in keeping the beaches of Scituate free from glass, kelp, driftwood, etc., during the period from June 15 to Sept 15, inclusive, or act thereon.

—Harold C. Stonefield et al.

Voted, To lay on table.

Article 52

Will the Town raise and appropriate the sum of \$10,000 for the construction of sidewalks, the same to

be designated by a committee, consisting of the Chairman of Selectmen, Chairman of the Public Welfare, Chairman of the Advisory Board, Highway Surveyor and Moderator, or act thereon?

—George W. Duffey et al.

Voted, To indefinitely postpone.

Article 53

tween the residence of John Ford and the residence of Charles Waterman. —James H. Gillis, Sr., et al.

Voted, To be placed in hands of Selectmen without appropriation.

Article 57

Will the town raise and appropriate the sum of five hundred dollars (\$500.00) for a series of seven (7) band concerts? Five to be given at specified times and one each for the Fourth of July and Labor Day, or act thereon.

—Scituate Veterans' Band, L. O. Bush, President, et al.

Voted, Yes. \$500.00.

Article 58

Will the Town raise and appropriate a sufficient sum of money to remedy the clogging of drain near the corner of Hatherly Road and Gannett Road, or act thereon?

—Elsie F. Burr, et al.

Voted to refer contents of this article to Highway Surveyor.

Article 59

Will the Town raise and appropriate the sum of three hundred sixty dollars to install an amplifying equipment in the High School Auditorium, or act thereon?

—Selectmen.

Voted, Yes. \$360.00.

Article 60

Will the town authorize the Selectmen and their successors in office to sell at public or private sale any of the property which the town may have acquired, or may hereafter acquire, through proceedings for the sale of lands of low value or through proceedings based upon

non-payment of taxes, to impose upon the property so sold such restrictions, reservations or conditions as shall be deemed expedient, and to execute and deliver in the name and under the seal of the town quitclaim deeds or other instruments therefor? —Selectmen.

Voted, That the Selectmen and their successors in office be, and the same hereby are, authorized to sell at public or private sale any of the property which the Town may have acquired or may hereafter acquire through proceedings for the sale of lands of low value or through proceedings based upon non-payment of taxes, to impose upon the property so sold such restrictions, reservations or conditions as shall be deemed expedient, and to execute and deliver in the name and under the seal of the Town quitclaim deeds or other instruments therefor.

It was unanimously voted at this meeting to accept the following resolution, this to be spread upon the records and a copy sent to Mrs. Herbert G. Summers.

Resolution upon the death of our fellow townsman and former town official, Herbert G. Summers:

Whereas, the Town of Scituate has lost a friend of many years standing in the death of the Honorable Herbert G. Summers who has served the Town faithfully as a Selectman and member of the Advisory Board and who has been our public benefactor in many other ways

Wherefore, be it resolved that this meeting express its sympathy to Mrs. Summers and family, and instruct the Town Clerk to send a copy of this resolution to the bereaved family of our departed fellow citizen.

The meeting adjourned at 4:20 P. M.

Attest: WILLIAM M. WADE,

Town Clerk.

SPECIAL TOWN MEETING

Held September 27, 1937

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs held at the High School Auditorium in said Scituate on Monday the twenty-seventh day of September at 8 o'clock P. M., the meeting was called to order by Moderator William J. Roberts.

The Warrant was read by Town Clerk William M. Wade.

Tellers appointed by the Moderator and sworn to their duties by the Town Clerk were: William E. Shuttleworth, J. George Vollmer, Nathaniel Tilden, Frank W. Clapp, Peter S. Somers, Ralph C. Ackerman, Donald W. Parsons.

Article 1

Will the Town accept Section 103A of Chapter 54 of General Laws as amended, which provides for absent

voting at regular Town elections? —Town Clerk.

Vote, Yes. Unanimous vote.

Article 2

Will the Town vote to accept General Laws, Chapter 82, Section 37, as amended by Acts of 1925, Chapter 130, which provides that building lines may be established in the same way that streets are laid out and subject to such claims for damages as may result therefrom?

—Selectmen.

Voted, No.

Article 3

Will the Town vote, in accordance with the provisions of said Chapter 82, Section 37, to accept the building line proposed to be established by the Selectmen on the westerly side of Front Street 15 feet in from the present line of the street, with a provision in said layout that buildings or parts of buildings now existing between said building line and the street be permitted to remain and to be maintained notwithstanding said building line?

—Selectmen.

Voted, To refer the matter of building lines to the Planning Board and that the sentiment of the meeting is for any action possible to preserve the shade trees on Front Street.

Article 4

To reserve spaces between the side lines of streets for trees and grass and for planting. —Selectmen.

Voted, To refer to Planning Board.

Article 5

To authorize and instruct the Selectmen to purchase or take by eminent domain, as they may deem advisable, for street widening purposes the unoccupied land between said or such building line described in Article 3 and the street. —Selectmen.

Voted, To refer to Selectmen.

Article 6

Will the Town raise and appropriate or transfer the sum of ten thousand dollars (\$10,000) to remodel and enlarge the Brook Street Station, known as Engine One House, or take any other action relative thereto?

—Mark W. Murrill, Daniel A. Killeffer, Engineers.

Voted, that the town transfer from the surplus fund the sum of ten thousand dollars to remodel and enlarge the Brook Street Station, known as Engine One House, in accordance with plans now on file with the Town Clerk, and that A. K. Williams, Daniel Killeffer and Mark Murrill be appointed as a committee of three to have full charge of the expenditure of said money.

Vote: Yes, 260; No. 2.

The meeting adjourned at 9:40 o'clock P. M.

Attest: WILLIAM M. WADE,
Town Clerk.

SPECIAL TOWN MEETING

Held November 29, 1937

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs held at the High School Auditorium in said Scituate on Monday the twenty-ninth day of November, 1937, at 8 o'clock P. M., the meeting was called to order by Moderator William J. Roberts.

The Warrant was read by Town Clerk William M. Wade.

Tellers appointed by the Moderator and sworn to their duties by the Town Clerk were: J. George Vollmer, Frank W. Clapp, Robert T. Stearns, Louis G. Keyes, Robert Gardner, William F. Ford, Thomas F. Hernan.

ARTICLE 1

What action will the Town take concerning report of the Planning Board, said report states as follows: "To the Citizens of the Town of Scituate: Your Planning Board would, in accord with your request made at the Special Town Meeting held September 27, 1937, respectfully present their report for the conservation of the trees on Front Street."

"We believe, to conserve these trees it will be necessary to take land on the west side of Front Street, starting at a point on Brook Street, 120' more or less from the southwest corner of land now or formerly owned by Laura E. Hall, to a point on Willow Street 200'

more or less from the northeast corner of land now or formerly owned by L. Blanch Wilcox and land fronting on Front Street from all properties between above points, all as shown on drawing marked, 'Compiled Plan, Business District, Scituate Harbor, Scituate, Mass.' ”

“This land taking would, in general, straighten the west side and widen Front Street in its entire length.”

“The added land would, in general, be used for added road surface, tree area and new sidewalk.”

“The land taken would be 60,000 sq. ft. more or less and together with buildings take in whole or part, appears to be assessed for approximately \$34,500.”

“The cost of new road surface, tree area and new sidewalks would be approximately \$7,000.”

“We believe that the new sidewalks, tree planting area and added surface to road would be of great value to citizens of the town and all engaged in business in this area, and further believe that the saving of existing trees and planting of others would give a dignified main street and be of great worth to the future generation and also to the material value of this section of the town.”

Respectfully submitted,

A. K. WILLIAMS, Chairman.
RALPH C. ACKERMAN
PERCIVAL D. NASH
STEPHEN C. WEBSTER
HAMILTON WELCH

Voted, To indefinitely postpone.

ARTICLE 2

Will the Town raise and appropriate the sum of \$3,000 to meet expense entailed in order to obtain survey, plans, specifications and estimates as per findings contained in preceding Article 1, or act thereon?

—Selectmen.

Voted, To indefinitely postpone.

ARTICLE 3

To see if the Town will vote to raise and appropriate the sum of Forty Thousand Dollars (\$40,000) for the Board of Water Commissioners to construct a standpipe with the necessary foundation and appurtenances. Also to lay a main subject to G. L. Ch. 44, s. 7, cl. 5 and 6, from the above mentioned standpipe to, and connecting with, the mains in the Scituate water system; to determine the manner of raising said sum and authorize the Treasurer, with the approval of the Selectmen, to issue bonds or notes of the Town for a part thereof, said bonds or notes to be payable in accordance with Chapter 44 of the General Laws, the whole loan to be paid in not more than ten years, or at such earlier date as the Treasurer and Selectmen may determine; or take any action thereon. —Water Commissioners.

Voted, To authorize the Treasurer to borrow the sum of \$40,000.00 for the purpose of erecting a standpipe with the necessary foundation and appurtenances, and also of laying water mains from the above mentioned standpipe to, and connecting with, the mains in the Scituate water system, and authorize the Treasurer with the approval of the Selectmen, to issue bonds or notes

to be payable in accordance with Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than ten years, or at such earlier date as the Treasurer and Selectmen may determine.

Vote: Yes, 308; No, 7.

ARTICLE 4

To see if the Town will vote to authorize and instruct the Board of Water Commissioners to purchase from Grace B. Weymouth of Scituate, Mass., a parcel of land on the southeasterly side of Mann Lot Road, near Hatchet Rock, to include an area of sufficient size upon which to erect a standpipe and also a right of way there-to from Mann Lot Road, in which to lay and maintain a water main and connections from said standpipe to Mann Lot Road. Said parcel containing 1.1 acres of land, more or less, and being bounded and described as shown on plan of land, filed with the Town Engineer, and being part of land acquired by Frank and Grace B. Weymouth, from Mary C. Manning, by deed, dated November 29, 1927, and recorded December 2, 1927, with the Plymouth County Registry of Deeds, Book 1535, Page 217, and to see if the Town will appropriate a sum not to exceed \$200.00 for said purchase, payment to be made from any income of the Water Department available therefor, or act thereon.

—Water Commissioners.

Voted, To authorize and instruct the Board of Water Commissioners to purchase from Grace B. Weymouth of Scituate, Mass., and take title to a parcel of land on the southeasterly side of Mann Lot Road near Hatchet Rock, to include an area of sufficient size upon which

to erect a standpipe and also a right of way thereto from Mann Lot Road, in which to lay and maintain a water main and connections from said standpipe to Mann Lot Road. Said parcel containing 1.1 acres of land, more or less, and being bounded and described as shown on plan of land, filed with the Town Engineer, and being part of land acquired by Frank and Grace B. Weymouth from Mary C. Manning by deed, dated Nov. 29, 1927, and recorded Dec. 2, 1927, with the Plymouth County Registry of Deeds, Book 1535, Page 217, and to see if the Town will appropriate a sum not to exceed \$100.00 for said purchase, payment to be made from any income of the Water Department available therefor.

Vote: Yes, 291; No, 1.

The meeting adjourned at 9:10 o'clock P. M.

Attest: WILLIAM M. WADE,
Town Clerk.

Parents, be sure to record the birth of your child with given name in full.

READ THE LAW!

"Parents, within forty days after the birth of a child, and every householder, within forty days after a birth in his house, shall cause notice thereof to be given to the clerk of the town where such child is born." General Laws, Chapter 46, Section 6.

SOME OF THE MANY REASONS WHY BIRTHS SHOULD BE RECORDED

To establish identity.

To prove nationality.

To prove legitimacy.

To show when the child has a right to enter school.

To show when the child has the right to seek employment under the child labor laws.

To establish the right of inheritance to property.

To establish liability to military duty, as well as exemption therefrom.

To establish the right to vote.

To qualify to hold title to, and to buy and sell real estate.

To prove the age at which the marriage contract may be entered into.

To establish the right to public office.

To make possible statistical studies of the health conditions.

Your co-operation to the end that all births may be properly recorded will be greatly appreciated.

Blanks for returns of births will be furnished upon application to parents, householders, physicians, and registered medical offices as provided in Chapter 46, Section 15, General Laws.

DEATHS REGISTERED IN SCITUATE IN THE YEAR 1937

Date	Name of Deceased	Age		Cause of Death	Names of Parents

REPORT OF POLICE DEPARTMENT

Honorable Board of Selectmen:

Gentlemen:

The report of the Police Department is herewith respectfully submitted for your approval.

This report is based upon activities of the Department from January 1, 1937 to December 31, 1937.

Arrests, 192.

Assault	1
Assault and battery	2
Assault with intent to commit rape	1
Bastardy	2
Breaking and entering in the daytime	4
Being present where gaming implements were found	7
Collecting junk without a license	3
Drunkenness	81
Disturbing the peace	18
Illegal entry into the United States	1
Insane	5
Larceny	15
Lewd and lascivious co-habitation	2
Neglect to support minor children	3
Non-support of wife and minor children	2
Maintaining betting rooms	1
Performing electrical work, not being licensed	2

ANNUAL REPORT, TOWN OF SCITUATE, 1937

Receiving stolen goods	3
Suspicious person	2

Motor Vehicle Violations

Leaving the scene after causing damage to property	4
No license in possession	1
Operating under the influence	14
Operating so as to endanger	2
Refusing to stop upon signal of police officer	2
Speed	11
Violation of traffic ordinance	2
Unlawful appropriation of motor vehicle	1

SUMMARY OF DISPOSITIONS

Fines imposed	58
Committed to House of Correction	2
Committed to State Hospital	5
Probation	26
Filed	25
Dismissed	10
Sentenced to House of Correction—suspended	14
Not guilty	5
Released—first offence—drunkenness	41
Pending	5
Turned over to immigration authorities	1
Amount of fines imposed	\$1,273.50
Amount reverting to the credit of the town ..	513.50

All fines imposed for violation of the motor vehicle laws reverts to the County. Fines levied in the District Court and appealed, if paid in Superior Court are also credited to the County. This explains the difference between the amount of fines imposed and the amount returned to the town treasury.

ANNUAL REPORT, TOWN OF SCITUATE, 1937

Complaints investigated by police officers	2328
Cottages inspected	3543
Fires discovered by police officers	7
Fires covered by police officers	74
Notice of intended sale or transfer of motor vehicles	57
Motor vehicle accidents investigated by police officers	59
Operators booked by police officers	247
Pistol permits issued	20
Summonses served for other police departments	97
Windows not secure and lights left on in stores, etc.	277
Unlocked buildings secured by police officers	193

AMBULANCE SERVICE

We believe that this service is deeply appreciated by the citizens and taxpayers generally. We are in receipt of many letters of commendation, from those who have required the services of the ambulance, in praise of the utility itself and the conduct of the officers who served as operators and assistants in this service. 137 trips were made for a total mileage of 4918 miles. The time required by officers on ambulance work sums up to approximately 39 working days. Charges totaling \$100.00 were billed to non-taxpayers or non-citizens who have been served by this ambulance. Of this amount \$70.00 has been received and turned over to the town treasurer. The cost of maintenance was \$351.09, which amount includes garage rent for a period of six months. The ambulance is now garaged in the basement of the police station. The tires on the ambulance are with one exception, the original tires which have been worn since 1935. The chassis should be checked by a competent mechanic and body bolts tightened. We therefore submit as an estimate, \$350.00 for ambulance maintenance for 1938.

INSPECTION OF COTTAGES

All untenanted cottages and homes have been checked as often as time permits. A tag is left by the inspecting officer, with the day and date of his visit—noting anything discovered out of place. Loose shutters, blinds, windows, etc., are secured by the officer. If it appears that the property has been entered unlawfully, or damage from any cause, is such as cannot be readily repaired, the owner is notified either by phone or in writing.

FIRST AID ROOM

The first aid room has been used more often this past year than at any other 12 months period, since it was established in 1926. It has proven a great convenience, particularly in cases of accidents, to bring the patient to the first aid room for treatment—a doctor having usually been contacted by an emergency call before the patient's arrival at the first aid room. The expense of maintenance has been negligible and is more than justified by the results obtained. We are hopeful that a new hospital bed may soon replace the antiquated cot now in use. This we are led to believe will come as a donation from those who have shown an interest, in the improvement of the equipment in the first aid room.

POLICE SCHOOL

The 1936–37 sessions of this school of instruction were carried on for the 7th consecutive year, and it is planned to continue this course of instruction in 1938. During the sessions of 1936–37 police officers from Hull, Hingham and Cohasset and other towns in the district attended this school. We feel that this department can

take a justifiable pride as being among the pioneers in conducting such a school, which since its inception has become the prevailing practice in many other police departments throughout the Commonwealth. We have been encouraged by the interest shown by many of the local citizens by their continued attendance at these sessions, which are open to the public.

RADIO SERVICE

The readiness with which the officers in the police cars can be contacted and conversations carried on between the officer on the desk and the officers in the cars would seem to make the value of this service inestimable. In addition, in any emergency contact can be made almost instantly, with many other departments, on the same wave length, for a distance of approximately 20 miles, and beyond that, if necessary, the message will be relayed. The cost of this service has added little if anything to the police budget for upon installation of the two-way radio, we dispensed with four telephone police boxes, thereby effecting a saving of approximately \$280.00 per year.

No police department can, in our opinion, function efficiently without the support and co-operation of those to whom it is responsible, the Board of Selectmen and citizens of the community. We are deeply appreciative of the co-operation extended to us at all times by your Honorable Board and the citizens generally and we express our appreciation and due thanks.

Respectfully submitted,

M. E. STEWART,
Chief of Police.

REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen

Gentlemen:

The report of the Fire Department for the year 1937 is herewith submitted for your approval.

During the year 1937, the department responded to 152 alarms, a detailed report of which will be found attached hereto.

In accordance with the vote of the citizens, the department has purchased a Seagrave Junior Aerial Ladder truck which is now in service and is housed at the Brook Street Fire Station.

This station was remodeled with funds raised at a special town meeting and the work was in charge of a building committee appointed by the same meeting.

The department purchased 1000 ft. of 2½ inch hose, which purchase was not anticipated in the budget for the year. This purchase was made necessary by the loss of several hundred feet of hose at the Satuit Theatre fire. There is enough hose in service and in reserve to serve the department for the coming year.

It is the feeling of the Board that the operating budget for this department be substantially the same as last

year. The enlarged station at Brook Street will, of course, cause an increase in the Maintenance, Light and Fuel items, as will the additional piece of apparatus affect the Apparatus Expense and Supply items. With careful supervision and barring any emergency expense, it would seem that the same budget will be sufficient to operate the department in a proper manner.

The Board extends its thanks to the Board of Selectmen and to all the officials with whom it has worked, and to the citizens of the Town of Scituate, for their support and co-operation.

Respectfully submitted,

CHARLES M. LITCHFIELD,
HARRY T. HANDY,
MICHAEL F. WELCH,
MARK W. MURRILL,

Board of Engineers.

ANNUAL REPORT
OF THE
WATER DEPARTMENT
FOR THE
TOWN OF SCITUATE
YEAR ENDING DECEMBER 31, 1937

SANDERSON BROTHERS
North Abington, Massachusetts

REPORT OF THE WATER COMMISSIONERS

The year 1937 has produced further progressive development in the operation of the Water Department.

The early part of the year was occupied in developing and producing more ground water supply. Two six-inch Transite, gravel wall, wells were built in the upper reaches of Webster Meadow, and an additional supply of two hundred gallons a minute was delivered to the system during the summer.

The main being laid on Old Oaken Bucket Road was continued along Grove Street to First Parish Road, completing the circuit and strengthening the whole system considerably.

Several short extensions of main were made where the Commissioners felt it was most expedient.

Additional storage capacity has been considered of prime importance and the Commissioners placed an article in the warrant of a special Town meeting during the fall, asking for authority to borrow \$40,000. for the erection of a standpipe and laying mains.

This authority was granted and plans were started at once. The location selected was Lookout Pasture on Mann Lot Road.

During December when the unemployment situation in Scituate was very serious, the Commissioners de-

cided to spend all of the funds remaining in the treasury, for labor, and laid a main to be used as a connection between the standpipe and the system. The foundation for the standpipe was also placed at this time. This work provided money for many families over the holiday season.

Specifications were drawn up and arrangements made to award the contract for the standpipe, in January 1938.

The addition of the standpipe to the system is one of the outstanding features of importance.

WILSON S. BROWN,
STEPHEN C. WEBSTER,
WILLIAMS B. JAMES,

Commissioners.

SUPERINTENDENT'S REPORT FOR THE YEAR ENDING
DECEMBER 31, 1937

*To the Honorable Board of Water Commissioners:
Scituate, Mass.*

Gentlemen:

Following, I beg to submit the Sixth Annual Report of the Water Department, which includes a chronicle of the activities of the Department throughout the year, 1937, and recommendations for your consideration.

Owing to the limited amount of W. P. A. labor available, the work of laying the main on Grove Street proceeded slowly and was not entirely finished until the early part of July. The laying of this main completed a circuit through Sherman's Cor. and Mungo's Cor., reinforcing the entire system, more particularly in the Westerly part of the Town. When this line of main pipe was finally completed and incorporated in the system, there was a very noticeable reduction in the dynamic head at the pumps in Webster Meadow. Previously in 1936, with three units pumping 538,000 gallons per day, the average head was 222 feet. After the new line was opened and with three units pumping 688,000 gallons per day, the average head was 208 feet, showing a very desirable increase in efficiency. These figures indicate that twenty-eight percent more water was being pumped from this source through these mains under less pressure than had previously been possible.

Exploration for water was carried on at Humarock in January and February, but inasmuch as nine gallons per minute was the maximum pumped at any time, the work was abandoned at that location.

The well rig was then moved to Webster Meadow where two holes about fifty feet deep were drilled. These holes were twelve inches inside diameter and a six-inch Transite screen and well pipe was set in each one. A gravel wall was placed around the Transite and the well developed until each produced more than one hundred gallons per minute. Transite screen and pipe was used to eliminate corrosion. A six-inch turbine pump was set in each well and the discharge lines joined into a single line and connected to the suction side of a centrifugal booster pump, which forced the water into the main on Cornet Stetson Road. This combination of pumps worked very satisfactorily and furnished a very much needed additional supply of water at the time when it was demanded.

During the year various short extensions were made to the mains in different parts of the Town to supply domestic and fire service to new construction. Details of these extensions are in the accompanying tables. An extension was laid from the main in Front Street to the northerly end of the parking space where a hydrant was set to cover the rear of the business blocks on the easterly side of Front Street. At this time a cross was set in the line on the easterly side of Front Street. This connection was placed to allow for a future installation of a six-inch main on the easterly side of Front Street. The six-inch main would supply service for all of the business blocks on the same side of the street, using a shorter service at less cost, and eliminating the cost of the work and the general disturbance and in-

terference with traffic and the undesirable conditions of the road surface, concurrent with trench excavations, that otherwise would necessarily have to be made across the entire width of the street.

An extension was also made at the Brook Street Fire Station, to set a hydrant on the southerly side of the station to be used in fire drill.

A project for laying a main from First Parish Road to the rear of the Jenkins School and setting two hydrants for fire protection was presented to, and accepted by, the W. P. A. The pipe and fittings and hydrants were bought and delivered on the site of the work, but because W. P. A. labor has not been available, the work has not yet been started.

The Old Oaken Bucket pumping station and filters have, as part of the regular routine, been tuned up and placed in order, ready for emergency demand. The filter machinery and the Diesel motor and pumps, and generator have been operated on several occasions to insure delivery of potable water if the demand should arise.

The fact that this demand has arisen several times during the last few years caused the Department considerable alarm and at a special Town Meeting on Monday, November 29, 1937, the Commissioners requested and received authority to borrow \$40,000.00 for the purpose of erecting a standpipe and laying mains for connections to the system.

Because the unemployment condition was very serious at this time, the Commissioners decided to use all the available funds in the Water Department, for labor.

The work was distributed just as far as possible and employment was given to every applicant who was eligible, and with this labor a line of 14-inch Transite pipe was laid, which will be used as a connection to the standpipe. The concrete base was also poured at this time and preparations were being made to contract for the erection of the standpipe.

A part of the system which should be given careful attention in the near future is the extension of the main on Tilden Road. This line should be carried to Egypt Beach Road, where a connection should be laid to Hatherly Road and a further extension from Tilden Road along Norwell Avenue, to connect with several other lines that should be completed through Dayton, Edgar, Fay, Garden, Hawley, and others in this same grid to Hatherly Road. These lines would give a very considerable reinforcement to the beaches as well as completing the circuit from Tilden Road, and also eliminating numerous shallow lines which are troublesome and expensive.

The shallow lines at Humarock are a source of trouble at all times, and deep mains should replace these small shallow lines as rapidly as feasible.

There are still many small shallow lines existing in the system that require annual expenditures for cleaning and placing in operation in the Spring, and draining and closing off in the fall. These and some small lines should be replaced as money becomes available.

Another line that should be considered particularly in connection with the erection of the new standpipe, is the extension through Mann Lot Road to Clapp Road.

This line would complete another circuit and also the main grid for the westerly part of the Town.

With the proposed 1,250,000 gallon standpipe incorporated in the system, it would seem that the present available supply of water might be adequate for a few years, unless a building boom and the probable accompanying increase in population should occur. Because Scituate is a desirable town to live in, and is becoming relatively closer to the cities through the increased construction of good roads and automobiles, there is a possibility of a growth in population in the near future and consequent increase in demand for water.

WILLIAM J. LUMBERT,
Superintendent.

Comparative Rainfall Table in Inches

Months	Actual Rainfall Scituate	Actual Rainfall Boston	Normal Rainfall Boston	Scituate Excess or Deficiency

General Statistics

Population by census of 1935—3,846.

Construction of system started—1893.

Now owned by the Town of Scituate.

Valuation, December 31, 1937—\$895,577.01.

Sources of Supply—Ground water from wells and the Old Oaken Bucket Pond.

Water is supplied to the system through pumps as shown.

Pumping Statistics

1. Smith Vail Triplex pump electrically driven by 10 H.P. Century Motor.
2. Fairbanks Morse Turbine pump driven by 30 H.P. Fairbanks Morse electric motor.
3. Fairbanks Morse Duplex pump driven by 15 H.P. Howell motor.
4. Dean Hill centrifugal pump driven by DeLaVergne 130 H.P. diesel engine.
5. Smith Vail Triplex pump driven by DeLaVergne 35 H.P. diesel engine.
6. Byron Jackson centrifugal pump electrically driven by 40 H.P. G. E. motor.
7. Byron Jackson centrifugal pump electrically driven by 75 H.P. G. E. motor.
8. Byron Jackson centrifugal pump electrically driven by 75 H.P. G. E. motor.

9. Sterling deep well pump electrically driven by 10 H.P. U. S. motor with Morris centrifugal booster pump driven by 10 H.P. G. E. motor.
10. Sterling deep well pump electrically driven by 10 H.P. G. E. motor with Morris centrifugal booster pump driven by 7½ H.P. G. E. motor.
11. Peerless deep well pump electrically driven by 15 H. P. G. E. motor with Morris centrifugal booster pump driven by 7½ H.P. G. E. motor.
12. Fairbanks Morse deep well pump driven by 15 H.P. Fairbanks Morse motor.
14. Fairbanks Morse Turbine driven by 3 H.P. F. M. electric motor.
15. Fairbanks Morse turbine driven by 3 H.P. F. M. electric motor.
16. Gardner Denver centrifugal driven by 20 H.P. G. E. motor.

All pumping is done by Diesel engines or electric motors.

REPORT OF SEALER OF WEIGHTS AND MEASURES

January 1, 1938

Board of Selectmen
Scituate, Mass.

Gentlemen:

My report for the year ending December 31, 1937, is as follows:

Devices condemned, being unfit for use in trade, twenty-five (25); adjustments on devices of various kinds, ninety-five (95); non-sealed devices (not in use at present time), twenty-four (24); sealed devices used in trade, six hundred and twenty-eight (628).

Fees and adjustment charges collected for work done in 1937, ninety-five dollars and thirty cents (\$95.30). Fees for work in 1936, four dollars and nineteen cents (\$4.19). Fees for work in 1933, one dollar and eighteen cents (\$1.18). Paid over to the Town Treasurer, one hundred dollars and sixty-seven cents (\$100.67). At the present date there are no accounts outstanding.

This year the Town received approximately one hundred and ten dollars (\$110) for the sale of Peddler's licenses, twenty dollars from the sale of Junk licenses and three hundred and fifty dollars (\$350) from Transient Vendors' fees.

ANNUAL REPORT, TOWN OF SCITUATE, 1937

Many inspections were made of various package goods and other food products. Inspection work was made of peddler licenses, scale work and transient tradespeople.

The various devices used in trade in the Town are in very good condition (generally speaking).

Transient vendors caused this department more or less trouble last year, but much credit is due our Town Clerk in the manner in which he worked, with this office, in bringing about settlement of the fee that transients are required to pay the Town.

If at any time anyone has any question about the work or licenses, in fact anything relative to this office, I'd be pleased to answer any question at any time.

The lack of space does not permit detail description of all work, therefore I am required to make a concise report.

Respectfully submitted,

EUGENE H. LANE,

Sealer of Weights and Measures.

REPORT OF THE TREE WARDEN

To the Citizens of Scituate:

During the past year we have planted seventy-eight shade trees on our streets.

The Elm leaf beetle is becoming a very serious situation. The appropriation that is allotted is not sufficient to spray our elms as they should be and I am asking for an increased allotment this coming year in order to spray them thoroughly.

The Gypsy and Brown Tail moths are very bad in Marshfield and Cohasset, and the outlook for Scituate does not look good for this year. The two neighboring towns were defoliated to the extent of five hundred acres.

I have endeavored to keep the corners and intersections as free as possible from brush, weeds and undergrowth, throughout the town.

Yours respectfully,

WILLIAM F. FORD,
Tree Warden.

REPORT OF FOREST FIRE DEPARTMENT

January 13, 1938

To the Board of Selectmen
Town of Scituate

Gentlemen:

I submit herewith, for your approval, the report of the Forest Fire Department for the year 1937.

During the year, the department responded to seventy-eight calls, a detailed report of which will be found incorporated with that of the Fire Department. A great majority of these calls were handled by the permanent firemen without resorting to the the audible alarm system. This, of course, means that those fires were of small magnitude and in the less hazardous locations.

At the time your Forest Warden took office, the appropriation had been exhausted and an overdraft of \$200.00 had been transferred to this department's use. Of this transfer, \$53.08 had also been expended. This left \$146.92 available for the ensuing eight months. Of this sum, there was left a balance of \$17.34 as of December 31. This is due, in great part, to the small number of fires occurring during this period.

The apparatus is in decidedly poor repair and will require immediate attention.

The hose equipment should be augmented by the pur-

chase of five hundred feet of one inch rubber lined cotton hose.

The salary item is, of course, unpredictable and should be set substantially the same as last year.

It is my opinion that the appropriation should be practically the same as last year.

Respectfully submitted,

CHARLES M. LITCHFIELD,
Forest Warden.

January 13, 1938

To the Board of Selectmen
Town of Scituate

Gentlemen:

REPORT OF THE BOARD OF HEALTH

1937

Your Board of Health has many problems confronting it and we therefore desire that you carefully go over the various items listed on our report and familiarize yourself with these problems.

Collection of Garbage

Because of a great demand for additional collections during the months of November and December it will be necessary, when the present contract expires this year, to completely revise same and add more collections during the winter months. This, of course, involves a larger expenditure of money and we have covered this by asking for additional funds in our estimates under this item.

Town Dump

Because of the increased use, and some abuses, of the Dump we have been forced to spend a much larger amount of money during the past year. We feel that the time has arrived when an attendant should be kept on duty daily during the early Spring, Summer and Fall instead of the present system of three days in Summer and one and two days during the Fall and Winter. We have constructed a new road leading to the Dump and we appeal to our townspeople to dump

their refuse on town property and not on the property of adjoining neighbors.

Hospitalization

During the past year we have had a decrease in Hospitalization and we have lowered our estimated costs for 1938.

Dead Animal Disposal

Each year this item seems to increase and there appears to be no limit. We urge our townspeople to help us in this matter by disposing of their own dogs and cats and not expect the Board of Health to care for same.

Antitoxin Clinic

This clinic was held during the past year and 104 children received treatment, immunizing them from the dreaded disease of diphtheria. We recommend the holding of this clinic during the coming year.

Animal Inspections

The inspection of animals has been carried on under the direction of Mr. Charles O. Chase, Animal Inspector, and a full account of his work is found under his report.

Dog Quarantine

During the past year nine dogs were put under quarantine because of dog bites reported to the Board.

Milk Inspector

A separate report covers this item and it will be found under the report of the Milk Inspector.

Plumbing Inspector

The work of the plumbing inspector has increased during the past year and a full account of his work can be found under his report.

Dental Clinic

During the past year additional work has been accomplished in the schools and by the establishment of a Pre-School Dental Clinic the School Dentist has been able to give more time to the higher grades. We highly recommend the continuance of the Dental Clinics because of the favorable results therefrom.

Well Baby Clinic

Those in charge of the Well Baby Clinic report very favorable results and those benefited by it are well pleased with its accomplishments. We therefore highly recommend the continuance of this Clinic.

Vital Statistics

This item deals with the recording of Marriages, Births and Deaths, also the reporting of burials at the various cemeteries. These records are kept by the Town Clerk and the state law requires all expense is to be borne by your Health Department.

Roadside Cleaning

This item might well be disposed of if more care was taken by some of our Summer Colony. Some people seem to think that the side roads and vacant lots are the Town Dump. We make a special appeal to all our townspeople to keep the roadsides clean and if any violations are noted to report them immediately to the Board of Health.

Care of Beaches

Duing the summer months we are called upon quite frequently to clean our beaches of fish, kelp, and other waste matter brought in by the tides, which if allowed to remain any length of time become a health menace in hot weather. In this respect, the past summer was the worst we have had in years. We were, therefore, forced to spend a much larger amount during the past year than usual.

Humarock Beach Free Parking Space

The Board of Health earnestly requests the Selectmen to install a Comfort Station at this point and at all other beaches that have free parking.

Musquashiat Pond

At the last Town Meeting the sum of \$2,500 was raised to use in connection with the State in an attempt to abate the fly nuisance at Musquashiat Pond. Shortly after this meeting your Board had several conferences

with Mr. Wright of the State Health Department with the result that the State Legislature granted \$3,000 to the State Health Dept. & Public Works to make a survey and investigation.

Your Board made several inquiries of those in charge of Mosquito Projects and of several biologists and entomologists, none of whom could give us any information on this type of fly, as it had appeared only in three other places in the country.

Gaining some knowledge from books on fish and wild fowl habits we then decided that by stocking this pond with fish and fowl we might solve our problem. The Board immediately got in touch with Mr. Daniel Harkins of Franklin Park, Boston, who gave us very valuable information regarding wild ducks and geese. We then went to Mr. Dean of the Fish and Game Dept. of the State and he also was of great assistance to us. Mr. Dean put us in contact with two men in his department, a Mr. Kitson and Mr. Kennedy, who were experts in the habits of fish and game. They gave us very valuable information as to what the fish would eat and also what the wild fowl habits would be. They came to Scituate to view the Pond and to pass on the advisability of making this pond a permanent place for white perch, carp, and other fish that might live in brackish water.

Our first step was to build a dam at the entrance of the pond where the tide water flows in from Musquashiat Brook; this was completed early in April. It was then necessary to clean, burn, and dispose of all dead Algae growth and make other preparations for stocking the Pond.

Since the State had recommended using copper sulphate in the Pond, your Board purchased four hundred

pounds and this was applied by us under the direction of Mr. Wales, representing the State. After this work was completed and tests made, it was found that very little good had been accomplished.

We then began our work of stocking the Pond with fish and fowl. The State furnished us with three thousand white perch, we purchased twelve hundred herring. The men employed by us also put in the Pond over five thousand small eels, two thousand smelts, ten thousand chub, and as many other types of fish as could be netted in our brook. In addition to fish, the Board purchased twenty Canadian geese, thirty-four Pekin ducks and fifty-five black Mallards and other types of duck.

In the latter part of June the State sent men from the Public Works Department to make a complete survey. The Health Department sent two men, one an entomologist, the other a biologist; they set up a laboratory, the purpose of which was to test the nature of these flies, secure information as to whether the deep water affected them, take temperatures, and to take tests to see what good the fish were doing and if the fowl were of any help. These two State employees made reports to your Board from time to time and worked somewhat under our direction. The entire expense incurred by them was borne by the State.

After their summer's work was completed they rendered a report to the State. This report was gratifying to us because the very work your Board had done was a success. Our fish, our fowl, the keeping of the water at a certain level and the cleaning of the Pond from time to time of waste growth were all having an effect. No complaints were received and many favorable com-

ments made by the inhabitants of that vast area that had been affected by a serious health menace. Realizing that our work is not completed it is necessary for your Board to have the sum of \$1,800 to carry out the work recommended by the State Department of Health and the Public Works Department and we therefore have placed an article in the Town Warrant for sufficient funds to carry on the work.

During the past year your Board has investigated all complaints that were called to its attention and satisfactory settlements were made in all cases.

Our Town may well be proud of the fact that we rank high in the State as a health resort. During the past year we have been free from any serious epidemic of contagious diseases; only six cases of scarlet fever, four cases of measles, thirty-four cases of chickenpox, one hundred five cases of mumps and two cases of lobar pneumonia were reported. In all cases where quarantine was required, the house was properly tagged and the occupants given instructions.

The School Doctor and Nurse have been advised of every case reported and their cooperation with the Health Department has been of great assistance. Your Board of Health highly commends the good work being done by the School Doctor and School Nurse and their careful checkup of all cases has been instrumental in preventing the spread of contagious diseases.

All Inspectors working under our direction have carried out their duties in a manner that deserves commendation, and we take this opportunity to thank them for the good work they have accomplished.

We wish to thank all Town Officers and Heads of Departments who have given us their assistance when called upon.

Respectfully submitted,

WILLIAM P. GROVESTEN, Chairman,
GEORGE H. OTIS,
WALTER L. ENOS, Secretary.

PRE-SCHOOL DENTAL CLINIC

Through the efforts of the Board of Health a Pre School Dental Clinic was established in 1937.

Due to the fact that the Clinic was held during the summer months, I believe that a number of pre school children were unable to attend.

If the Clinic is continued during the year 1938, I believe that it should be conducted during the months of April and May so that more constructive work could be accomplished.

Two mornings a week for eight weeks were devoted to this Clinic and the following work accomplished:

Examinations	29
Prophylaxis	27
Extractions (deciduous teeth)	19
Amalgam Restorations... (deciduous teeth)	62
Cements (deciduous teeth)	23
Silver Nitrate (treatments)	18
Amalgam Restorations.. (permanent teeth)	8

ANNUAL REPORT, TOWN OF SCITUATE, 1937

Much credit for the success of the Pre School Clinic was due to the efforts of the School Nurse who spent a great deal of time in bringing the children to and from the Clinic.

CARLTON N. MORROW.

REPORT OF SCHOOL DENTIST

Board of Health and Superintendent of Schools,
Scituate, Mass.

Gentlemen:

I am pleased to present the following report of the dental work accomplished in the Jenkins and Hatherly Schools from January to December, 1937.

Fillings in permanent teeth	352
Fillings in temporary teeth	181
Permanent teeth extracted	14
Temporary teeth extracted	73
Teeth treated	29
Cleansings	178
Completed cases	171

At the present time I am working on the third and fourth grades and hoping to be able to extend the work to the fifth and sixth grades before the end of the year.

Respectfully submitted,

WILLIS B. PARSONS, D.M.D.

REPORT OF THE SCITUATE PUBLIC HEALTH NURSING SERVICE

To the Voters of the Town of Scituate:

I herewith submit the annual report of the Scituate Nursing Service:

The Scituate Public Health Nursing Service has held ten regular meetings during the year 1937 with an average attendance of nine members. The Service has carried on its usual program of public health activities under the direction of Miss Margaret O'Donnell, P.H.N. Much voluntary assistance has been rendered during the period of special activities by interested members who have given freely of their time.

The clinics, pre-school, diphtheria, tonsil, and well baby, are among the outstanding achievements of the past year.

The Membership drive was successfully conducted under the direction of the chairman, Mrs. John McKinnon, netting the organization \$300.00.

The local chapter, American Red Cross, very generously financed five tonsil cases under the new arrangement whereby the Boston Dispensary furnished a complete medical examination, operation, and care for two days and two nights for each child at a cost of \$10.00 per child. Transportation was furnished by the Association from June 29th to August 27th. Total expense of the clinic was \$235.

The annual sale of T. B. Seals was carried on under the chairmanship of Mrs. James Clarke. This year return postage was not provided.

The important purchases of the year were the new Ford nurse's car suitably lettered, several much needed medical books, and a typewriter was recommended for clerical work of the nurse.

Pressure of work during the winter months made advisable the hiring of a part time helper at a salary of \$2.50 a half day whenever necessary.

The P. H. N. S. Conferences have been attended during the year by the president, nurse and other members.

In conjunction with the work of the Field Army of the American Society for Control of Cancer, a donation was made and Dr. Max Miles was invited to speak on Cancer Control at a regular meeting of the association.

Under the chairmanship of Miss Marguerite O'Hern, the Ways & Means Committee has conducted several successful activities.

The year has been a busy and profitable one as the nurse's full report will show elsewhere.

Three hundred forty notices have been sent out and 20 letters written.

REPORT OF THE PUBLIC HEALTH NURSE

The 1937 Health Program for the community has been much the same as in previous years. Many phases of health work have been covered; some, more completely than others.

The Baby Conference has been held in the High School Annex the fourth Wednesday of each month. These meetings were well attended.

In April and May, one hundred and four children received treatment for prevention of diphtheria. We still have a large number of children who have not received this protection.

The Summer Round-up was held in May. Children entering the first grade in September were given a complete physical check-up. Many of those found to have defects had corrections made during the summer.

Twenty-three children had diseased tonsils and adenoids removed at the Boston Dispensary. Nine others had tonsil and adenoid operations at the Cohasset Hospital.

Dental Clinics were held two forenoons each week during June and July for children of pre-school age. The Board of Health is to be commended for recognizing the need, and for providing this clinic.

On Tuesday and Friday of each week, work has been done in the School Dental Clinic.

The routine hearing tests were made in October.

The Chadwick Clinic for detection of early signs of Tuberculosis was held in November. One hundred and thirty-eight pupils received the skin test.

Routine vision tests were given by the teachers.

Beginning in late Spring and up until the present, mumps have been prevalent. Due to the fact that many cases were not reported, it is difficult to ascertain the exact number. Nor has it been possible to determine the number of cases in the pre-school age group.

Many cases of Chicken pox have been reported since September. If some parents had been more co-operative, many of the children might have avoided having mumps and chicken pox. Several children came to school with noticeable symptoms of communicable diseases. Parents should have kept the children at home.

STATISTICAL REPORT

Number of Nursing Visits	373
Number of Free Nursing Visits	211
Number of Prenatal Visits	38
Number of Infant Welfare Visits	109
Number of School Visits	172
Number of Home Visits for School Children	176
Number of Home Visits for Pre-School Children	69
Number of Children Taken Home Ill	21
Number of Welfare Visits	14
Number of Doctors' Office Visits	8
Number of Clinic Visits	29
Number of Hospital Visits	83
Number of Follow-up Visits	124
Number of Conferences with Health Workers	84
Number of Public Health Meetings Attended	13

ANNUAL REPORT, TOWN OF SCITUATE, 1937

Number of Unclassified Visits Pertaining to Public Health Work	264
Total Number of Visits	1788

There is need for more follow-up on cases such as children with defective speech, hearing, vision, mental, and other problems. Also more follow-up on absentees, especially if absence has been due to illness.

At the December meeting the Nursing Service Board voted to have a nurse's assistant, part time, to help wherever or whenever need existed. There has been need for such a helper for a long time. Only a person trying to do "One Nurse Service" work in a town of this size can understand the difficulties of it.

I take this opportunity to extend thanks to the Nursing Service Board Members, Town and School Officials, Teachers, Doctors, Parents, Children and all others who have been helpful during the past year.

"Helping to prevent sickness is the duty of every member of the community." Let us all share in this responsibility.

Respectfully submitted,

MARGARET O'DONNELL,

Public Health Nurse.

REPORT OF THE HIGHWAY DEPARTMENT

To the Citizens of Scituate:

The Highway Department submits for approval this report of the various road projects which have been in operation during the year ending December 31, 1937.

The acceptance of the appropriation asked for in the annual warrant by the citizens of the town has made it possible to carry the highway program continuously throughout the year and accomplish many needed improvements and repairs. The increase in the 1937 appropriation over the 1936 has aided greatly in reducing unemployment which has been prevalent for a number of years.

The air compressor unit purchased from funds raised and appropriated under a special article has proven to be a very valuable asset in that it has helped decrease excavation costs and allows a greater amount of work to be done in freezing weather. This department cooperates with the Water Department in the use of this equipment. The stone crushing plant was overhauled, replacing the screens completely and installing a new power unit. A 75 H.P., 3 phase, 60 cycle electric motor was used in place of the old gasoline motor and has resulted in raising the capacity of the crusher to an output of twenty tons per hour. Expense for repairs should be at a minimum for several years.

The cost of necessary items of work in the care of roads and a summary of the improvements made under

the supervision of this department on various locations is herewith presented.

CARE OF ROADS

Macadam Pavement, 15,137 sq. yds. constructed	\$22,880.01
Drainage, 6,936 ft. 8" to 18" pipe layed	10,356.95

	407.04

ANNUAL REPORT, TOWN OF SCITUATE, 1937

Cleaning out and Repairing Catch Basins ..	300.30
Miscellaneous	244.99
Cleaning out Drains	207.40
Erecting Sign Boards	169.79
Engineering	125.10
Culvert Repairs	86.33
Office Supplies	33.26

Total Expenditures from General Appropriation	\$77,197.19
---	-------------

Allen Street: 1,000 sq. yds. of roadway was rebuilt with macadam pavement; and 200 cu. ft. of concrete curbing installed.

Beaver Dam Road: 600 ft. of drain pipe and 4 catch basins installed; and 790 ft. of fence constructed.

Captain Pierce Road: 528 ft. of drain pipe and 4 catch basin installed; and 235 sq. yds. of macadam pavement constructed over drain and along edge of roadway.

Carrie Litchfield Lane: 114 ft. of drain pipe and 2 catch basins installed.

Clapp Road: 225 ft. of drain pipe and 3 catch basins installed.

Collier Road: 72 ft. of drain pipe and 1 catch basin installed; and 79 sq. yds. of macadam gutter constructed.

Dreamwold Road: 3,000 sq. yds. of roadway rebuilt with macadam pavement; and 600 ft. of drain pipe and 8 catch basins installed.

Edgar Road: 528 ft. of drain pipe and 3 catch basins installed.

Edward Foster Road: 278 cu. yds. of gravel placed on shoulders; 204 ft. of drain pipe and 5 catch basins installed; 345 ft. of guard rail constructed; and 195 sq. yds. of macadam gutter constructed.

First Parish Road: 1,681 ft. of drain pipe and 11 catch basins installed; 1,407 sq. yds. of macadam pavement rebuilt; and 250 sq. yds. of roadway applied with bituminous concrete.

Front Street: 30 sq. yds. of edge of roadway rebuilt with macadam pavement.

Gannett Street: 550 sq. yds. of roadway resurfaced with bituminous concrete.

Gilson Road: 170 sq. yds. of macadam gutter constructed.

Glades Road: 317 sq. yds. of roadway rebuilt with macadam pavement; and 352 sq. yds. of sidewalk resurfaced with bituminous concrete.

Grove Street: 1,000 ft. of drain pipe and 9 catch basins installed; and 60 sq. yds. of macadam pavement constructed over drain.

Humarock Beach Parking Space: 1,881 sq. yds. gravelled and asphalt applied.

Kent Street: 64 ft. of drain pipe and 2 catch basins installed; 100 sq. yds. gravelled and asphalt applied; and 176 cu. yds. of gravel placed on shoulders.

Mann Lot Road: 600 ft. of drain pipe and 6 catch basins installed; and 200 sq. yds. of macadam pavement constructed over drain.

Otis Street: 2,200 sq. yds. of roadway rebuilt with macadam pavement; 20 ft. of drain pipe and 3 catch basins installed; and 80 sq. yds. of sidewalk resurfaced with bituminous concrete.

Oceanside Drive: 620 sq. yds. of roadway raised 14 inches and rebuilt with macadam pavement.

Scituate Avenue: 2,000 sq. yds. of roadway rebuilt with macadam pavement.

Tilden Road: 450 ft. of drain pipe and 2 catch basins installed; 275 sq. yds. of roadway gravelled and asphalt applied; and 410 sq. yds. of roadway rebuilt with macadam pavement.

Whitcomb Road: 747 sq. yds. of roadway gravelled and asphalt applied.

Rebuilt sections of highway of the macadam type have been constructed of stone supplied by citizens of the town and crushed at the plant off Greenfield Lane. Care has been taken in the rebuilding of streets that adequate drainage has been installed. Eight inch drain pipe was used in most cases but larger pipe running to eighteen inches was used where necessary depending on conditions. New catch basins were constructed of the precast type on all new drains and a number of old catch basins have been deepened and rebuilt.

SPECIAL ITEMS

Beaver Dam Road and Hazel Avenue: 1,300 sq. yds. of roadway gravelled and asphalt applied.

Brook Street Fire Station Roadway: 190 ft. of drain pipe and 1 catch basin installed; and roadway filled in with 720 cu. yds. of gravel.

Edward Foster Road: Curve relocated and filled in with 2,710 cu. yds. of gravel; and new location applied with asphalt.

First Parish Road and Route 3A: Corner relocated and 450 ft. of dry wall rebuilt on curve; and 130 ft. of drain pipe and 1 catch basin installed.

Henry Turner Bailey Road: Intersection relocated and 950 sq. yds. of new roadway built of macadam pavement; 1 catch basin installed; and 158 ft. of curbing set in place.

Peggotty Beach Parking Space: Area filled in with 4,518 cu. yds. of gravel and asphalt applied.

Sixth Avenue: 250 ft. of drain pipe and 3 catch basins installed; and 1,056 sq. yds. of roadway gravelled and asphalt applied.

Special items under the supervision of this department have been completed with the exception of Article No. 30 in the Town Warrant concerning the relocation of First Parish Road at the junction of Route 3A. The completion of this project has been provided for in the 1938 budget and will commence as soon as weather conditions allow.

FEDERAL PROJECTS

Central Avenue: 1,835 sq. yds. of roadway gravelled and asphalt applied.

Curtis Street: 793 sq. yds. of sidewalk resurfaced with bituminous concrete; 100 ft. of retaining wall constructed; and 216 ft. of picket fence built.

Maple and Park Avenue: 3,600 sq. yds. of roadway gravelled and asphalt applied; and 20 ft. of drain pipe and 1 catch basin installed.

Ridge Hill Road: 3,024 sq. yds. of roadway gravelled; and 160 ft. of drain pipe and 2 catch basins installed.

Federal Projects under the sponsorship of this department have been in constant operation throughout the year and have absorbed a large number of men off the unemployment list.

Due to the fact that the amount of funds raised to cover the town's share of materials, trucking and other necessary expenses in connection with Federal Projects or other Town improvements sanctioned by the Board of Selectmen was reduced from \$20,000 to \$12,000, it was necessary to use funds from the Highway Department's general appropriation to cover part of this cost. As this was not provided for in the department's 1937 budget and as the return per dollar of town funds was larger when applied against the cost of Federal work than when paying full costs on regular highway work, contemplated expenditures on other items in the budget were reduced to supply the necessary funds.

The operation of these projects has added to the utility and beauty of the highways at a greatly reduced cost to the Town and advantage should be taken at every opportunity for the continuation of this sort of work while under the present Federal system.

SNOW REMOVAL

The Winter of 1936-37 was one of the mildest on record and the expenditures made for the keeping of the highways open and in a safe condition were correspondingly small. There are, however, certain items to be contended with in preparing for the hazards caused by weather conditions. Snow fences must be repaired and erected, equipment replaced and kept in good working order, and sand must be stocked at different locations throughout the town for use on the icy streets.

There are three phases of snow removal dealt with by the Highway Department if there is any precipitation when the temperature is below the freezing point. First, the streets must be sanded in the shortest possible time on all dangerous curves, intersections and grades; second, truck plows, each with a definite route, start immediately when the snow begins to hamper traffic; and, third, the snow must be loaded on trucks and removed from the business sections. The first of the year, 1938, finds this department prepared to dispose of all problems relative to the safety of winter traffic.

The splendid co-operation received during the year from all Town Officials has been very gratifying and appreciation is extended to those who in any way have aided in the functions of this department in serving the citizens of the town.

Respectfully submitted,

CHARLES M. WAGNER,

Highway Surveyor.

ANNUAL REPORT OF BOARD OF PUBLIC WELFARE

To the Citizens of Scituate:

The Board of Public Welfare, after thorough investigation, has acted to alleviate distress in all applications for aid under Public Welfare, Aid to Dependent Children, and Old Age Assistance, during the year 1937.

The new Old Age Assistance and Aid to Dependent Children laws have been functioning during the past year. The Board has acted promptly to comply with all the requirements of the laws in order that our town might receive full benefits of federal grants. Federal auditors from Washington have examined the records and have approved the administration of both the Old Age Assistance and the Aid to Dependent Children departments. Including a balance of \$89.01 carried over from 1936 we have received \$12,285.08 in federal grants for the Old Age Assistance and Aid to Dependent Children departments in 1937. This sum has been available for immediate expenditure, thus relieving the local tax burden to that extent.

The Board has on file a detailed investigation of the settlement history of each applicant for relief, and as a result we have received reimbursements in many cases from other towns and cities and from the state. We received \$11,553.89 from these sources in 1937. This sum is paid directly into the town treasury and is not available for this department as is the case in the federal grants.

ANNUAL REPORT, TOWN OF SCITUATE, 1937

Available labor was very well assimilated during the past summer, there being work for all able bodied persons. Winter employment is still an acute problem, as the seasonal character of most local work causes many families to seek assistance in the winter months. The greater part of the Public Welfare assistance which we render is in the winter months, and is due to this seasonal lack of employment.

At this time the board wishes to thank all other town departments, societies, and individuals who have co-operated with us in the past year.

Respectfully submitted,

NATHANIEL TILDEN, Chairman,
HARRY F. CLEVERLY,
HARRY T. HANDY.

REPORT OF THE ALLEN MEMORIAL LIBRARY

The Allen Memorial Library hours are the same as last year, three afternoons and evenings a week.

The circulation of books did not vary very much from last year. We have had fiction which has proved exceedingly popular; also three sets of technical books for boys and men, who are interested in these particular subjects: Carpentry, automobiles, with information about the new Diesel engines.

About fifty books were rebound, making them as good as new; also the State reading is being carried on and we are always glad to send to the State Library.

Respectfully submitted,

MRS. AMY FRYE,
President.

REPORT OF THE PEIRCE MEMORIAL
LIBRARY

The Trustees of the Peirce Memorial Library submit the following report for the year ending December, 1937, and wish to express their thanks to the citizens of Scituate for their assistance and co-operation.

Books in circulation in 1937	14,256
Magazines in circulation in 1937	1,409
Books purchased in 1937	411
Books given in 1937	22
Magazines purchased in 1937	24
Increase in book circulation in 1937	1,184
Number of card-holders in 1937	300

During 1937 the entire library has been reclassified and recatalogued in order that the general public may use the files with more ease. This entailed the work of a special librarian and two assistants for two months during which time the library was open, as usual to all.

Respectfully submitted,

KATHERINE ELLIS,
President.

REPORT OF BUILDING COMMITTEE

The Building Committee appointed to have alterations and additions made to the Engine House, Brook Street, at a special town meeting held in September, begs to report:

We engaged an architect, had plans and specifications prepared and advertised for proposals. We awarded the contract to the lowest responsible bidder who completed the work to our satisfaction, so that it was possible for the Fire Department to occupy this building the latter part of November.

The new building provides office, signal room, battery room, large apparatus room and dormitory, all of which we believe were necessary for adequately housing the Fire Department equipment for this area.

We would express our appreciation for the co-operation received from the officials of the town and for the co-operation and courtesy extended by the officers and men of the Fire Department stationed in this building while alterations and additions were being made.

Respectfully submitted,

A. K. WILLIAMS,
D. A. KILLEFOR
M. W. MURRILL,

The Building Committee.

REPORT OF PLANNING BOARD

December 31, 1937

Board of Selectmen
Town of Scituate
W. Irving Lincoln, Chairman.

Gentlemen:

I am enclosing herewith the yearly report of the Planning Board of the Town of Scituate in accordance with your request and hope that same is in proper shape for the annual town report.

Respectfully yours,

A. K. WILLIAMS,
Chairman, Planning Board.

During 1937, your Planning Board has been called on to give their opinion on various requests for variance from zones as established by the Town's Zoning By-Law.

Every case has been carefully studied and when properly requested public hearings have been held in order that everyone might have an opportunity of being heard.

Probably more time was devoted to questions relating to the so-called "Dreamwold Inn" situation than to any other. However, repeated requests for individual business zones on Route 3-A have been received and considered. It has been the opinion of your Board that the property bordering Route 3-A should be considered over the full length of this route through Scituate. It seems better to have a uniform program for the preservation of the appearance of this area if it

is to be opened up for business. This would include consideration of a minimum set back, adequately off the road, parking facilities, types of advertising signs and buildings.

All of these things have a definite bearing on the impression made by Scituate on the traveling public as well as being extremely important considerations in regard to public safety.

It would be in the interest of the greatest number of citizens of Scituate to keep Route 3-A in a residence zone.

In addition to these questions the Planning Board has studied and given its opinion on the plans for the renovation of the Brooks Street fire station and the plans for the new Town standpipe. A special study was also given and a report made on the question of Front Street and the possibility of saving the elm trees bordering it on the westerly side.

There are other questions of major importance to the town which should have careful study. We have in mind the matter of town drainage, consideration of traffic and parking in business centers, and other things which will require time and some expense to study properly. Your Board plans to work on these matters and others which will, as usual, come before them during the ensuing year.

Respectfully submitted,

By RALPH C. ACKERMAN,
Secretary, Planning Board.

REPORT OF THE PARK COMMISSIONERS

Board of Selectmen

Gentlemen:

The Park Department respectfully submits for your consideration a resume of their work during the past year.

After carefully considering all of the work necessary for the proper operation of our department, we started to work on the various parks in the town with a view to improve them as much as possible to the best of our ability.

On Lawson Park, we put on one hundred and twelve loads of loam and also seeded the ground.

At North Scituate, we made a park, which we called Bound Brook Park. Due to the town widening of Henry Turner Baily Road, the park was slightly damaged, but next spring we intend to greatly improve it.

We are very thankful for the fine amount of co-operation we have received from the Town's people during the past year and hope that this year will prove a prosperous one for all town departments.

Respectfully submitted,

ERNEST F. LITCHFIELD,

Chairman,

GEORGE V. YENETCHI,

JOHN F. DALBY,

Park Commissioners.

REPORT OF COUNTY AID TO AGRICULTURE

Plymouth County Extension Service Town of Scituate

By Chas. E. Mitchell, Town Director

In presenting the report of Extension Service activities for the town of Scituate, I would like to first call your attention to the fact that the Plymouth County Extension Service has been functioning for the betterment of Agriculture, Home Life, and the boys and girls of the County for twenty-three years. It is your organization and its service to you is dependent in large measure upon your desire and request for such services.

Report of Agricultural Work

The County Extension Service endeavors to present useful and practical information to farmers of the County and encourage the application of the same. We aid in securing and presenting information on production, marketing, and assist in cooperative enterprises.

During 1937 much time has been given to the Agricultural Conservation Program. The program is in line with our agricultural teachings and can be of assistance to county farmers. Four hundred and fifty men are expected to receive payments totaling \$25,000.

We have assisted in every way possible various organizations that have requested our services. Among these are the Associations of County Dairymen, Poultry-

men, Cranberry Growers, Production Credit, Goat Owners, Bee Keepers, Rural Resettlement, various Fairs, Granges, and Egg Auction.

Thirty-two hundred farmers in the County were supplied with timely information regarding agricultural problems, while 696 farm visits were made.

Home Demonstration Work

It is the aim of Home Economics Extension Work to assist women with problems connected with house-keeping, home management, and family life.

During 1937, in addition to the service given individual homes, sixty-seven groups have been organized for study along some one of the lines indicated above. In January of 1938, sixteen more groups were added to this list. The total enrollment is well over 1,500. Two hundred and fifty-seven women have helped in the organization and carrying out of the program. The subjects especially studied during this period have been home management, home grounds improvement, food preservation, furniture refinishing, chair seating, and clothing. Work has also been included in nutrition, parent education and recreation.

Club Work

In 4-H Club Work, the Extension Service provides for the boys and girls of the County an opportunity for educational development through study and practice in home economics and agriculture, as well as an opportunity for self-improvement. It emphasizes the home, and brings club members and parents together in a common interest. It develops cooperation, leadership, self-confidence, ambition, sportsmanship, ability to think, responsibility and community spirit.

There were 106 4-H Clubs organized in 1937 with an enrollment of 1,620 different boys and girls. Those clubs were under the supervision of about 100 volunteer local leaders. All towns and cities in the county had some type of 4-H Club work this year.

Sixty-nine are on the mailing list to receive information relating to Poultry, Fruit, Dairy, Market Garden, and Cranberries.

Twenty calls relating to agriculture were made by the agent.

Enrolling to keep Farm Records, such as Farm Inventories, Farm Accounts, and Poultry Accounts were five men.

In the Agricultural Conservation Program for 1937 there were 12 men enrolled and 3 are expected to receive payments. These men will receive a proportionate amount of some \$25,000 earned this year by county farmers, depending on the size of farm and amount of conservation work carried out by each individual.

Meetings held in the town were on Agricultural Conservation and Vegetables.

Scituate men and women have also attended many meetings county-wide in nature.

Serving on the Board of Trustees for Plymouth County Aid to Agriculture is Louis E. Cole.

Home Demonstration Work

A series of food preservation meetings was held in this town.

In home management, a demonstration meeting and help with a community kitchen were included in the program. Scituate women participated in the parent education and home grounds improvement meetings.

A group has been organized to study the construction of garment finishes. Other clothing work will be scheduled soon. The recent organization of the Women's Extension Committee has already increased the number of women with whom we are working.

Additional help along various lines has been given by letter, telephone, office call or home visit.

COUNTY AID TO AGRICULTURE

Expense:	
Trustee of County Aid to Agriculture	\$100.00

REPORT OF TOWN FOREST COMMITTEE

To the Citizens of Scituate:

Last year the appropriation was very small, but the usual trimming and thinning was as well done as was possible on this amount. We again extend an invitation to the Townspeople to visit the forests.

REPORT OF INSPECTOR OF ANIMALS

To the Board of Health,
Scituate, Mass.

I wish to report inspection of 138 head of cattle, 73 goats, 31 swine, 2 sheep, all in good condition. Have quarantined all dogs that have bitten people; no signs of rabies.

CHARLES O. CHASE,
Inspector of Animals.

REPORT OF INSPECTOR OF SLAUGHTERING

To the Scituate Board of Health:

I have examined all slaughtered animals during 1937 and found the same in perfect condition for eating.

Respectfully submitted,

E. L. MERRITT.

REPORT OF THE INSPECTOR OF MILK

There were 46 licenses issued for the sale of milk in 1937.

The raw milk produced and sold in Scituate is of very high standard as shown by laboratory tests.

The dairymen are cooperating with inspectors in every way to produce and sell a product that meets with all requirements of law and health.

GEORGE H. OTIS,
Milk Inspector.

REPORT OF THE PLUMBING INSPECTOR

Board of Health,
Town of Scituate, Mass.

Gentlemen:

During the year 1937 there have been 67 plumbing permits issued and inspections of the installations made by your inspectors.

While the plumbing code of our Town was adequate at the time of its acceptance, changes should now be made to cover new methods of installation and more clearly define the use of new materials which have been accepted by Health authorities.

With the increase in population the problem of proper sewerage disposal in the more thickly settled areas becomes more acute and the need for a public sewerage system with treatment and disposal plant evident.

I respectfully recommend to your Board that this problem be given careful consideration, to the end that our Town may be best served in matters of health.

Respectfully submitted,

PHILIP S. BAILEY,
Inspector.

WILLIAM H. HARNEY,
Asso. Inspector.

TOWN OF SCITUATE

List of Jurors for 1937

Prepared as Provided for in Chapter 234,

Section 4, General Laws

Barce, Charles N., Maple Street, Farmer.
Bates, Frank S., Clapp Road, painter.
Billings, Alson P., Stockbridge Road, Carpenter.
Breen, Edward P., Pond Road, Contractor.
Brooks, Charles A., Capt. Pierce Road, Salesman.
Carter, Wilbur A., Mordecai Lincoln Road, Salesman.
Cowley, James T., Ocean Avenue, Retired.
Damon, Prescott A., Clapp Road, Farmer.
Dickinson, Walter R., Capt. Pierce Road, Carpenter.

SCHOOL CALENDAR—1938

Winter Term—January 3 to February 18.

One Week Vacation.

February 28 to April 15.

One Week Vacation.

Spring Term—April 25 to June 21.*

Holiday—May 30.

Summer Vacation.

Fall Term—September 7 to December 23.

Holidays—October 12, November 11, 24, 25.

*This date is tentative. The statutes require high schools to have one hundred eighty sessions per year.

“NO SCHOOL” SIGNAL

The “No School” signal is 3-1-3, and will be sounded from the fire stations at North Scituate, Scituate Harbor and Greenbush at 7.45 a.m. and will apply only to the first eight grades. It is, however, the policy of the Committee to hold regular sessions whenever it is practicable to maintain transportation service.

COMMITTEE MEETINGS

The regular meetings of the Committee are held at the office of the Superintendent, Old High School Building, at 7.30 p.m., on the second Wednesday of each month, September to June inclusive.

Appointments with the Superintendent may be made upon request.

The age of admission to grade one of the Hatherly and Jenkins Schools is five years and four months on the day of the opening of school in September.

A vaccination certificate must be presented to the school when the pupil enters for the first time.

A birth certificate must be presented by those whose births were recorded outside of Scituate.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Scituate:

The Scituate School Committee presents the following report of the Superintendent of Schools together with additional reports from other school officials and teachers.

The Committee is confident that the year 1937 has been one of continued progress for our schools. The generous support of the public is sincerely appreciated.

Respectfully submitted,

DONALD S. PITKIN,
MARION C. ALEXANDER,
RALPH S. BROWN,
School Committee.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Scituate:

I take pleasure in submitting my twelfth annual report for your consideration.

CHANGES IN OUR TEACHING STAFF

There was but one teacher resignation during the past summer, and this was received just before the opening of the fall term in September. Miss Marion L. Brine, for the past six years a teacher of the social subjects in grades seven and eight, accepted a similar position in the Arlington schools, and Miss Elizabeth Giles of Woburn, Massachusetts, was chosen to fill this vacancy. Miss Giles is a graduate of the four-year course at Salem State Teachers' College, and has had two years' experience in the upper grades at Wilmington and Tewksbury, Massachusetts.

Beginning in September, a change was made in the administration of the High School building. Up to this time there had been an organization of grades seven and eight as a Junior High School unit largely independent of the Senior High School, and with a separate principal. To secure greater unity of administration, we are no longer emphasizing the two separate units, but have organized the school as a six-year high school, with a single administrative head.

In keeping with this, Mr. Edward W. Whitmore, for the past seven years principal of grades seven and eight, was transferred to the Science Department of

the Senior High School, and Miss Clare Walker of Melrose, Massachusetts, was elected as teacher of Mathematics in grades seven and eight. Miss Walker received her Bachelor's degree from Middlebury College and has had three years' experience, the last two of these at the Goddard School, Barre, Vermont.

Mrs. Doris D. Ward, Supervisor of Art, was granted a leave of absence for this year, and Miss Doris M. Rowell, a graduate of the Massachusetts School of Art and an Art teacher of several years' experience, was secured as a substitute.

Towards the end of the fall term Miss Lucy Lockhart, for the past six years teacher of the first grade at the Hatherly School, was offered a position in the Centre School at Hingham, and tendered her resignation to take effect at the end of the school term in December. At the time this report goes to press a permanent teacher has not yet been chosen to fill this vacancy.

UPKEEP OF BUILDINGS AND GROUNDS

No major repairs were necessary at the Jenkins School this year. At the Hatherly School a steel ceiling was installed in the fifth grade room, and this work completed such installations in the classrooms of this building.

At the High School, the boys' shower room was refinished; the toilet rooms in the East Wing were repainted; the partition between the Bookkeeping and Typewriting rooms of the Commercial department was removed, and the larger room thus secured was painted. A speed heating unit was placed in the Cafeteria as an aid in the more effective heating of this room.

In the Household Arts building the two iron sinks, used by the Home Economics classes, were replaced by white enamel ones, and an electric hot water heater was installed.

In addition to the above there were numerous repairs of a routine nature incident to building upkeep.

At the Community Center the clay tennis courts were resurfaced with a special tennis court gravel which proved to be very satisfactory. The custodian for the courts during the summer months was continued again this year and the results were excellent.

At the close of the school year in June a section of the ceiling in the Cafeteria gave way, disclosing a weakness in structure. The architect was at once notified, and with the builder, he made a preliminary investigation. As a result of this, Mr. Gilbert Small, of the firm of J. R. Worcester Company, Engineers, was called in—at the architect's expense—to make a thorough study not only of the ceilings under the gymnasium but also of those throughout the newer parts of the building, and to recommend methods to correct the condition. Mr. Small made a careful examination of all the ceilings in the East and West Wings of the building. In some places holes were cut in the ceilings in order to inspect the exact condition. As a result of this study, Mr. Small on July 14 made a written report to the architect recommending detailed methods of reinforcing the ceilings. Based upon this report—and following the recommendations in their entirety—Mr. Burr drew up a set of specifications that were approved by the State Department of Public Safety.

Obviously, in an emergency which involved the safety of nearly four hundred pupils and teachers, although

sufficient money was not available from the school budget to meet the unexpected expenditure, the School Committee had no alternative but to make the proposed changes. Mr. John M. Hartwell, the original contractor of the building additions, offered to do the work specified at a contract price or at actual cost, whichever was lower. The Committee decided to employ him at these terms and the work was started.

On August 11, Mr. Small inspected the progress of the work and as a result made a supplementary report in which he suggested several additional repairs in the interest of permanent safety. These recommendations were carried out.

Briefly, the aim of the ceiling reinforcement was to secure the metal wire and lath firmly to the furring strips, and to secure the furring to the floor joists. This was accomplished by placing heavy wooden screws with washers at every alternate intersection of furring strips and floor joists. As a further precaution against the possible giving way of the plaster and lath, $3\frac{1}{2}$ "x $13/16$ " pine battens were placed under every other furring and secured to it by $2\frac{1}{2}$ " wood screws.

In the Cafeteria, narrower strips, one foot apart, were screwed to the furrings and Acousti-Celotex attached to them. This makes an attractive ceiling and has proved very beneficial in reducing the noise factor. In one of the rooms of the Manual Training Department where the surface layer of plaster was badly cracked during the progress of the repairs, the battens were covered with regular Celotex.

In the gymnasium, at the intersection of the ceiling with the brick walls, 3 "x $1\frac{1}{2}$ " moulded cornice strips

were securely attached to the brick wall with Rowles expansion sleeves. The furring strips of this ceiling are hung from the roof timbers and are secure. Mr. Small states that these ceilings are entirely safe at the present time, but recommends that at some later time we consider using the Acousti-Celotex here as in the Cafeteria, both as a protection from any possible later ceiling movements, and also as an improvement in the sound effects of the Auditorium. I believe this work should be carried out in the near future.

SCHOOL ENROLLMENT—TEN YEAR PERIOD

October 1

	<i>Elementary Grades</i>	<i>Junior High Grades</i>	<i>Senior High Grades</i>	<i>Total</i>
1928	361	93	137	591
1929	369	88	135	592
1930	398	77	144	619
1931	421	73	162	656
1932	436	107	165	708
1933	443	131	173	747
1934	440	141	192	773
1935	400	135	206	741
1936	412	134	222	768
1937	388	134	224	746

Our enrollment this year—on October 1—was twenty-five less than on the same date last year. This drop was brought about by a decrease of enrollment in the elementary grades—particularly at the Jenkins School. While this decrease in the lower grades was anticipated, we had expected a substantial increase in our High School membership. Due to several different causes the enrollment at the High School fell short of our preliminary estimates.

It would be very desirable to have several more classrooms than the building now provides but the need is not as great at the present time as we anticipated.

SPECIAL SCHOOL OBSERVANCES

During the year the three schools—by exercises appropriate to the age of the pupils—commemorated the one hundredth anniversary of the organization of the first State Department of Education in Massachusetts with Horace Mann as its secretary. The “Horace Mann Centennial,” a volume of two hundred pages issued by the State Board of Education, was of great aid in preparing programs.

At the High School, on May 4th, the date of Mann’s birth, a combined assembly of the Junior and Senior High Schools was held, at which the Reverend Robert C. Withington gave a very complete description of the life of Horace Mann and his influence on American Education. During Education Week, on November 9, in further commemoration of Horace Mann, the Junior High School at an assembly gave a play entitled, “Horace Mann in the Hall of Fame.”

On September 17 the schools observed the one hundred and fiftieth anniversary of the signing of the Constitution, and on June 14, 1938—Flag Day—they will still further commemorate with appropriate exercises the signing and ratification of this fundamental instrument of our government.

USE OF HIGH SCHOOL BUILDING FOR OUTSIDE PURPOSES

The High School building, apart from its use for school activities and Town Meeting purposes, was used by other organizations on eighty-nine different occasions during the year 1937. The Auditorium was used

in this way a total of sixty-two times, the Cafeteria ten times, the boys' showers nine times and the Library eight times.

The Parent-Teacher Association had the use of the building on thirty-two occasions, nine for its regular meetings and twenty-three for the dancing classes which it sponsors. The Scituate Athletic Club used the Auditorium and boys' showers—during the basket ball season—a total of nineteen evenings, and the boys' showers alone—during the football season—on nine afternoons. Other organizations using the building on one or more occasions were the Police department, Fire department, the Nursing Service, the Grange, the Legion, the Veterans of Foreign Wars and several of the church groups.

During the mid-winter months the building is open for some activity almost every evening and occasionally for two or three activities on the same evening. For these occasions it is necessary to furnish extra janitor service and additional heat and light, and the aggregate added expense is considerable. As it is impossible to separate these costs from regular school expenditures, it is necessary for the School Committee to include this expense as a part of its yearly school budget.

FINANCIAL CREDITS

As a supplement to its regular budget the School Department has each year received money from two sources:—from the Dox Tax and from federal funds for our Household Arts work. Together these amounted to \$1,011.28 this year.

In addition to this there are substantial amounts of money that are paid or credited to the town for which the schools are responsible, but which cannot legally be added to the school budget. The largest single item

is a credit from the state based upon the number of teachers employed, and varying according to their training and experience. Other items include reimbursement by the state for one-half the cost of our Household Arts courses, and one-half of the money paid for trade school tuition. Money is also received by the Town Treasurer for the tuition of state and city wards that are enrolled in our schools. Other miscellaneous receipts include money received from Manual Training students for the cost of the stock used in individual projects, and money collected for the rent of the Auditorium.

During the year 1937 these credits have been as follows:

From the State of Massachusetts

On Teachers' Salaries	\$5,818.94
Household Arts Reimbursement	1,087.29
Trade School Tuition Reimbursement	149.62
Tuition of State Wards	503.54

From the City of Boston

Tuition of City Wards	577.18
-----------------------------	--------

Collected by School Department	151.61
--------------------------------------	--------

Total	<u>\$8,288.18</u>
-------------	-------------------

Your attention is called to the various individual reports that form a part of the School Report. The usual statistical tables and the Financial Statement for the year 1937 are included.

Respectfully submitted,

HAROLD C. WINGATE,
Superintendent of Schools.

REPORT OF HIGH SCHOOL PRINCIPAL

Mr. Harold C. Wingate,
Superintendent of Schools,
Scituate, Massachusetts.

Dear Sir:

I submit herewith my third annual report as principal of the Scituate High School.

As this report is being written, our high school has an enrollment of 361, 227 of which are in the senior high school and 134 in the 7th and 8th grades. The number of pupil stations filled is very close to maximum each period of the day. The laboratory is being used regularly for recitations in the sciences and one English class meets daily in the Cafeteria.

Crowded conditions during the cafeteria periods have been alleviated by dividing the school into three sections rather than two. This change is a big improvement and gives every pupil ample room at the tables or arm chairs.

Our weekly assemblies continue to lend a pleasant change from classroom and laboratory studies. In the past year these programs have included the Boston University Male Quartet, an instrumental group from the New England Conservatory of Music, a sound film on "Snow Trains of 1936," Mr. John E. Hines in the comedy, "If I Were King," a talk on Bird Life by Mr.

L. R. Talbot of the Massachusetts Audubon Society, a talk by Mr. Ralph B. Ford on "Indian Relics," an exchange assembly with students from the Marshfield High School, a talk on the "Life of Horace Mann" by the Rev. Robert Withington, an illustrated talk by Col. C. Wellington Furlong, Memorial Day Address by Mr. Ernest Drake, Miss Dorothy George on "Art," Mr. Charles C. Gorst in "Bird Songs," pictures of the British Coronation, a Horace Mann play by pupils of the 7th and 8th grades, a Liquid Air Demonstration given by Mr. Elliot James, special day student-participating programs and educational and travel films. These assemblies are aimed to give entertaining instruction over a broad field. The cost is borne entirely by the "assembly fund," raised principally from proceeds of the Tri-Town One-Act Play Competition.

One of the most important trends in secondary school education today is the correlation of subjects of the curriculum. It is often true that a pupil fails to apply to one subject what he has learned in another. For example, a piece of written work in science or the social studies might be excellent as far as subject matter is concerned but very poor in spelling, punctuation or grammatical construction. Teachers from the English department are now correcting papers from other classes and giving the pupil a mark in English in addition to the mark received by the pupil in the other subject.

As a result of the recent discovery that the scholastic difficulties of many pupils are traceable to deficiencies in reading, and that many reading deficiencies can be corrected, a class in remedial reading has been established. Last June the Shank Tests of Reading Ability were given, and this year we are trying to help as many

retarded readers as the schedule will allow. After an attempt to discover whether the reading disability is caused by weak eyesight, inefficient eye movements, lip reading, limited vocabulary, or lack of concentration, corrective exercises of various types are used. Timed reading, which necessitates concentration, is followed by questions and exercises involving reading for main points, reading for detail, vocabulary building, and other reading skills.

Already some of the pupils in this class have shown noticeable improvement in their work in the regular English classes. The repetition of another form of the Shank Test at the end of the half year will further reveal the results of this remedial work.

We continue to send a goodly number to higher institutions of learning. Members of the 1937 Class are attending the Massachusetts Institute of Technology, Bowdoin College, Northeastern University, Massachusetts State College and Boston University. Others are taking courses in business and other special schools.

Nearly one hundred new volumes were added to our school library during the year. These books, selected from a list submitted by all teachers, were chosen by a committee appointed by the school board. They have greatly aided our efforts to supplement our classroom texts and broaden the reading of the pupils.

The school extends its thanks to Mrs. M. Elizabeth Turner for her gift of nine volumes to the school library, to Miss Emma Wood for her annual subscription to the Atlantic Monthly, and to the Scituate Parent Teacher Association for the gift of two chairs and the books used for prizes in the public speaking competition.

In closing, I wish to call to your attention the splendid cooperation and fine spirit of all the teachers, during the year, and to thank you and the School Committee for your helpful support.

Respectfully submitted,

FREDERICK A. CALKIN,
Principal.

STENOGRAPHY A

RUTH E. HAWKES

Teacher of Commercial Subjects, High School

In the first-year class in Stenography, Gregg Shorthand is taught by the Functional Method. This method was developed by Louis A. Leslie under the direct personal supervision of John Robert Gregg, author of Gregg Shorthand, and was announced in "The Business Education World" for March, 1935. In 1936, textbooks were prepared for the teaching of shorthand by this method, and, in September, these textbooks were purchased for use in our high school.

The Functional Method is based on the belief that the student should not be required to write any shorthand outline until he is thoroughly prepared to write outlines correctly. For this reason, the reading approach is used. The pupil reads for the first 24 assignments when he begins to write from the correct shorthand outlines in the book. New-matter dictation is not introduced until after 70 assignments have been completed. All dictation up to this point has been given with the student's book open in front of him, and he is urged to refer to the text rather than to write an incorrect outline.

In teaching shorthand by the Functional Method, no rules are taught for it is believed that rules are a hindrance rather than a help in writing fast shorthand. The small child learns to speak correct English before he knows about grammatical construction. In the same

way, a person may write shorthand correctly but be unable to tell why he writes an outline a certain way. If rules are taught at all, it is after the attainment of the skill.

Tests are given only for grading purposes. They are usually short five-minute transcription tests and are unannounced. Each lesson is a test in itself for all the principles that have been presented are used in each assignment. For this same reason, no formal reviews are given.

In the back of the text, the student has a type key to all shorthand reading matter. This enables a greater amount of work to be covered and eliminates the incorrect guessing of outlines. The student is urged to use this key until assignment 60 when he is able to read without the aid of a key.

The classroom period is taken up by presentation at the blackboard of review words and new words representing a new principle, reading from the homework assignment, taking dictation from practiced material, and, after 70 assignments, dictation of new-matter material. The word list is placed on the board by the teacher and the words read in concert by the class and by the individual students. In this way, the brief forms are taught before they are assigned for home practice.

The second-semester work consists of reading shorthand and taking dictation from practiced material and from new-matter dictation. The blackboard drill on a word list is still continued with each assignment giving a constant review of all principles. The amount of new-matter dictation is gradually increased as the year progresses so that the students should be able to take dictation between 60 and 80 words a minute at the end of the year.

NEWER TRENDS IN GEOGRAPHY

DOROTHY L. MAXIM

Teacher of Geography — Grades VII and VIII

There is probably no subject in the elementary curriculum in which greater changes have taken place than in the study of geography. One hundred years ago it was defined as a "study of the earth." Pupils were required to "bound" countries, point out meaningless places and to memorize many useless facts. Today our definition is stated as "a study of the earth in relation to man and life." We are more interested in developing attitudes—respect for other nations, sympathy with other peoples and understanding of their modes of living, all of which tend to help strengthen and promote world friendship.

To help bring about some of these desired attitudes, we have joined the World Friendship League and a number of our members are now carrying on correspondence with their new "pen-pals" across the sea. To date we have received letters from Denmark, Ireland, Japan, Canada, Germany, Italy and Korea. We have been particularly interested in their accounts of their school life. Small gifts have been exchanged.

With the present unrest around the world, we are keeping in touch through newspaper clippings, radio reports and our weekly bulletins issued by the National Geographic Society.

In the seventh grade we take our study of world geography as an imaginary trip. Each child keeps a diary of his travels. Steamship companies offer us excellent opportunities for obtaining pictures and booklets. We prepare for these journeys as realistically as possible by securing imaginary tickets, passports and visas. Each pupil decides for himself the purpose of his trip—whether he is travelling as a news reporter, collector, photographer, etc. and makes these observations in his diary. Routes of travel must be decided in advance by a careful study of our maps. Places of interest are noted and details studied from our reference books. In connection with this we have begun a museum and many fine articles have been loaned to us by parents.

In the eighth grade we again study geography around the world but go more into detail. Each pupil keeps a notebook of outlines, maps and charts covering this material. As a supplement to our textbooks, travel magazines and books furnish us with true, interesting information. We are particularly interested in this grade to determine how geographical factors influence the life, homes and customs of people around the world. In the unit dealing with homes we sketch or construct actual models of these together with colorful posters showing the costumes of these folk.

We also make a detailed study of products such as cotton, rubber and silk. Posters are made showing all the steps in the production of the article from its natural to manufactured state. These are then explained carefully to the class by the maker of the poster. This offers an excellent opportunity to correlate geography with such subjects as English and Drawing.

Following the study of the Netherlands we wrote a play depicting life in Holland. Various members constructed paper houses, dikes and gardens whereby we laid out a sand table village. Dog carts and windmills were carved from soap. One pupil taught several others a Dutch dance. Another group learned a song in the language of Holland. We hope soon to produce the results of this study as an assembly program.

PHYSICAL EDUCATION PROGRAM IN THE SCITUATE PUBLIC SCHOOLS

RUTH A. WHIDDEN

Supervisor

The amount of time devoted by the Supervisor to this program in the Grade Schools is 20 minutes per class each week. Junior High School has one 40 minute period each week, while Senior High School has two 40 minute periods, plus extra curricular activities which last from one to one and one-half hours in the afternoon, depending entirely upon the sport that is in season.

Our program in the first three grades is largely play: song, games, rhythms, dances. We march, skip, play with balls, turn somersaults, and so lay a foundation for our mental and physical background. Our aim is a sound mind and a healthy body—the best possible start for these boys and girls.

The games taught to these groups have an educational value that no one can appreciate who has not observed their effects. They awaken a sense perception, a mental response, and physical coordination, as well as produce a social development. In getting the educational value out of them it is important that the playing quality be stressed. The aim is not perfection but enjoyment in participation and interest.

The pupils of grades IV-VI in the elementary schools have arrived at an age where they are interested in

groups playing as a team—developing a knowledge of how to play with their team-mates to the best advantage, and at the same time to improve their own abilities. Ability testing is used as a most helpful way of laying a foundation for the games that will come later on—such as tossing rings leads to Tenikoit, catching and pitching balls leads to many types of ball games. Skills in these abilities are often perfected at an early age.

A more serious phase of this part of the program comes in our exercises which are used as corrective measures, to aid in acquiring proper standing, walking and sitting positions. The constant reminding of the child's posture falls mostly upon the grade teacher. Many of these corrective measures are put in the form of play, since play is natural to the young and as with other abilities can and should be cultivated.

Junior High School finds us at rather a difficult age to carry on all games for which skills have been developed. So in many cases we let them drop for the present. It is found better to leave out such team games as Basket Ball and Field Hockey as games and to continue to use only the skills found in the sport. Stunts are very popular with this group. All the games and abilities of elementary school are reviewed; Folk Dances, Tap, Apparatus, Exercises and Correctures add to our program with increased difficulty. Strenuous games of competition are not played.

As the student enters the Senior High School she has a fairly good conception of coordination of the physical and mental status. Ability to coordinate both mind and muscle in an alert manner comes as we go further along in our Swedish Gymnastics.

Senior High School classes are not divided as in Grade School. Almost every class here includes Seniors, Juniors, Sophomores and Freshmen. This division, although slow at the starting of a year when Freshmen are mixed in with the upper classmen, is helpful as the year goes on in that it stimulates the interest of those of lesser ability. The development of our coordinations and abilities from the first to the fourth year of high school is extremely elastic, and includes many and various forms of Apparatus, Gymnastics, Folk and Tap Dancing, Marching Tactics, Stunts, Games and Sports.

The High Lights in the Sports Program starts with Field Hockey, and although we do sponsor a first and second Varsity Squad playing in outside competition, we also include every girl in the course of the season in the playing of interclass games. This sport keeps our classes out of doors as late as the middle of November. It takes eleven girls to make a single team of hockey, so a large number of players participate.

Our next sport season brings us indoors for Basket Ball. Here again we sponsor interclass competition in a Round Robin of games. These games are planned and assisted by members of the Varsity Squad—who play in from six to eight outside games during a season.

Spring finds us outside again with Tennis as our leading sport. Beginners are working on strokes and form, while more advanced players are given an opportunity to put their Tennis knowledge into intermural play. From this a Tennis team is picked to play surrounding school teams; generally six matches are played during the season.

Badminton is played by a few of the better players—expense of equipment in this sport rather restricts

its use to a smaller group. Girls Base Ball is used in intermural play—with about two Varsity games in a season. Track is taught—but a small amount of time is given to this, as the group interested is generally rather small.

Our chief aim, in this department, is healthier boys and girls in the community as the result of a well rounded Physical Education Program.

REPORT FROM THE HATHERLY SCHOOL

GEORGÈ W. BURRILL

Principal

Enrollment in September showed a slight decrease in the number of pupils in attendance in our school. Owing to an epidemic of chicken pox during the fall term, our per cent of attendance has fallen below that of other years.

We are still endeavoring to improve the proficiency of the pupils in reading. Careful and thorough drills in the use of phonetics are given as an aid in the mastery of new words in sight reading. Through the co-operation of the local library, books have been placed in the three upper grades. Under the guidance of the teachers, the children are allowed to select books for home reading. We believe this eventually will develop a greater love of reading and aid in the selection of worthwhile books.

More careful attention is being given to playground supervision. During the supervised periods of play, games, which have been taught previously by the physical director, are played. These games tend to bring about a better physical growth and to develop a keener coordination of mind and body. Pupils are taught to realize the value of team, rather than individual work in competitive games between selected groups.

It was with sincere regret that we recently learned that Miss Lucy A. Lockhart was to leave our school,

having accepted a position in the Centre School at Hingham. Since September, 1931, Miss Lockhart has served as teacher of the First Grade in Hatherly School. Ever loyal to her superiors, cooperative with her fellow workers, devoted to her pupils, she worked with untiring effort for the welfare and advancement of those in her care. Teachers and pupils alike miss her sympathetic interest and kindly personality. Our best wishes go with her.

This year, as previously, we are enrolled one hundred per cent in the Junior Red Cross. A sum of money has been given to be used in the purchasing of milk for needy children in our school.

During the year the several holidays have been observed with programs arranged in the different rooms. Special attention was given to Horace Mann Centennial Week. At this time a portrait of Horace Mann, purchased by the school, was hung in the lower corridor.

REPORT FROM JENKINS SCHOOL

LEROY E. FULLER

Principal

Jenkins School opened in September with a decrease in enrollment. This decrease in school population in the elementary grades is quite general throughout the country. However, since September enough children have been transferred from other cities and towns to make our enrollment at the present time about the same as last year.

For several years the school has been a member of the Junior Red Cross. Two years ago we sent a scrapbook containing pictures and stories depicting the industries and historical points of interest in Scituate, to Junior Red Cross Headquarters, with the request that it be sent to some Junior organization in a foreign country. To our delight we received a similar book from Kristdala, Sweden, in acknowledgment of the one we had sent the previous year. This awakened in the pupils a desire to learn more about the Swedish people, their homes and their customs.

This year pupils made Christmas scrapbooks which were sent to the Children's Hospital and greeting calendars to others. When children make scrapbooks, contribute food and clothing or money, they unconsciously form the habit of thinking of those children less fortunate than themselves.

Again the pupils of grade six are reading books for the State Reading Certificate. Through the cooperation

of the Librarian of the Allen Memorial Library we have a large number of library books on our school shelves. The State Reading List now includes many of the newer Junior Literary Guild books. This, I think, indicates that good books for children are still being written.

Every educational conference and publication and every Massachusetts school system has stressed throughout the year the one hundredth anniversary of the establishing of the State Board of Education in Massachusetts with Horace Mann as its secretary. Although we were not able to give an elaborate program, we did make a study of Mann's life, discuss many of his valuable sayings and in the art classes correlated the work by drawing sketches of his birthplace.

REPORT OF SCHOOL PHYSICIAN

To the Scituate School Committee:

The School Physician respectfully submits the following as his report for the year of 1937.

Examination has been made of all pupils, and reports sent to the parents of those found to be defective.

The pre-school clinic, tonsil, and dental clinics, have proven to be of great benefit; there have been many who availed themselves of this service, and the result has been a general improvement in the health and appearance of the pupils.

There has been no serious epidemic of any dangerous malady, but chicken-pox and mumps have been quite prevalent in all schools.

The buildings have been inspected at various times, and it is a pleasure to report them as clean and in good sanitary condition. I might repeat that the heat, light and ventilation are well controlled.

A recapitulation of the pupils examined, and tabulation of diseases and defects will be found in the School Nurse's Report.

The School Physician begs the cooperation of parents and teachers in looking after the health habits and cleanliness of the pupils, for in such ways are acquired

the qualifications that result in self-respect, and good citizenship.

The teachers have been requested to call the School Physician in all cases of sudden illness or accident, and it has been my privilege to respond to all calls for my services.

Thanking all those with whom my duties have brought me in contact, I ask for your future cooperation.

Respectfully submitted,

T. B. ALEXANDER, M.D.,
School Physician.

REPORT OF SCHOOL NURSE

Mr. Harold C. Wingate,
Superintendent of Schools,
Scituate, Massachusetts.

Dear Sir:

My tenth annual report of work accomplished as part-time school nurse is as follows:

Number of school visits (including those made with school physician for examination), class and individual inspections, first aid treatments, dental and other clinics	179
Number of home visits for school children	176
Number of children taken home ill	21
Number of children examined by school physician	487
Number of children found to have nose and throat defects	104
Number of children having had nose and throat defects corrected	34
Number of children having defective vision.....	45
Number of children having had vision defects corrected	10
Number of children with heart defects	86
Number of children with posture defects	13

ANNUAL REPORT, TOWN OF SCITUATE, 1937

Number of children with speech defects	4
Number of children with defective hearing	18
Number of children receiving treatment for pre- vention of diphtheria (some of whom were in the pre-school age group)	104
Number of children tested in the Chadwick Clinic	138
Number of cases of mumps	104
Number of cases of chicken pox	34

Children were excluded from school for the following reasons:

Scabies	3
Impetigo	15
Pediculosis	12
Ringworm	4
Skin eruptions	2

Respectfully submitted,

MARGARET J. O'DONNELL, R.N.,
School Nurse.

REPORT OF ATTENDANCE OFFICER

Mr. Harold C. Wingate,
Superintendent of Schools,
Scituate, Massachusetts.

Dear Sir:

All cases of absences concerning which I have been notified have received my prompt attention. In nearly all of the cases investigated, the reasons have been sickness or other conditions which justified the absence.

Respectfully submitted,

ANNIE M. S. LITCHFIELD,
Attendance Officer.

**REPORT OF
THE BOARD OF SELECTMEN**

The report of the Selectmen for the year 1938 records completion of several much needed improvements and the accomplishment so far as financing obtains of others under process of construction. The enlargement and improvement of the Town's Parking area East of Front St., we believe is a distinct credit to the Town and the construction of the new Water Tower on Mann Lot Road with its capacity of one and a quarter million gallons was undoubtedly the answer to the most critical conditions facing us, namely an adequate water storage. The improvement of Scituate Harbor under an appropriation of approximately \$140,000 by the Federal Government and over \$100,000 by the Commonwealth and Town has been started and when completed later in 1939 will give us a Harbor that we may well be proud of. The new Recreational Park at North Scituate being built under a W. P. A. Project, although incompleted at this writing already shows promise of its fulfilment as an ideal playground and recreational center for that section of the Town. The rebuilding of Gannett Road under joint participation of the State, County and Town has been started and that section now contracted for will be completed this coming Spring. The final consumation of this improvement, if carried to completion, will be expensive and will require co-operative projects through these three agencies under so called Chapter 90 proceedings for the next four or five years unless larger annual appropriations are authorized for this purpose. The financial condition of the Town is apparently on an excpetionally good basis as is evidenced by the Treasurers ability to borrow under more favorable terms than almost any municipality in the State. Anticipation notes (notes issued in anticipa-

tion of current revenue) have been issued during the past year for less than one Fourth of one percent per Annum and notes for terms of five years at a rate of less than one percent per Annum. We were faced this Fall with an assessment for the State Tax more than double the amount estimated by the Tax Commissioners at the time our Assessors established our tax rate but due to receipts accruing to the Town which were also underestimated the net payment due the Commonwealth was less than in 1937. We hope the receipts from the State in 1939 will be equally favorable. Our tax rate for 1938 was \$32.00 per thousand, a decrease of \$.60 over the previous year and \$5.00 under the State Average and it is entirely desirable that this rate shall not be increased in the coming years. The cost of conducting the various welfare agencies represents an increase over the previous year and had it not been for the very generous allotment of W. P. A. Funds for labor, and increase in quota of assigned W. P. A. Workers from 35 men in December of 1937 to 120 during the greater part of the present year the general Welfare load would of necessity have been much greater than it was. The picture presented in this report up to the present has been one of accomplishment and financial soundness, but it seems wise and perhaps necessary that we present a more serious and less favorable phase of local conditions as they refer to our unemployment problem. The situation in this respect is perhaps more acute now than ever before and this in spite of the larger W. P. A. quota. Several factors contribute toward this condition but perhaps the curtailment in employment on our farms and in building operations are the principal causes. With reference to farm employment in the future it is not expected that there will be any improvement but perhaps the opposite may be expected. We are, however, hopeful of a resumption of home building operations but

without some form of industry other than these the outlook is far from encouraging.

We have at the present time a sufficient program of approved W. P. A. projects to continue the employment of our present W. P. A. quota for the ensuing year, but to furnish the Town's share of necessary funds to carry out these projects will require an appropriation at least double that of 1938. The appropriation of \$10,800 for this purpose in 1938 was productive of securing over \$40,000 of Federal Funds for employment, but we cannot hope to duplicate this proportion of 4 to 1 in the coming year. In fact if we can secure Federal allotments for labor in the proportion of 2½ to 1 it will be better than the general average throughout the State. We certainly do not advocate extravagance in Town expenditures but we do wish to impress the taxpayers with the fact that substantial expenditures for labor enterprises whether for W. P. A. Projects or general Town Improvements will not only provide self respecting employment for some of our unemployed but will reflect an almost equal relief from Welfare expenditures that otherwise must be met. Perhaps our future as a residential sea shore Town would not be improved by the encouragement of some forms of industry but it would seem that some sort of enterprise that would employ 100 or more of our local workers might safely be encouraged and bring security and prosperity to many of our citizens and hope to those of our boys and girls whom our schools are preparing for useful lives, and find themselves with no place to go. To him or those who can assist the Town to this end, our greatest obligation and appreciation will be due.

Signed:

JAMES W. TURNER,
W. IRVING LINCOLN,
PHILIP S. BAILEY,
Selectmen of Scituate.

REPORT OF STATE AUDIT

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Division of Accounts

State House, Boston

April 9, 1938

To the Board of Selectmen

Mr. James W. Turner, Chairman

Scituate, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Scituate for the year ending December 31, 1937, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts.

TNW:O

Mr. Theodore N. Waddell

Director of Accounts

Department of Corporations and Taxation

State House, Boston

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Scituate for the fiscal year ending December 31, 1937, and report thereon as follows:

The records of the financial transactions of the several departments receiving or disbursing money for the

town, or committing bills for collection, were examined, checked, and verified by a comparison with the reports and the records of the town accountant.

The town accountant's ledger was analyzed, the appropriations and transfers being checked with the town clerk's records of town meetings and with the advisory committee's records of transfers from the reserve fund.

The necessary adjusting and correcting entries resulting from the audit were made, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on December 31, 1937.

The balance sheet indicates that at the close of 1937, there were overdrafts in several appropriations aggregating \$9,422.55, these overdrafts having been authorized by the selectmen in accordance with Section 31, Chapter 44, General Laws, which provides that liabilities may **not** be incurred in excess of appropriations voted by the town "except in cases of extreme emergency involving the health or safety of persons or property." While it is possible that conditions existed in some cases which would have permitted the selectmen to authorize the incurring of liabilities in excess of the appropriations, there was no evidence found which would substantiate any claim that an **extreme** emergency existed in connection with all the appropriations overdrawn. Attention is hereby called to an opinion of the Supreme Judicial Court filed June 29, 1937, in the case of "Continental Construction Co. vs. City of Lawrence" wherein it was stated that:

"... The conditions which will permit the lawful incurring of extraordinary indebtedness must exist in truth and in fact. We can discover nothing to support a construction which would permit a city council to shake off the limitations imposed upon it by merely declaring the exist-

ence of a state of emergency and then authorizing the incurring of liabilities to an unlimited amount for an unascertained period of time, nor do we think that such a declaration has any presumptive or evidential force in establishing the existence in fact of an emergency”

The books and accounts of the town treasurer were examined and checked. The recorded receipts were analyzed and compared with the town accountant's ledger and with the records of the departments making payments to the treasurer, while the payments by the treasurer were checked with the selectmen's warrants authorizing the disbursement of town funds.

The cash balance on January 26, 1938, was verified by a reconcilliation of the bank balances with statements furnished by the banks of deposit.

The payments on account of maturing debt and interest were proved with the amounts falling due and with the cancelled securities and coupons on file, the outstanding coupons being listed and reconciled with a statement furnished by the bank.

The records of tax titles held by the town were examined and checked. The amounts added to the tax title account were compared with the collector's records. The reported redemptions were checked with the receipts as recorded on the treasurer's cash book, and the tax titles on hand were listed, proved, and checked with the records in the Registry of Deeds.

The savings bank books representing the trust fund investment in the custody of the selectmen were examined and listed. The income was proved, the transfers to the town were checked, and the transactions were found to be as reported.

The books and accounts of the town collector were examined and checked. The tax, assessment, departmental, and water accounts outstanding at the time of the previous examination were audited, and all subsequent commitments were reconciled with the records of the departments committing the accounts for collection. The payments to the treasurer were checked to the treasurer's cash book, the recorded abatements were compared with the records in the departments authorized to grant abatements, and the outstanding accounts were listed and reconciled with the respective ledger accounts.

The outstanding tax, assessment, departmental, and water accounts were verified by sending notices to a number of persons whose names appeared on the books as owing money to the town, and from the replies received it appears that the accounts, as listed, are correct.

The town clerk's record of dog licenses issued on behalf of the county and of sporting licenses, the proceeds of which are paid to the State, were checked with the records of licenses issued, and the payments to the county and to the Division of Fisheries and Game were verified.

Collections on account of dog licenses issued should be paid by the town clerk to the town treasurer on the first Monday of each month or oftener in order that the town treasurer may pay over to the county treasurer the amounts so received from the town clerk on or before June and December first of each year. From an examination of the receipts received from the county and the State, it appears that payments for licenses issued are not made promptly and in this respect attention is called to Section 147, Chapter 140, General Laws, as amended, and to Section 5, Chapter 129A, General Laws, as inserted by Section 1, Chapter 329, Acts of 1933.

The records of licenses and permits issued by the selectmen and the police and health departments were examined, and the payments to the town treasurer were verified.

The surety bonds of the various town officials required to file them were examined and listed.

The accounts of the sealer of weights and measures and of the health and school departments, as well as of all other departments collecting money for the town or committing bills for collection, were examined, checked, and reconciled with the treasurer's and the town accountant's books.

In addition to the balance sheet referred to, there are appended to this report tables showing a reconciliation of the treasurer's and of the collector's cash, summaries of the tax, assessment, tax title, departmental, and water accounts, as well as tables showing the condition and transactions of the several trust funds.

For the cooperation extended by the various town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

HERMAN B. DINE,

Assistant Director of Accounts.

REPORT OF TOWN CLERK

ANNUAL TOWN MEETING, 1938

HELD ON TWO DAYS

Under Authority of Chapter 284, Acts of 1915

March 7, 1938

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs held at the High School Auditorium in said Scituate on Monday, the seventh day of March, 1938, at 9 o'clock A. M. order was called by Moderator William J. Roberts.

The warrant was read by Town Clerk, William M. Wade.

Tellers appointed by the Moderator and sworn to their duties by the Town Clerk were: John G. Vollmer, Lester D. Hobson, Donald S. Pitkin, John M. Goodnow, Ralph C. Ackerman, Joseph O. Severance, Jr., and George F. Dwyer.

Article 1

To choose all the necessary Town Officers other than those elected by ballot, viz., Surveyor of Lumber, Measurer of Wood and Bark, two or more Field Drivers, one Pound Keeper.

Voted: To elect same officers as in 1937. Surveyor of Lumber, Measurer of Wood and Bark, Ansel F. Servan.

Two or more Field Drivers.

The constables.

One Pound Keeper,

Augustus L. Abbott.

Article 2

To hear the report of the Selectmen, other Town Officers and Standing Committees, and act thereon.

Voted: To accept reports of Town Officers as printed in the Town Report.

Voted: To accept report of Committee re. Art. 8 of Town Meeting of March 1, 1937 concerning conditions near Town Pier.

A minority report by William A. Davidson, accepted and filed with the Town Clerk.

Voted: To accept report of Committee appointed at Town Meeting of March 1, 1937, re. draining problem at corner of Cudworth and First Parish Roads.

Article 3

Will the Town vote to establish salaries and compensation of all elected Town Officers, or act thereon?

Voted: To establish salaries and compensation of all elected Town Officers as follows:

Selectmen: Chairman, \$1800.00 and legitimate expenses. Other members, \$540.00 each and legitimate expenses.

Assessors: Chairman, \$1620.00 and legitimate expenses. Other members, \$405.00 each and legitimate expenses.

Board of Public Welfare: Chairman, \$500.00 and legitimate expenses. Other members \$100.00 and legitimate expenses.

Highway Surveyor: \$1980.00, he to furnish his own conveyance while in the performance of his duties and receive \$250.00 to cover expense of same.

Town Clerk: \$1200.00 and legitimate expenses.

Town Collector: \$2000.00 and legitimate expenses, all fees to accrue to the benefit of the Town.

Town Treasurer: \$1800.00 and legitimate expenses.

Tree Warden: \$270.00.

Water Commissioners: \$180.00 for each member and legitimate expenses, to be taken from Water Department budget.

Board of Health: The sum of \$1200.00 be paid to the Board of Health for salary, divided as follows: Secretary, \$500.00 and legitimate expenses. Other two members \$350.00 each and legitimate expenses. This sum shall include their charges for all services performed by them or either of them, other than inspection of plumbing, inspection of meat and inspection of cattle from appropriation for Board of Health.

Park Commission: each member be paid the same amount per hour for work actually performed as is paid laborers in the Highway Department.

Moderator: \$10.00 each meeting.

Article 4

Resolution re. Hydrant Rental under Article 4

Whereas: The operating costs of the Water Department are decreasing each year, and the income of the Department is an amount in excess of what is necessary for its operation and ordinary upkeep, and

Whereas: The charges against the Town for fire protection under the title of Hydrant rental and Inch-foot levy, have reached an amount in excess of any previous year, and are greater than are needed to supplement the income from water rates;

Be it resolved: That it is the sense of this Town Meeting that the amount \$3,010.00 asked for hydrant rental shall be withdrawn or abated if already charged for the

year of 1938 and that the water rates shall be reduced thus giving the water taker the benefit of the savings accruing to this Department.

(Voted to accept by voice vote)

Article 5

To see if the Town will authorize the Board of Public Welfare to contract at their discretion for the support of the Town's poor, or act thereon?

—Selectmen

Voted: To so authorize the Board of Public Welfare.

Article 6

To see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1939, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

—The Selectmen

Voted: That the Town do authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1939 and to issue a note or notes therefor payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

(Unanimous vote.)

Article 7

To hear the report of any Committee heretofore chosen, or act thereon.

Combined with Article 2.

Article 8

Will the Town authorize the Selectmen to prosecute, compromise or defend any suit or suits within the Commonwealth in the name of the Town and to settle any claim against the Town not exceeding twenty-five dollars (\$25.00) out of any available funds therefor.

—Selectmen

Voted: To so authorize.

Article 9

Will the Town instruct its Selectmen to control, regulate, or prohibit the taking of eels, clams, quahaugs, razor fish, sea worms and scallops within the Town of Scituate in accordance with Chapter 130, Section 84, General Laws, as amended by the Acts of 1928, Chapter 113, and raise and appropriate \$2,200.00 for the regulations, supervision and equipment for same, or act thereon?

—Selectmen

Voted: To instruct the Selectmen to control, regulate, or prohibit the taking of eels, seaworms, clams, quahogs, razor fish and scallops within the Town of Scituate in accordance with Chapter 130, Section 84, General Laws, as amended by the Acts of 1928, Chapter 113 and raise and appropriate \$2200.00 for the regulations, supervision and equipment for same.

Article 10

Will the Town raise and appropriate the sum of \$4,000.00, to cover the labor costs of cultivating the clam flats at the North River, Humarock, Bassing Beach and the Glades to be expended under the joint direction of the Board of Selectmen and the Board of Health.

—Young Men's Civic Association et al

Voted: To lay on the table.

Article 11

Will the Town authorize the Selectmen to contract for the part time services of a Public Health Nurse to be employed under the direction of the Board of Health, Board of Public Welfare, and the School Committee and raise and appropriate the sum of \$1,600.00 plus \$500.00 to help pay the cost of transportation for Schools, Board of Public Welfare, and Board of Health work, or act thereon. —Selectmen

Voted: Yes. \$2,100.00

Article 12

Will the Town vote to raise and appropriate the sum of \$6,500.00 to the Reserve Fund or transfer the whole or any part thereof from any available fund or act thereon? —Selectmen

Voted: To raise and appropriate \$4,000.00.

Article 13

Will the Town raise and appropriate the sum of seventy-five dollars (\$75.00) for the channel markings and regulations of the usage of North River from Humarock Bridge to the sea, same to be in conjunction with like control by the Town of Marshfield? —Selectmen

Voted: Yes. \$75.00

Article 14

To see if the Town will raise and appropriate the sum of \$10,000.00 to cover the Town share of materials, trucking, and other necessary expenses in connection with Federal Projects or State or County assistance of that nature or any other Town improvement as may be approved by the Selectmen. —Selectmen

Voted: That \$10,000.00 be raised under Article 14 and that \$5,000 be raised from current tax levy and \$5,000 be taken from Excess and Deficiency Account.

Article 15

To see if the Town will vote to transfer the Dog Fund received from the County for Schools or Libraries.

—Selectmen

Voted: To transfer to Schools.

Article 16

To see if the Town will vote to raise and appropriate \$100.00 for County Aid to Agriculture and choose a town director as provided in Sections 41 and 45 of Revised Chapter 128 of the General Laws and act thereon.

—County Treasurer

Voted: Yes. \$100.00. Charles E. Mitchell, Director

Article 17

Will the Town raise and appropriate the sum of \$9,422.55 to provide for the following overdrafts:

Hydrant Rental	\$	34	16

Voted: To raise and appropriate \$500.00, earmarked to be spent to relieve Public Welfare costs.

Article 20

Will the Town raise and appropriate the sum of \$85.00 for care of the old Cemetery on Cudworth Road, or act thereon.

—The Selectmen

Voted: To raise and appropriate \$8,000.00

Article 21

“Will the town appropriate the sum of eight thousand (\$8,000.) dollars to be paid to Henry T. Cole for work and materials furnished to said town in connection with a contract or contracts for making fill on the waterfront

side of Front Street in said town,— said appropriation to be made in accordance with Chapter 235, Sections 1 and 3 inclusive of the Acts and Resolves of the Commonwealth of Massachusetts for 1936, a copy of which is herein set forth below, and under which enactment the town at its annual town election in 1937 voted by a vote of 847 in favor to 351 against, to authorize the Town of Scituate to pay to the said Henry T. Cole a sum not to exceed eight thousand dollars for said labor and materials furnished as aforesaid, and at said election no action could be taken to make appropriation for said payment on account of the fact that all appropriations for the year 1937 had been made the week previous at the annual Town meeting held on the first Monday of March, 1937?

‘An Act Authorizing The Town of Scituate To Pay a Sum of Money to Henry T. Cole For Certain Work and Materials.

Be it enacted, etc., as follows:

Section 1. For the purpose of discharging a moral obligation, the town of Scituate is hereby authorized to pay to Henry T. Cole of said town a sum not to exceed eight thousand dollars for work and materials furnished to said town in connection with a contract or contracts for making fill on the waterfront side of Front Street in said town.

Section 2. This act shall be submitted to the registered voters of said town at the annual town meeting in the year nineteen hundred and thirty-seven in the form of the following question, which shall be placed on the official ballot to be used for the election of town officers at said meeting:—“Shall an act passed by the general court in the year nineteen hundred and thirty-six entitled ‘An Act authorizing the Town of Scituate to pay a sum of Money to Henry T. Cole for Certain Work and Mater-

ials,' be accepted?" If a majority of the votes cast thereon are in the affirmative this act shall thereupon take effect, but not otherwise.

Section 3. If the vote on section two is in the affirmative, the vote for the money to be appropriated must be taken at an annual town meeting. Approved April 21, 1936."

—Ernest L. Pinkham, et al

Voted: To raise and appropriate \$8,000.00

Article 22

Will the Town raise and appropriate the sum of \$150.00 for the annual clean up and appoint a committee to have charge of same, or act thereon.

—Scituate Clean Up Committee

Voted: To raise and appropriate \$150.00 with same Committee as in 1937.

Article 23

To see if the Town will vote to increase the number of Selectmen from three to five members, to take effect March 1939 at the annual town meeting for election of officers all five members to be elected for a period of one year.

—James H. Dwyer, et al.

Not acted upon. Ruled illegal by Moderator.

Article 24

To see if the town will vote to authorize the Fire Engineers to appoint one of their number as chief and fix his salary in accordance with Section 4A of Chapter 41, General Laws.

—Board of Engineers

Voted: No.

Article 25

—School Committee

Voted: To raise and appropriate \$1,500.00

Article 47

Will the town voted to repeal the so-called zoning by laws adopted in 1936 and now effective, or act thereon.

—Henry C. Seaverns, et al.

Vote: Yes 104 No 275.

Article 48

Will the town vote to repeal the vote, whereby it created the so called Planning Board, and abolish said, or act thereon.

—Henry C. Seaverns, et al.

Voted: To indefinitely postpone.

Article 49

Will the town vote to modify the zoning by-law adopted March 2, 1936 by amending Section 1 and 2 of said

by-law by adding the following words at the end of each section:

“except the following parcel of land which shall be considered to be in Zone B. The premises situated at the corner of Chief Justice Cushing Highway (formerly called Briggs Place) and Old Oaken Bucket Road (formerly called Pond Street) and bounded and described as follows: Beginning at the Northerly corner of the granted premises on Chief Justice Cushing Highway, at land now or formerly of Elijah T. Clapp, thence Southeasterly by said Chief Justice Cushing Highway, two hundred fifty-eight (258) feet, more or less, to bound in the highway; thence by a curve to the right (of a radius of 25 feet) about fifty-nine and $12/100$ (59.12) feet to Old Oaken Bucket Road; thence Westerly by Old Oaken Bucket Road two hundred and thirty-eight (238) feet, more or less, to land now or formerly of said Clapp; thence Northwesterly by said land of Clapp two hundred and forty (240) feet, more or less, to the point of beginning on Chief Justice Cushing Highway.”

Being the same premises conveyed to John A. Russell by Deed of Rockland Trust Company dated September 10, 1937 and recorded with Plymouth County Registry of Deeds, Book 1730, Page 229. —John A. Russell, et al.

Voted: No.

Article 50

Will the town change its zoning by-laws by the addition of the following provisions for a Zoning Board of Appeals:

A Zoning Board of appeals shall be established and appointed by the Selectmen in accordance with and subject to the provisions of General Laws, Chapter 40, Section 30, as amended. Said Board of Appeals shall have all the powers, privileges and duties as provided by law.

An appeal to the Board of Appeals by any person aggrieved by his inability to obtain a permit from an administrative official under the provisions of said Chapter 40, Section 25 to 30A inclusive, must be taken in writing within fifteen days after notice has been given said person of his failure to obtain the desired permit.

Upon the passage of this addition to the town's zoning by-laws by the required vote of the town meeting, it shall become effective to the extent of its approval by the Attorney General and after due publication thereof by the Town Clerk. —Philip L. Schuyler et al.

Voted: Yes 289 No 0 Unanimous vote.

Accepted by Attorney General March 29, 1938.

Article 51

Will the town vote, to investigate, and find out How, When, and from whom the so called N. Scituate Improvement Association, acquired title to the Beach property of act thereon. —Henry C. Seaverns, et al.

Voted: To indefinitely postpone.

Scituate Veterans Band, Louis O. Haartz, Pres et al.

Voted: No.

Presented by a committee appointed at the Annual Town Meeting March 7, 1938.

A silence fell over the assembly in Annual Town Meeting, and everyone was shocked by the announcement that death had parted us from our esteemed fellow citizen, William A. Burton.

A resident of Scituate for many years, and a man of wide interests and varied activities many people came to know, respect and love him. He was very patient with others, sympathetic and friendly and although Scituate will miss him greatly the Town will be better because a part of his life was lived in it. Of him it may be said, "He was a man of humble spirit, kindly disposition, gentle and lovable."

While actively engaged in his extensive work he was called into the life eternal, but his assistance in Town business, his counsel on the Advisory Board, and his general interest in the welfare of mankind made him a great man, and the inspiration of his memory will remain to all of us a cherished heritage and guide.

PHILIP S. BAILEY,
ALLAN D. CREELMAN,
JAMES W. TURNER.

Meeting adjourned at 10:50 P. M.

Attest: WILLIAM M. WADE,
Town Clerk.

SPECIAL TOWN MEETING

JUNE 22, 1938

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs held at the Scituate High School Auditorium in said Scituate on Wednesday, the twenty-second day of June, 1938, at 8 o'clock P. M.; the meeting was called to order by Moderator Dennis H. Shea.

The warrant was read by Town Clerk, William M. Wade.

Tellers appointed by the Moderator and sworn to their duties by the Town Clerk were: Ralph C. Ackerman, C. Harry Driscoll, George F. Dwyer, Eugene H. Lane, Kenmure W. Moffatt, J. George Vollmer.

Article 1

To see if the Town will accept the following by-law:

“The Selectmen are authorized to sell after first giving notice of the time and place of sale by posting such notice of sale in some convenient place in the Town fourteen days at least before the sale, property taken by the Town under tax title procedure provided that the Selectmen or whomsoever they may authorize to hold such public auction may reject any bid which they deem inadequate, or take any action relative thereto.”

—Selectmen

Voted to accept. Unanimous vote.

Approved Sept. 14, 1938, by Paul A. Dever, Attorney General.

Article 2

Will the Town raise and appropriate the sum of \$4,200.30 for snow removal. \$3,700.30 to cover an overdraft of the existing account and \$500.00 in anticipation of further expenditure before Jan. 1st, 1939, and that said sum of \$4,200.30 be taken from the E. & D. Account, or act thereon?

—Highway Surveyor

Voted: That the Town raise and appropriate the sum of \$4,200.30 for snow removal; \$3,700.30 of which to cover an overdraft in this account and \$500.00 to be

made available for further expenditures before January 1, 1939, and that said sum be taken from available surplus in the E. & D. account.

Unanimous vote.

Article 3

Will the Town authorize the Selectmen to release any existing title or rights in the so called Ellms gravel pit, situated on the southerly side of Gannett Road, for the sum of twenty-five dollars to W. Irving Lincoln, devisee of the late Benjamin T. Ellms, or act thereon?

—Selectmen

Voted: To indefinitely postpone.

Article 4

To see if the Town will raise and appropriate the sum of twelve hundred dollars for the use of the Forest Fire Department of which amount the sum of forty six dollars and seventy-four cents (\$46.74) be used to cover an overdraft in said account and the balance to be used for further necessary expenditures by said Department, and that said twelve hundred dollars be transferred from the E. & D. account, or act thereon.—Selectmen

Voted—Yes—as printed in warrant-\$1200.00.

Article 5

To see if the Town will raise and appropriate the sum of five hundred dollars (\$500.00) for a series of seven band concerts, to be given during the months of July and August 1938 and authorize the transfer of said sum from the E. & D. Account or act thereon.

—Scituate Veterans Band, Louis O. Haartz, Dir.

Voted—Yes—\$500.00 from E. & D. account.

Article 6

Will the Town raise and appropriate the sum of thirty-five hundred dollars (\$3,500.00) for the purpose of further improving the Town Parking Space lying east of Front Street at Scituate Harbor by providing an additional safety island, the completion of the sidewalk on Westerly side of said parking space, the construction of a Comfort Station and to provide necessary draining facilities in conjunction with said improvements and that said sum of \$3,500.00 be taken from the E. & D. Account, or act thereon? —Selectmen

Voted: That the Town do raise and appropriate the sum of \$3500.00 for the purpose of further improving the Town Parking Space lying East of Front Street, by providing an additional safety island, the completion of the sidewalk on the Westerly side of said parking space, the construction of a comfort station, and to provide necessary drainage facilities in conjunction with said improvements and that the said sum of \$3500.00 be taken from available surplus in the E. & D. account.

Yes 204 No 44

Article 7

To see if the Town will appropriate the sum of three thousand (\$3,000.00) for the purchase from Howard H. Young of the property at Egypt formerly owned by the Standard Oil Co. for the use of the Highway Department and that said sum be taken from the E. & D. Account, or act thereon? —Highway Surveyor

Voted: Yes \$3,000.00 from E. & D. Account. Yes 234, No 5.

Article 8

Will the Town raise and appropriate the sum of \$4,900.00, said sum to be available for Public Welfare

purposes and to be taken from the Overlay Surplus Acct., or act thereon? —Board of Public Welfare

Voted—Yes—\$4900.00 from Overlay Surplus Account.

Article 9

Gannett Road. Will the Town amend the vote taken under Article 28 of the Annual Town Meeting held on March 7th, 1938 which vote was as follows:

“Voted to accept the layout of the County Commissioners for Gannett Road and raise and appropriate the sum \$350.00 for land damages and \$3,750.00 to be expended on said layout with a like sum from the County and \$15,000.00 from the State and that the sum of \$4,100.00 be taken from the E. & D. Account for this purpose,” by omitting the words, “and \$15,000.00 from the State,” so that in the amended form this vote shall read: “Voted to accept the layout of the County Commissioners for Gannett Road and raise and appropriate the sum of \$350.00 for land damages and \$3,750.00 to be expended on said layout with a like sum from the County with such sum as the Department of Public Works shall allot for this purpose and that said sum of \$4,100.00, made available by the original vote, be used for this purpose.”

—Selectmen

Voted: That the Town do amend the vote taken under Article 28 of the Town Meeting of March 7th to read as follows:

“Voted to accept the layout of the County Commissioners for Gannett Road and raise and appropriate the sum of \$350.00 for land damages and \$3750.00 to be expended on said layout and a like sum from the County with such sum as the Department of Public Works shall allot for this purpose and that said sum of \$4100.00 made available by the original vote, be used for this purpose.”

Unanimous vote.

Article 10

Will the Town raise and appropriate the sum of Seven Hundred dollars (\$700.00) to be expended under the direction of the Board of Health to do additional work necessary for the eradication of a health nuisance in and around Musquashcut Pond as recommended by the State Board of Health and the Department of Public Works, and said sum be taken from the E. & D. Account, or act thereon?

—Board of Health, W. L. Enos, Chairman

Voted: Yes \$700.00 from E. & D. account.

Article 11

Will the Town accept the provisions of Chapter 406 of the Acts of 1938, which Act reads as follows:

An Act providing for the improvement of Scituate Harbor in the Town of Scituate. Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

Section 1. Subject to the conditions herein imposed, the department of public works is hereby authorized and directed to dredge certain areas in Scituate harbor to a depth of six feet at mean low water. No work shall be begun until the town of Scituate has assumed liability, in the manner provided by section twenty-nine of chapter ninety-one of the General Laws, Tercentenary Edition, for all damages that may be incurred hereunder, nor until the said town has paid into the treasury of the commonwealth the sum of twenty-four thousand two hundred dollars, which together with such sum not exceeding seventy-two thousand six hundred dollars, as may hereafter be appropriated by the commonwealth, shall constitute a fund for the improvements herein authorized; provided that the total cost of such improvement

shall not exceed ninety-six thousand eight hundred dollars, and provided, further, that if any of the aforesaid sum remains after the completion of such improvements one fourth of such remainder shall be repaid to said town.

Section 2. For the purpose of meeting the payments required to be made by the town of Scituate under this act, the said town may borrow from time to time such sums as may be necessary, not exceeding, in the aggregate twenty-four thousand two hundred dollars, and may issue, notes therefor, which shall bear on their face the words, Town of Scituate, Harbor Improvements Loan, Act of 1938. Each authorized issue shall constitute a separate loan, and such loans shall be paid within five years from their dates. Indebtedness incurred by said town under this act shall be in excess of the statutory limit, but shall, except as herein provided, be subject to chapter forty-four of the General Laws, Tercentenary Edition, exclusive of the limitation contained in the first paragraph of section seven thereof.

Section 3. This act shall take full effect upon its acceptance during the current year by vote of the town of Scituate in town meeting and filing in the office of the said department of a certified copy of said vote. So much thereof as provides for acceptance as aforesaid shall take effect upon its passage.

Voted: That the Town accept the provisions of Chapter 406 of the Acts of 1938 relative to the improvement of Scituate Harbor as printed under Article 11 in this warrant.

Article 12

To see if the Town, acting under the authority of Chapter 406 of the Acts of 1938 will raise and appropriate the sum of \$24,200.00 for dredging certain areas in Scituate Harbor in accordance with plans on file at the

Department of Public Works in conjunction with a sum not exceeding \$72,600.00 by the Commonwealth as authorized in said act, and in conformity with the provisions of said act determine the way and manner in which said sum shall be raised, or act thereon? —Selectmen

Voted: That the Town acting under authority of Chapter 406 of the Acts of 1938 do raise and appropriate the sum of \$24,200.00 for dredging certain areas in Scituate Harbor in accordance with plans on file in the Department of Public Works in conjunction with a sum not exceeding \$72,600.00 by the Commonwealth as authorized in said Act, and to meet said appropriation, the treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow the said sum of \$24,200.00 in accordance with Chapter 406, Acts of 1938, and Chapter 44 of General Laws and to issue notes of the Town therefor, said notes to be paid in not more than five years from the date of issue of the first note, or at such earlier dates as the treasurer and selectmen may determine.

Yes 249, No 1.

Article 13

Will the Town, acting under Chapter 406 of the Acts of 1938 and in accordance with the provisions of General Laws, Chapter 91, Section 29 assume liability for all damages to property suffered by any person, by any taking of land or of any right, interest or easement therein within the Town, that might result from the operations authorized under said Chapter 406?

—Selectmen

Voted: That the Town, acting under Chapter 406 of the Acts of 1938 and in accordance with the provisions of Chapter 91, Section 29 of the General Laws, assume liability for all damage to property suffered by any person, by any taking of land or of any right, interest or

easement therein within the Town, that might result from the operations authorized under said Chapter 406.

Unanimous vote.

Article 14

Will the Town raise and appropriate the sum of fifty-six dollars and sixty-six cents to pay the following unpaid bills of 1937? This amount to be taken from the E. & D. Account.

Franklin Publishing Co.	\$14.00
Brockton Edison Co.	\$26.66
Sidney S. Gates	\$16.00
Voted: Yes \$56.66 from E. & D. account.	

Article 15

To see if the Town will vote to transfer the sum of fifteen hundred dollars (\$1,500.00) from "Federal, State, County and Town Improvements Account," provided for under Article 14 of the warrant for the annual Meeting in 1938, to the appropriation of \$4,000.00 for "North Scituate Playground," or act thereon.

—North Scituate Playground Committee

Voted: That the Selectmen be authorized to transfer \$1500.00 from the fund raised under Article 14 of the annual Town Meeting in March. Said amount to be used in conjunction with the special appropriation of \$4,000.00 raised at the annual meeting and with other W. P. A. funds made available under a Federal Project.

Voted: Yes

Article 16

To see if the town will authorize the Selectmen to sell the remainder of the Scituate tercentenary pamphlets to the Scituate Historical Society in consideration of the payment of a sum of money for said pamphlets or

take any action relative thereto? Signed: Scituate Historical Society.

Voted: That the Town do sell to the Scituate Historical Society for the sum of \$1.00.

Article 17

Will the Town vote to request the Board of Selectmen to hold the election of Town Officers before the Annual Town Meeting? —Advisory Board

Voted: To indefinitely postpone.

Article 18

Will the Town vote to request the Board of Selectmen to hold the Annual Town Meeting in the evening instead of the daytime? —Advisory Board

Voted: To request the Board of Selectmen to hold the Annual Town Meeting in the evening.

RESOLUTION

Resolved: That the citizens of the Town of Scituate here assembled tender to the Honorable Frank S. Davis, Manager of the Maritime Association of the Boston Chamber of Commerce, a vote of sincere appreciation for the untiring and able assistance rendered during the past four years to our citizens and officials in securing Legislation both National and State which has resulted in the authorization by Congress and the Legislature of the expenditures of over \$316,000.00 for the improvement of Scituate Harbor, and that the Town Clerk be instructed to transmit to Mr. Davis a copy of this resolution.

Passed unanimously—(Copy sent to Mr. Davis on June 28, 1938.)

The meeting adjourned at 9:45 P. M.

Attest: WILLIAM M. WADE,
Town Clerk.

Commonwealth of Massachusetts
WARRANT FOR STATE ELECTION

PLYMOUTH, ss.

To either of the Constables of the Town of Scituate in
the County of Plymouth, and the Commonwealth of
Massachusetts

GREETING:

In the name of the Commonwealth of Massachusetts
you are hereby directed to notify and warn the inhabi-
tants of the Town of Scituate, qualified to vote in Elec-
tions to meet at the HIGH SCHOOL AUDITORIUM, Scit-
uate, on Tuesday, the 8th day of November, 1938, at 6
o'clock in the forenoon.

To give in their votes for:

Governor, Lieutenant Governor, Secretary, Treasurer,
Auditor, Attorney General, Congressman in 15th District,

Councillor Second District, Senator Norfolk and Plymouth District, Representative in General Court Second Plymouth District, District Attorney Southeastern District, County Commissioner Plymouth County, Sheriff Plymouth County, and a County Commissioner to fill vacancy, Plymouth County.

Also to vote "YES" or "NO" on the following:

QUESTION 1

PROPOSED AMENDMENT TO THE CONSTITUTION

Shall an amendment to the Constitution providing for biennial sessions of the General Court and for a biennial budget which is further described as follows:—

This amendment annuls all existing provisions of the Constitution and its prior amendments which require annual sessions of the General Court, commonly known as the Legislature, and provides for biennial sessions in their place. It also provides that the budget of all proposed expenditures of the Commonwealth shall be so prepared as to cover two fiscal years instead of only one as at present required,—which proposed amendment was approved by the General Court and a joint session of the two branches held May 27, 1936, received 141 votes in the affirmative and 117 in the negative, and in a joint session of the two branches held May 19, 1937, received 158 votes in the affirmative and 112 in the negative,—be approved?

QUESTION 2

LAW PROPOSED BY INITIATIVE PETITION

Shall the proposed measure which provides that in any city or town which accepts its terms, the licensing authorities shall establish free public taxicab stands for the use of all taxicabs and motor vehicles for hire whose owners are licensed within such city or town, and shall

abolish all other forms of taxicab stands on any public highway within such city or town,—which was disapproved in the House of Representatives by a vote of 96 in the affirmative and 109 in the negative and in the Senate by a vote of 4 in the affirmative and 35 in the negative,—be approved?

To obtain a full expression of opinion, voters should vote on all three of the following questions:—

(1) If a voter desires to permit the sale in this city (or town) of any and all alcoholic beverages to be drunk on and off the premises where sold, he will vote “Yes” on all three questions.

(b) If he desires to permit the sale herein of wines and malt beverages only to be drunk on and off the premises where sold, he will vote “No” on question one, “Yes,” on question two and “No” on question three.

(c) If he desires to permit the sale herein of all alcoholic beverages but only in packages, so called, not to be drunk on the premises where sold, he will vote “No” on questions one and two and “Yes” on question three.

(d) If he desires to permit the sale herein of wines and malt beverages to be drunk on and off the premises where sold and in addition other alcoholic beverages but only in packages, so called, not to be drunk on the premises where sold, he will vote “No” on question one and “Yes” on questions two and three.

(e) If he desires to prohibit the sale herein of any and all alcoholic beverages whether to be drunk on or off the premises where sold, he will vote “No” on all three questions.

1. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages (whiskey, rum,

gin, malt beverages, wines and all other alcoholic beverages) ?

2. Shall licenses be granted in this city (or town) for the sale therein of wines and malt beverages (wines and beer, ale and all other malt beverages) ?

3. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages in packages, so called, not be drunk on the premises ?

1. Shall the pari-mutuel system of betting on licensed horse races be permitted in this county ?

2. Shall the pari-mutuel system of betting on licensed dog races be permitted in this county ?

All of the above to be voted for on one ballot in the manner prescribed by law.

The polls will be open from 6 a.m. to 8 p.m.

And you are directed to serve this warrant in the manner prescribed by vote of the town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon to the Town Clerk at the time and place of meeting as aforesaid.

Given under our hands this twenty-seventh day of October, A. D. 1938.

JAMES W. TURNER
W. IRVING LINCOLN
PHILIP S. BAILEY

Selectmen of Scituate

Plymouth, ss. October 31, 1938, Pursuant to the foregoing warrant, the inhabitants of the Town of Scituate, qualified to vote in Elections are hereby notified to meet at the time and place and for the purpose therein notified.

TOWN CLERK'S CONVENTION, NOVEMBER 18, 1938

At a meeting of the Town Clerks of the several towns comprising the Second Plymouth Representative District held at the Town Hall in Marshfield on Friday, November 18, 1938, at 12 o'clock Noon, it was ascertained by the returns from each Town that the number of votes cast for each candidate for Representative in the General Court on Tuesday, the eighth day of November, 1938, were as follows:

	George W. Duffey	Nathaniel Tilden	Blanks	Total
Scituate	560	1,542	83	2,185
Norwell	111	718	54	883
Kingston	331	756	100	1,187
Pembroke	114	581	28	723
Duxbury	153	901	55	1,109
Marshfield	140	1,081	40	1,261
	1,409	5,579	360	7,348

Nathaniel Tilden of Scituate having a majority of the votes returned was declared elected, and his certificate was made out in accordance therewith and signed by the Clerks present:

William M. Wade, Town Clerk of Scituate
Joseph F. Merritt, Town Clerk of Norwell
George W. Cushman, Town Clerk of Kingston

William A. Key, Town Clerk of Pembroke
Joseph T. C. Jones, Town Clerk of Duxbury
Shirley R. Crosse, Town Clerk of Marshfield

Attest: WILLIAM M. WADE,
Town Clerk.

SPECIAL TOWN MEETING, NOVEMBER 29, 1938

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs held at the Scituate High School Auditorium in said Scituate on Tuesday the 29th day of November, 1938, at 8 o'clock P. M.; said meeting was called to order by Moderator, Dennis H. Shea.

The warrant was read by Town Clerk, William M. Wade.

Tellers appointed by the Moderator and sworn to their duties by the Town Clerk were Annie M. S. Litchfield, Eugene H. Lane, C. Harry Driscoll, Ralph S. Ackerman, J. George Vollmer, Donald S. Pitkin.

Article 1

Will the Town raise and appropriate the sum of \$4,500.00 for Old Age Assistance, said sum to be taken from Surplus, or act thereon?

—Board of Public Welfare

Voted: \$4,500.00 to be taken from Surplus.

Article 2

Will the Town raise and appropriate the sum of \$5,000.00 for Public Welfare, said sum to be taken from Surplus, or act thereon?

—Board of Public Welfare

Voted: \$5,000.00 to be taken from Surplus.

Article 3

Will the Town raise and appropriate the sum of \$1200.00 for Soldiers' Aid, said sum to be taken from Surplus, or act thereon?

—Selectmen

Voted: \$1200.00 to be taken from Surplus.

Article 4

Will the Town raise and appropriate the sum of \$1500.00 for the purpose of providing for such Town obligations as may occur under W. P. A. Projects from the date of this meeting until the Annual Town Meeting of March 1939 and that said sum be taken from Surplus, or act thereon?

—Selectmen

Voted: That the sum of \$800.00 be appropriated from the Excess and Deficiency Account for the purpose of providing for the Town's share of the expenses of W. P. A. Projects for the remainder of the year; said sum to be administered by the Selectmen as part of the Unemployment Relief Fund.

Unanimous vote.

Article 5

Will the Town raise and appropriate the sum of \$350.00 to provide for the cost of supplies, services and expense incurred in carrying out the provisions of Chapter 440 of the Acts of 1938, which Act requires that the Board of Registrars shall canvass the Town to determine the eligibility of those claiming qualification to vote and to ascertain those subject to Military Duty, said canvass to be completed before March 1st, 1939 and that said sum of \$350.00 be taken from Surplus, or act thereon?

—Selectmen

Voted: \$350.00 to be taken from Surplus.

Article 6

Will the Town raise and appropriate the sum of \$75.00 for the purchase of necessary chairs, tables, etc. for use at the Town Hall, said sum to be taken from Surplus, or act thereon? —Selectmen

Voted: \$75.00 to be taken from Surplus.

Article 7

Will the Town appoint a Committee of Five to consist of two members of the School Committee, the Chairman of the Board of Selectmen, the Chairman of the Planning Board and one other to be appointed by the Moderator, said Committee to investigate and make recommendations relative to the taking or purchase of land for the purpose of erection of a Central Elementary School and to report its findings at the next Annual Town Meeting, or act thereon? —School Committee

Voted: That the Town appoint a Committee of Five to consist of two members of the School Committee, the Chairman of the Board of Selectmen, the Chairman of the Planning Board, and one other to be appointed by the Moderator, said committee to investigate and make recommendations relative to the taking or purchase of land for the purpose of erection of a Central Elementary School, said Committee to hold a public hearing upon finishing their investigation before reporting its finding at the next annual Town Meeting.

Unanimous vote.

Article 8

Will the Town vote to rescind its action taken under Article 18 of the Special Town Meeting held on June 22nd, 1938 whereby it voted to request the Selectmen to

hold its Annual Town Meeting of March, 1939, in the evening instead of the daytime? —John Lonergan et al.

Voted: To indefinitely postpone.

Article 9

To see if the Town will instruct the Selectmen to appoint a committee to study the advisability of building a playground at Scituate Harbor, said committee to report on best location available, also on certain Governmental funds to be expected, State or Federal. Committee to report at our Annual Town Meeting in March, 1939, or act thereon? —Joseph R. Dillon et al.

Voted: To indefinitely postpone.

The meeting adjourned at 8:25 P. M.

Attest: WILLIAM M. WADE,
Town Clerk.

Sept. 2			

Parents, be sure to record the birth of your child with given name in full.

READ THE LAW!

“Parents, within forty days after the birth of a child, and every householder, within forty days after a birth in his house, shall cause notice thereof to be given to the clerk of the town where such child is born.” General Laws, Chapter 46, Section 6.

SOME OF THE MANY REASONS WHY BIRTHS SHOULD BE RECORDED

To establish identity.

To prove nationality.

To prove legitimacy.

To show when the child has a right to enter school.

To show when the child has the right to seek employment under the child labor laws.

To establish the right of inheritance to property.

To establish liability to military duty, as well as exemption therefrom.

To establish the right to vote.

To qualify to hold title to, and to buy and sell real estate.

To prove the age at which the marriage contract may be entered into.

To establish the right to public office.

To make possible statistical studies of the health conditions.

Your co-operation to the end that all births may be properly recorded will be greatly appreciated.

Blanks for returns of births will be furnished upon application to parents, householders, physicians, and registered medical offices as provided in Chapter 46, Section 15, General Laws.

DEATHS REGISTERED IN SCITUATE IN THE YEAR 1938

Date	Name of Deceased	Age Y M D	Cause of Death	Names of Parents

Respectfully submitted,

WILLIAM M. WADE,

Town Clerk.

REPORT OF PARK COMMISSIONERS

Board of Selectmen,

Gentlemen:

The Park Department respectfully submits for your consideration, a resume of their work during the past year.

After carefully considering all of the work necessary for the proper operation of our department, we started to work on the various parks in the town, with a view to improve them as much as possible to the best of our ability.

The trees on the parks were badly damaged by the September gale—Especially in Hollet Island Park, where twenty-one trees were uprooted.

We are very thankful for the fine amount of co-operation we have received from the towns-people during the past year and hope this year will prove a prosperous one for all town departments.

Respectfully submitted,

ERNEST F. LITCHFIELD,

Chairman,

Park Commissioners.

REPORT OF BOARD OF ENGINEERS

To The Honorable Board of Selectmen:

In submitting our report for this past year, we desire, in addition to reporting on our routine work, to emphasize one major issue. This is the insurance problem. We have spent a great deal of time and effort on this subject. So that no one may have any misconception as to what this is all about, we will endeavor to outline the case.

How a fire department operates and what results it gets, determines, in a great measure what rate of insurance a citizen pays. In other words, if a town fire department functions poorly and the fire losses are great, then naturally the citizen would expect to pay a correspondingly higher rate of insurance, but if the fire department is functioning efficiently and the losses are low, then the citizen who supports that fire department should expect to pay a lower rate for his or her insurance.

The question then arises; Who determines whether you should pay a higher rate or a lower rate?

The answer is: The Insurance Group known as "Stock Companies." They have been the rate making group through a centralized agency. This group comes into your town and makes a survey. They observe what you have already done in providing for your fire protection and then they make recommendations to you for a betterment in your fire protection, which logically means a lesser risk for them. Such a survey was made in the Town of Scituate about four years ago.

Since that time, the people of this town have generously built up their fire department to conform sensibly

to the conditions and recommendations laid down in that survey made four years ago.

The fire department, which is probably more familiar with all phases of this question than any other group except the Selectmen, have acted as spokesmen for the town in demanding a reconsideration of our insurance rates. We believe that a degree of man-power, efficiency, equipment, water and all that goes to make up a good department has been provided by this town, and at this time a lowering of rates is in order before any other suggested improvements are approved, as additions, to our present set-up. The common sense view of this contention is borne out by the attitude shown by the mutual companies.

The mutual companies have been in our town on an investigation, and up to this time we have heard not one single representative of that group deny our claims for a lowering of our rates.

We see no sensible reason why the Stock Companies cannot place in the hands of the Selectmen the same assurance that they will grant a reduction of rates in line with the rates proffered by the mutual companies.

Towns that have admittedly arrived at a lesser degree of efficiency than Scituate already enjoy a better rating than we do.

We know that some time within the next ten years, we must replace some of our pumping engines if we are to maintain our present degree of efficiency and effectiveness. The average life of a pumping engine is about eighteen years. Ours have almost arrived at that age. We believe these can and should be replaced out of savings on our insurance. We believe we are entitled to these savings now. We recommend no replacement of any one of these pumpers at this time unless we are granted

lower rates of insurance. There appears to us no good reason for building up the department to a greater degree of efficiency unless corresponding benefits are granted by the insurance companies, who, it seems, have been reaping the major benefits of an efficient fire department in Scituate.

As an added measure of our good faith in building up the efficiency of our department, which contributes to the welfare of the insurance company, as well as our own, we might relate what this department has been doing this past year in the schooling of our men, as well as in the schooling of those in our neighboring towns of Hull, Hingham, Cohasset, Marshfield and Norwell.

Scituate has the only schooled permanent fire fighting force in this group of neighboring towns. All of our men hold diplomas from the Brockton Fire School. In addition, since last May we have qualified every one of our call men, thirty-one in number, for a diploma, which represents a degree of efficiency, under the regular drill master of the Brockton Fire Department.

We have accommodated twenty men from each of the above-mentioned five towns in our fire school, under the direction of the State Department of Education. One hundred and seventeen firemen in all have gone through ten weeks of schooling at our Brook Street Station. These 117 men will go into ten weeks more of intensive outdoor training beginning in April, 1939.

This all means in our good neighbor policy, which is in effect, that one uniform method of training has been used for all men included in this neighbor group. Should any emergency arise which demands more equipment and more men, then all towns can be working efficiently in a common cause. They help us in an emergency. We help them in an emergency.

The benefits which the insurance companies gain by this one item alone just about transcends any claim they might make that we haven't done our part. We contend that we have met sensibly the insurance requirements. The Board of Engineers believe that you and the town's people should know our position in this matter.

We cordially invite all town's people to our stations. We hope you will pay us a visit and learn more about your fire department, and we want to thank you for all the support you have given us. In addition we want to express our thanks for the help and assistance which all departments have generously given us.

D. ALLEN KILLEFFER,
MARK W. MURRILL,
WILLIAM E. SHUTTLEWORTH,
Board of Engineers.

REPORT OF
FOREST WARDEN

TO THE HONORABLE BOARD OF SELECTMEN

This year the Forest Department has had an unusual condition to meet in addition to its customary work. This condition resulted from the September hurricane. A very serious fire hazard was created by this storm.

Shortly after the hurricane, we made a survey of our town and then took our findings to the Government Forest Agency. They immediately recognized the seriousness of the situation, and in due time allocated funds to us to proceed with the clearing up of the effected areas.

We are employing about twenty-five or thirty men regularly in this clearing up work. We estimate that after three or four months, we will have cleared up quite a sizable area. In addition, our plans call for brushing out our old forest trails and the building of new trails.

This work is all being done without expense to the town, except for the purchase of tools and the use of the alarm truck.

We wish further to report that we were able to help Norwell in making their survey which led to their being included in this Government help. This is important, in that a sizable part of their damage was in the area adjoining our town and by helping them, we thereby helped remove a danger spot which might otherwise cause us trouble.

Our Spring burning is still ahead of us and to this we have been giving much thought. Weather permitting, we plan starting early in February on this work. As you see, a great deal of work lies ahead of this department, and it is our hope that we can make headway rapidly enough to eliminate in great part these serious hazards before the dry spell sets in.

We wish to thank your Board for the excellent co-operation it has given this department, and it is a real satisfaction to us to know that the Forest Department, with your help, has been able to give work to people in this town to the extent of thousands of dollars which in turn relieves the tax payer and your other town agencies from providing funds for their upkeep during these dull times.

We wish to thank all our town's people for their excellent co-operation in our work.

D. ALLEN KILLEFFER,
Forest Warden.

REPORT OF HIGHWAY DEPARTMENT

January 16, 1938

To the Citizens of the Town:

Following is the report of the various improvements and repairs under the supervision of the Highway Department made during the year ended December 31, 1938.

PARKING SPACES

The extensive parking area completed last Summer located in the rear of the business district at Scituate Harbor serves adequately the needs of automobile owners patronizing the shops and business places on Front Street. The ample hard surface of asphalt top together with the two safety islands was not only a vital necessity but has also added to the beauty of this section. Care has been taken in the planning so that it may be extended in the future if the need occurs. The Peggoty Beach parking space has been increased in size and will now accommodate two hundred cars. This has eliminated the traffic hazard previously caused by automobiles lining both sides of the highway adjacent to the beach.

NEW STREETS

Cedarwood Road and Fairview Avenue in Scituate Centre, accepted by the Town at the annual meeting in March have been shaped up and treated with asphalt and pea stone and now offer convenient approaches to the fast-growing "Cedarwood" development in this section. A drive has been constructed from First Parish Road to

the rear of the recently remodelled Brook Street fire station. This way is of gravel-asphalt construction and includes a half-round galvanized iron culvert over the historic Satuit Brook. Accepted streets in nineteen hundred and thirty-eight added about seven tenths of a mile of roadway to be constructed and maintained by the Town.

SIDEWALKS

Although a few sidewalks have been resurfaced with bituminous concrete during the past year which has benefited foot traffic greatly, there exists a need of new sidewalks throughout the Town. This department recommends an extended program of sidewalk construction during the coming year on dangerous streets used regularly by the walking public.

DRAINAGE

New drains have been installed on various streets using pipe of sizes eight to twelve inches depending upon the volume of water to be provided for. The following is a list of some of the new drains constructed in the past year: Damon Road, 1000 feet; Hatherly Road, 500 feet; Hazel Avenue, 250 feet; Maple Avenue, 115 feet; Front Street Parking Space, 1100 feet; Branch Street, 515 feet; Priscilla Avenue, 300 feet; Edgar Road, 200 feet; Marion Road, 200 feet; and Clapp Road, 500 feet. These drains relieve the surface and stagnant water conditions of heretofore undrained areas and also help preserve the surface of the roadway. Macadam gutters have been built on streets where possible and have been the inexpensive solution to many drainage problems.

REBUILDING

Many of the streets of the Town have had no work performed on them for years and the most economical

way to repair them is to have them torn up, regraded and resurfaced. This has been done to those streets which were in the worst condition and it is intended to continue this work during the coming year. Some of the streets recently rebuilt were Marshall and Priscilla Avenues in the Egypt Beach section, Marshfield Avenue in Humarock, and Hillside and Ann Vinal Roads in the Egypt section. Front Street, the most heavily-travelled street in Scituate was in very bad condition and a two inch layer of bituminous concrete was applied. This treatment was completed in a minimum length of time without obstructing traffic to any great extent and provided a durable, easy-riding surface at a very nominal cost.

RETREAD SURFACING

Each Spring a number of streets need a tar treatment to give them new life and stabilize them for the hard usage of summer traffic. The maintenance crews of the Scituate Highway Department have treated approximately ten and one-half miles of highway and have applied some twenty-five thousand gallons of tar to the road surfaces as a seasonal maintenance operation.

FEDERAL PROJECTS

Federal projects have been in constant operation throughout the year under the sponsorship of the Highway Department and many valuable projects have been completed on unimproved gravel roads which otherwise might not have been started for many years. Rebuilding of Ridge Hill Road which connects Greenfield Lane with Kent Street was completed in the early part of nineteen hundred and thirty-eight. Several bad corners were eliminated, the grades were changed and the slopes smoothed up and seeded. There now exists in the place

of what was previously an eyesore to the community, an evenly-surfaced roadway winding through a beautiful rustic setting. Upon the completion of the Ridge Hill Project, the men were transferred to Crescent Avenue on Second Cliff and had finished work on this project before the summer population had arrived. The completed street has opened up some very desirable space for new building construction. Approximately one mile of highway located on Grove Street commencing at Mungoe's Corner and running to the Norwell line has been widened and a surface treatment of pea stone and asphalt applied over all. Other Federal Aid Projects were completed during the year including the extension of Summit Avenue in the North Scituate Village section and the cutting off of a very bad curve on Clapp Road.

WINDSTORM

On the afternoon of September twenty-one, this section of the country experienced a severe tropical hurricane coming from the Southeast without warning and raging furiously for several hours accompanied by rain with high winds reaching a reported speed of one hundred miles an hour. Uprooted trees, broken branches, fallen telephone and electric poles and damaged buildings were left in the path of the storm. When the wind had subsided sufficiently, work was started in digging out. Traffic was difficult because of the debris and detours had to be made on many streets. Crews of men under the direction of the Highway Surveyor and Tree Warden were placed to work trimming up the fallen trees. The Highway Department's large, ten-ton Holt tractor was placed in action immediately and proved indispensable in hauling the massive trunks of fallen trees off the highway. Work was carried on throughout the

night and the dawn found all streets open for traffic. This storm will be long-remembered and it will be some time before the roadsides are restored to their former natural beauty.

SNOW REMOVAL AND ICE CONTROL

The Town roads are kept clear of snow by thirteen hired trucks mounted with blades and by two tractors of the caterpillar type equipped with front and side blades. The Town is divided into routes and each plow operator is responsible for his route. Each snow plow requires two men, one for driving and the other for operating the blade. A score of dump trucks and large crews of men eliminate the snow from the business sections of the Town, enabling shoppers to park their automobiles close to the curb so as not to obstruct traffic. Scituate has more than a hundred miles of streets, every mile of which is entirely cleared of snow after each storm, generally within about four hours so that travel can proceed in its normal way without interruption. In recent years the problem of ice control has become as important and difficult as snow removal. There are numerous intersections and several hills and approaches to railroad crossings to be taken care of simultaneously. Sand is procured at the Boston Sand & Gravel Company at a minimum cost. After being treated with calcium chloride which prevents it from freezing, it is applied quickly to the danger spots. This work must be done immediately the roads become slippery which necessitates working at all hours and in all kinds of weather.

CONCLUSION

Probably no money pays greater dividends to the whole community than the money expended on good roads. Prospective home-owners are attracted to those

localities offering the greatest benefits for their tax-dollar and the condition of the streets create a first impression which is often a deciding factor to the individual whether or not to make his permanent home in that community. The Highway Department has endeavored to keep the streets in the Town of Scituate at the highest possible standard at a minimum of expense to the taxpayer. Co-operation by other Town departments has been excellent and appreciation is expressed at this time to all citizens who have contributed in any way to the operation of this unit in Scituate's public service.

Respectfully submitted,

CHARLES M. WAGNER,
Highway Surveyor.

**REPORT OF
PEIRCE MEMORIAL LIBRARY**

The Trustees of the Peirce Memorial Library submit the following report for the year ending December, 1938, and express their thanks to the citizens of Scituate for assistance and co-operation.

Books in circulation in 1938	17,940
Books in circulation in 1937	14,256
	gain 3,684
Magazines in circulation in 1938	1,708
Magazines in circulation in 1937	1,409
	gain 299
Books borrowed from State or other libraries	68
Books purchased in 1938	453
Books given in 1938	71
Magazines purchased in 1938	24
Magazines given in 1938	6
Number of active card-holders, 1938	404
Number of active card-holders, 1937	300
	gain 104

During 1938 the work of recataloging the library has been continued and several interesting exhibits have been held to increase the interest of the public in the Library and its work.

The financial statement of the library, covers only the expenses paid from the money appropriated by the town. The trustees feel that it will be of interest to the citizens to know that this does not cover all the necessary expenses of maintaining the library.

Respectfully submitted,

KATHERINE ELLIS,

President.

REPORT OF ALLEN MEMORIAL LIBRARY

During the last year the Board of Directors has been increased in number. The idea of this increase was to promote a more general interest in the Library, and a knowledge of what it was accomplishing and hoped to accomplish.

Some repairs have been made during the last year, and it is hoped to put the building in first-class condition this year.

The Library is open three days each week, Tuesday, Thursday, and Saturday from 2-5, 7-8 P. M.

The circulation of books has increased this year over any previous year, this was in a large measure due to the summer visitors, who were gratified to be able to have at their disposal books covering so wide a range of subjects.

The Librarian was assisted by two N. Y. A. girls making possible the accomplishment of some needed work.

This report would not be complete without an expression of appreciation for the years of work done by Mrs. Amy Allen Frye, who on account of ill health has been obliged to retire.

There have been over two hundred books added this year, and it will be the object of the Directors to see that the high standard of the Library is maintained, and that books covering a wide range of subjects added from time to time.

Respectfully submitted,

T. B. ALEXANDER,
President.

REPORT OF SEALER OF WEIGHTS AND MEASURES

December 31, 1938

Board of Selectmen,
Scituate, Mass.

Gentlemen:

My report for the year 1938 is as follows: Adjustments on devices used by Tradesmen 117. Seals affixed on devices 613. Not-sealed devices 68 (Equipment located in Scituate, Mass., but not used). Devices unfit for use, and condemned, 22.

This year there were 558 inspections made as follows: Clinical thermometers 50; Oil jars 200; Bread and other foods 175; Peddler's scales 20; Ice Scales 6; Peddler's licenses 100; Transient Vendors 7.

I wish to again commend our Town Clerk, William M. Wade, for the splendid co-operation shown by him, to this department, during the year 1938. Through this department and the Town Clerks' office, the town realized about \$300 from Transient Vendors. Junk licenses issued, returned \$10. and Peddler's licenses returned \$110.00.

My account book shows a total of \$102.54 charged for sealing devices, and \$9.47 for adjustments made, grand total of \$112.01; Paid to Town Treasurer \$108.57, outstanding \$3.44 as of December 31, 1938.

I wish the towns-people to note the above figures. There is an amount collected for adjustments made on devices, and this is turned over to your Town Treasurer with Fees collected.

Respectfully submitted,

EUGENE H. LANE,
Sealer of Weights and Measures.
Scituate, Mass.

REPORT OF
BOARD OF REGISTRARS

Meetings for registration of voters in 1938:

February 15th at North Scituate

February 18th at Scituate Harbor

February 23rd at Town Hall

August 31st at Town Hall

October 19th at Town Hall

Five additional meetings were held for certification of names on Town and State nomination papers.

Registered voters in the Town of Scituate on December 31, 1938:

Males	1,402
Females	1,375
	2,777

There were 298 names added to the voting list in 1938 by means of registrations, while 142 names were dropped because of deaths and change of residence, resulting in a gain in registration of 156.

Respectfully submitted,

JOSEPH A. WARD,

J. EDWARD HARNEY,

BERTHA L. TURNER,

WILLIAM M. WADE,

Board of Registrars of Voters.

**REPORT OF
CLEAN-UP COMMITTEE**

We wish, at this time, to express our appreciation to all those with whom we have come in contact this year.

We divided the labor in all sections of the town to the best of our ability.

We also hope that the town will see fit to carry this work on this next year.

Respectfully submitted,

HAROLD L. BATES, Chairman,

LOUISE J. ROTHERY,

ALLEN D. CREELMAN,

Clean-up Committee.

REPORT OF SECRETARY OF NURSING SERVICE

The Scituate Public Health Nursing Service has held ten regular, and one special meeting with average attendance of fourteen.

During the past year, four of the Board Members have either resigned or moved away. The meeting day has been changed to the fourth Thursday of the month. The Ways and Means Committee has absorbed the Emergency Committee, and the Organization has become a corporate member of the Massachusetts Organization of Public Health Nursing.

The Association with the P. T. A. sponsored three free lectures by Mrs. Grafton T. Abbott on "Child Hygiene."

Mrs. W. F. Bates, President of the Hanover Nursing Association, was a speaker at one of the meetings describing the work of her Organization, and explaining Group Hospital Insurance for which they are agents.

Miss O'Donnell has been given a clerical assistant to be chosen at her discretion, and paid from twelve to fifteen dollars a week, in addition to the part-time nurse voted previously.

A State Conference held at the Quincy Hospital was attended by the Nurse. Subject—"State Recommendations for Care of Premature Infants." These recommendations will be included in our health program.

The clinics have been much the same as last year; pre-school, diphtheria prevention, dental, and Baby Clinics. Owing to the small group cared for in the tonsil and adenoid clinic at the Weymouth Hospital, it was not necessary for the Nursing Service to receive, as in previous years, financial aid from the Red Cross Chapter for this work.

Membership Drive was successfully carried out under the direction of Mrs. J. F. McJennett, netting two hundred and Fifty Dollars. (\$250)

The Christmas Seal Drive, with Mrs. Nels Sandberg in charge, was most successful.

Material to value of five dollars (\$5.00) was voted to Miss MacFarlane for use of a needy child in the Household Art Department.

It was voted to provide material for delivery sets.

Agnes O'Donnell, R. N., was made honorary member of the Association.

Several conferences and meetings have been attended by the president and nurse, and the members of the Board have helped in the work wherever possible.

It was voted that Mrs. Gillespie, President, meet with the Selectmen, Chairman of School Committee, Board of Health, and Public Welfare to see if the Town needs two nurses, and if so, to provide for same in Town Warrant at the 1939 March Meeting.

This meeting was held and the result was that the Board of Health would stand the expense of a nurse's assistant for January and February; and the Nursing Service would fall in line with plan to continue as now with the Town in charge.

376 notices and twelve letters have been sent out during the year.

A change in the By-Laws was made whereby the names of the Nominating Committee would be on the ballot each year.

Another year ends, and a new one begins with the Service well aware of the fact that there is more than ever to be accomplished, and active interest and earnest effort on the part of each member will carry us to our goal.

Respectfully submitted,

VERA L. WILDER, Sec.

Secretary of Nursing Service.

ANNUAL FINANCIAL STATEMENT OF THE SCITUATE PUBLIC HEALTH NURSING SERVICE

Treasurer.

**REPORT OF
BOARD OF HEALTH**

To the Citizens of Scituate:

The Board of Health has met all problems confronting it during the past year in the manner prescribed by law and in accordance with instructions of the State Departments with which it has had dealings. We realize that there are many more problems that might be dealt with, but inasmuch as they are not of a serious nature at present we feel that they may be deferred until such time as our town is in a financial position to meet these problems. Listed below are the various items under our jurisdiction.

COLLECTION OF GARBAGE

During the past year a new contract was let and you are now receiving more collections during the early summer and late fall than ever before and our appropriation for this service will not increase this year.

TOWN DUMP

The renovation of the Town Dump, the easy access to it, and the new regulations have been highly satisfactory improvements and have resulted in a greater use of the dump. No more do we find great accumulations of rubbish lying around the individual back yard; people now make regular trips to dispose of their rubbish, which is, in itself a great help to reduce the possible spread of disease.

CLINICS

We have during the past year sponsored three clinics; namely, School and Pre-School Dental Clinic, Well Baby Clinic, and the Anti-toxin Clinic.

School Clinics have been held under the direction of Dr. Parsons and Miss O'Donnell, the Health Nurse, and each have submitted reports covering their work and the satisfactory results attained warrants the continuance of this very necessary clinic.

Well Baby Clinic has been held under the direction of Health Nursing Service, the results have been highly favorable and the benefits received warrants the continuance and enlargement of the clinic.

Antitoxin Clinic was held this year and over eighty children were immunized against diphtheria. The State Department of Health recommends that this clinic be held again during 1939.

ANIMAL INSPECTIONS

Mr. Charles O. Chase was appointed by the Selectmen for the year 1938 and his report will be found under ANIMAL INSPECTOR'S REPORT.

MILK INSPECTOR

A separate report has been made by the Milk Inspector, which will be found under that item.

PLUMBING INSPECTOR

The work of the Plumbing Inspector was somewhat increased during the past year and his report shows in detail the work that he has done.

VITAL STATISTICS

These records were kept by the Town Clerk and your Board of Health, and under the Town Clerk's Report will be shown Marriages, Births and Deaths, also other Statistics covered under this item.

ROADSIDE CLEANING

We have been able to lessen this work to a great extent, but there are still people who seem to have no regard for the side streets and will dispose of all kinds of rubbish on our town streets. We again appeal to our townspeople and our visitors to report any violations that we may be able to bring to justice those who are responsible for these nuisances.

CARE OF BEACHES

During the summer months of 1938 we were called upon to remove from our beaches, dead fish, kelp and other waste material brought in by the tides, so that no health menace would occur. The past summer was no worse than any other and the expenditure was kept down to a minimum.

HUMAROCK BEACH FREE PARKING SPACE

The Board of Health again requests that some action be taken to install a Comfort Station at this point. The use of this parking space has greatly increased and we trust that the Board of Selectmen will take some action regarding this Parking Space and all others in our Town.

MUSQUASHICUT POND

We are greatly pleased to report that during the past summer very few complaints were entered regarding the fly nuisance that was so bad a few years past. In accordance with the State Departments of Health and Public

Works regulations we have carried on the recommendations set down by them and are meeting with favorable results.

We will again this year, as in the past, restock the pond, care for the proper drainage, regulate the depth of water and do such other work as it is necessary to abate the nuisance as far as possible. Our special article in the Town Warrant is much smaller than in former years and unless an emergency arises will be sufficient to care for this work during 1939.

During the past year your Board has investigated all complaints properly brought before them and in all cases satisfactory settlements were made.

During the past year we have had no serious epidemics and we are proud to report that our Town ranks high as a health resort.

All Inspectors have carried on their work in a very satisfactory manner and we wish to thank them for the success they have attained in their work.

The practice of notifying the School Doctor and Health Nurse of all cases reported to us was continued during the past year and we highly commend them for their careful checkup and follow-up work that has prevented the spread of diseases in this Town.

The cooperation of all Town Officers and heads of departments was freely given us and at this time we extend our most cordial thanks for the assistance they have rendered us when called upon.

Respectfully submitted,

WALTER L. ENOS, Chairman,
GEORGE H. OTIS,
WILLIAM P. GROVESTEN,
Board of Health.

REPORT OF THE PLUMBING INSPECTOR

Board of Health,
Town of Scituate, Mass.,
Gentlemen:

During the year 1938 there have been 67 plumbing permits issued and inspections made by your inspectors. Eighteen of these installations have been made in new buildings and forty-nine in others.

In my last annual report I called attention to the fact that our plumbing code was outmoded on account of the many new materials and methods of installation now in general use and considered good practice. This year the Legislature will consider a bill calling for the adoption of a State wide code setting up minimum requirements for plumbing within the Commonwealth. If this bill becomes a law it will do much to aid in bringing our present code up to date.

My feeling is that the Town should adopt some form of building laws which would cause a more careful scrutiny of all building operations and better promote the safety and health of our citizens.

The need for a more adequate means of sewage disposal is very urgent in some localities and the Town must prepare to meet this situation within a few years.

Respectfully submitted,

PHILIP S. BAILEY, Inspector.
WILLIAM H. HARNEY, Asso.

REPORT OF
INSPECTOR OF ANIMALS

January 16, 1939

To the Board of Health,
Scituate, Mass.

Gentlemen:

I wish to report inspection of 154 head of cattle, 69 goats, 38 swine, all in good condition. Have quarantined all dogs that have bitten people; no signs of rabies.

CHARLES O. CHASE,
Inspector of Animals.

REPORT OF MILK INSPECTOR

Board of Health,
Scituate, Mass.

Gentlemen:

During the past year I have issued forty-nine licenses for the sale of milk and five licenses for the sale of oleomargarine.

The local producers are cooperating in every way to produce a milk that passes a high laboratory test so that we have been spared an epidemic of milk borne disease.

This Town is very fortunate in having a State Inspector who thoroughly understands farms and the milk-ing industry so that his recommendations are fair and just to everyone concerned.

The producers in this Town realize that there must be cooperation with the Inspectors and the public to produce a milk of standard quality.

Respectfully yours,

GEORGE H. OTIS,

Milk Inspector.

**REPORT OF
INSPECTOR OF SLAUGHTERING**

To the Scituate Board of Health:

I have examined all slaughtered animals during the year 1938 and found the same in perfect condition.

Respectfully submitted,
E. L. MERRITT.

REPORT OF SCHOOL DENTIST

Board of Health and Superintendent of Schools:
Scituate, Massachusetts

Gentlemen:

I submit the following figures as a summary of the work accomplished in the Dental and Pre-school Dental Clinics from January 1938 to January 1939:

Fillings in Permanent Teeth	332
Fillings in Temporary Teeth	335
Permanent Teeth Extractions	3
Temporary Teeth Extractions	101
Teeth Treated	82
Cleansings	239
Completed Cases	224

That we are saving permanent teeth is shown by the fact that we only extracted three (3) permanent teeth in a year. We are also able to do more work in the 5th and 6th grades, where previously it was impossible to do more than the first three (3) grades.

Twenty-seven (27) children, entering the first grade, were completed in the Pre-school Clinic.

Respectfully submitted,

WILLIS B. PARSONS, D. M. D.

WBP:hc

School Dentist.

ANNUAL REPORT OF
BOARD OF PUBLIC WELFARE

To the Citizens of Scituate:

This department showed a considerable increase in expenditures for Public Welfare during 1938 compared to 1937, exceeding 1937 expenditures in every month except July, August, October and November. A decided curtailment of W. P. A. work in the winter months was one of the primary causes. With slightly better business conditions and a large increase in W. P. A. workers as compared to a year ago we expect a decided improvement in 1939, with a distinctly downward trend in Public Welfare. We expect Aid to Dependent Children to remain practically at its present level at the close of 1938. Old Age Assistance has been further liberalized by new laws during the past year which will cause a general upward tendency. Our Board has worked vigorously against the attempt of the Federal Government to drop from W. P. A. rolls people who have reached the age of 65. We are encouraged to find several cases practically totally supported by Public Welfare in the winter of 1938 now obtaining a living in private industry.

The Board has employed the services of an investigator for all three departments and has thoroughly investigated all cases before aid has been granted. We have kept in conformity with the federal and state laws at all times and the accounts of the Old Age Assistance and Aid to Dependent Children have been audited by the federal auditors during the past year.

The Board, being cognizant of the mounting costs of medical aid, hospitalization, and nursing care during the past year, has recommended in an article in the town warrant that the citizens at the Annual Town Meeting appoint a committee comprising one member from each of the following Boards; the Board of Public Welfare, School Committee, Board of Selectmen, Board of Health and the Chairman of the Advisory Board to make a comprehensive study of the costs of medical aid, hospitalization and nursing in all the town departments with the hope that the findings and recommendations of the committee may result in substantial savings and better coordination of departments.

The same policy of detailed checking of settlements has continued with resultant reimbursements. Our strict adherence to the federal laws and regulations has enabled us to receive large federal grants under Old Age Assistance and Aid to Dependent Children.

At this time the Board wishes to thank all other town departments, societies, and individuals, who have cooperated with us in the past year.

NATHANIEL TILDEN, Chairman,
HARRY T. HANDY, M. D.,
RALPH S. BROWN.

REPORT OF ENGINEERING DEPARTMENT

Honorable Board of Selectmen:

Gentlemen:

There is reason to believe that many of our Townspeople do not fully understand why we have an Engineering Department or how we spend the Engineering appropriation. For this reason, may we explain the function of the Engineering Department in the administration of Town affairs.

The Town Engineer receives no salary.

He is appointed annually by the Board of Selectmen to do, for all Town Departments, that work within the province of the civil engineer; in short, he is the land surveyor for the Town.

The Town Engineer and the assistants that he requires for both field and office work are paid—on an hourly basis—for their services, as rendered, from the Engineering appropriation; likewise, all supplies and expenses appurtenant to engineering work are so paid for.

The engineering services rendered by this Department during the year ended December 31, 1938 are listed below:

1. Attendance at hearings and viewing of conditions on the ground preparatory to making layouts of unaccepted streets offered for acceptance as Town ways.

2. Making of surveys and plans for layouts of said streets.

3. Setting of monuments in the ground to define the lines of streets accepted during 1938.

4. Making of surveys and plans for easements for drainage lines crossing private property.

5. Staking of street lines for various Town Departments, public utilities and individuals.

6. Reproducing of street lines and replacing of monuments where monuments were destroyed.

7. Establishing of definite street lines where none existed for Land Court surveys and other surveys, both public and private.

8. Locating of property lines of Town property other than streets i. e., cemeteries, gravel pits, parking spaces and playgrounds.

9. Attendance at hearings at the Massachusetts Department of Public Works relative to issues which involve the Town.

10. Appearance at the Massachusetts Land Court for protection of Town interests.

11. Making of miscellaneous plans for various Town Departments; making of plans of proposed W. P. A. Projects for W. P. A. Officials.

12. Engineering design and supervision of construction projects, both town and W. P. A., throughout the Town.

13. Estimating of costs of various proposed improvements throughout the Town.

14. Locating of details not shown on the Town Plan.

During the latter part of 1938, there remained work undone, for which, there was and is an imperative need but because the Engineering appropriation was exhausted, that work had to be postponed. The ultimate cost of delayed engineering work increases directly as the time continues and we believe the best policy to follow is that of "pay as we go."

Scituate is a town that is enjoying a natural growth which compels constant improvements to accommodate natural expansion. Experience proves that the best and most economical improvements are made by systematic, intelligent planning so it is natural to expect the Engineering Department to have appropriations in keeping with the increased demands made upon it by the Town that is so fortunate as to have a real need for a program of planned improvement.

Respectfully submitted,

DANIEL F. APPLETON,

Town Engineer.

REPORT OF
TOWN WPA AGENT

January 17, 1939

To the Board of Selectmen,
Town of Scituate.

Gentlemen:

Through the cooperation of the Federal Relief Agencies, the Town of Scituate has been able to undertake and complete a number of WPA Projects during the year 1938, which have done much toward reducing unemployment and welfare aid, as well as accomplishing results of permanent value to the Town.

At the beginning of the year there were 40 men on WPA pay rolls, this number decreasing to 10 in March, and then gradually increasing to 120, at which figure it stood at the close of the year. This number included 12 men working at the Hingham Ammunition Depot, and 15 men on a project at the First Cliff Coast Guard Station.

Under the National Youth Administration, a project at the Marshfield Game Farm employed 3 Scituate youths, and a Clerical project in Scituate employed 3 young ladies.

Even with this substantial number on WPA pay rolls, there has been at all times an excess of applicants, eligible for certification and assignment to WPA projects. Many men, unable to secure sufficient private em-

ANNUAL REPORT, TOWN OF SCITUATE, 1938

ployment for their family requirements, seek WPA employment because of the protection it affords them, particularly during the Fall and Winter months, when employment is most needed.

An appropriation of \$10,000 was voted at the Annual Town Meeting, March 7, 1938, to cover the Town's contributions for materials, etc., in connection with Federal Projects, etc., which sum was further increased by an appropriation of \$800, voted at a Special Town Meeting held November 29, 1938, making the Town's total appropriations for the year, \$10,800.00.

During this period, there was paid from Federal Funds to the residents of Scituate for labor performed on WPA Projects, the sum of	\$40,111.18
Other cost	1,824.00
	\$41,935.18

Further, the value of Surplus Commodities distributed in Scituate during this period amounted to \$4,690.40

Following is a list of WPA Projects in Scituate fully or partially completed in 1938:

Highway Construction:

Clapp Rd. (cut off curve)	Completed
Crescent Ave. (1000 l. f.)	Completed
Grove Street	Completed
Ridge Hill Road	Completed
Summit Avenue	Completed

Water Mains laid:

Jenkins School	Completed
Mann Lot Road	Operating

Miscellaneous:

Fire Hazard Reduction	Operating
Hurricane Tree Damage	Completed
Re-shingling Town Hall	Completed

ANNUAL REPORT, TOWN OF SCITUATE, 1938

Moth Elimination	Completed
Grading rear High School Annex	Completed
Recreational Area	Operating

Non-Manual:

Indexing and Classifying	
Old Town Records	Operating

While Highway Construction and Repairs, and the extension of Water Mains are considered among the most desirable of work projects, Scituate has been particularly fortunate during the year in having approved WPA Projects covering a wider range of labor employed than heretofore. One project,—the North Scituate Recreational Centre, on Henry Turner Bailey Road, employed a larger number of classified workmen than any other previously operated WPA project in Scituate, and this work is expected to continue well into the forthcoming year.

At the close of the year 1938, the following approved WPA Projects were in hand, and will be available for operation in 1939:

Description	WPA Funds	Sponsor's Contribution	Total
* Highways	\$50,308.87	\$23,824.93	\$74,133.80
† Recreational Area	23,532.10	7,336.00	30,868.10
Shade Tree Conservation	19,439.00	1,004.24	20,443.24
Gypsy Moth Eradication	4,400.00	1,400.00	5,800.00
Mosquito Control	2,618.00	507.00	3,125.00
‡ Water Mains	7,529.40	5,418.60	12,948.00
Fire Lanes	6,089.60	1,190.70	7,280.30
Fire Hazard Reduction	3,000.00	480.00	3,480.00
Town Clerk, non manual	3,300.00	343.60	3,643.60
Police Dept., non-manual	1,733.00	315.00	2,048.00
	\$121,949.97	\$41,820.07	\$163,770.04

- * 10% completed
- † 50% “
- ‡ 47% “

In conclusion, it is believed that the 1938 Projects have been advantageous to Scituate,—through the employment of many of its citizens, the purchase of materials and supplies for the projects, and the completion of public improvements which would have been beyond the resources of the Town at this time without the aid of the Federal Government.

Respectfully submitted,

HERBERT A. WHITING,
Town WPA Agent.

REPORT OF TOWN COUNSEL

FOR THE YEAR 1938

When our annual expenditures are approaching a million dollars, I note from the Annual Report of fifty year ago (1889) total expenditures of \$26,084.11. The gulf between these figures indicates the extent to which we have departed from our simple government of fifty years ago to meet the demands of today's civilization.

Below is an enumeration of some of the matters which have come to my attention as your counsel during the past year:

New laws; common victualler and alcoholic beverage licenses in relation to mandamus proceedings; residential and other requirements as to shellfish permits; Hanover flats hearing; low value and foreclosed land sales by town; petition for foreclosure of right of redemption in certain Lawson parcels; annual town meeting procedure and articles including controversy over reimbursement of contractor for losses incurred as a result of undertaking contract not completed by him on account of unforeseen difficulties; street layouts with State and County participation, including Gannett Road; Harbor dredging and appropriations with provision for indemnification of State; abandonment of certain parcels at Peggotty Beach taken by eminent domain; South River dredging proposals; by-laws for Zoning Board of Appeals; vaults for town records; legislative hearings; status of Central Street (Common) cemetery; doughnut vendors, amusements, annual and seasonal beverage licenses; taxes upon land taken by eminent domain subject

to Home Owners' Loan Corporation mortgage; civil service as to Water Department and Fire Chief; Powers of Board of Health and State Department of Health as to cesspools below high water mark; hearing before Appellate Tax Board upon assessment of cottage property; Supreme Court proceedings in so-called Zullas case in which the 1937-1938 Board of Selectmen was sustained in granting a victualler's license to Michael Zullas at Dreamwold Hall under our Zoning law adopted in 1936 and in which case the validity of the zoning law was successfully defended; Dreamwold liquor license hearing before Alcoholic Beverages Commission; Musquashcut Pond matters, including drainage, draining pond and flooding land of riparian owners; hydrant rentals and charges of Water Department for fire protection; historical booklets; elections; advice as to small claim action vs. special building committee; salaries; vacations; releases for street drainage and widenings; checking of titles to real estate where easements acquired by town; drafting of vote to sell real estate and recording with Registry of Deeds; consultations with Assessors and tax officials; Town seal; new garbage contract made by Board of Health; playground at North Scituate; rights and duties of Water Department and State Health Department; Board of Public Welfare rights and duties as to person committed to insane hospital; parking space licenses; creation and operation of new Zoning Board of Appeals; Small Claims action of property owner on account of cesspool erected to abate public nuisance; Special Town meeting June 22; legal details of purchase of property near Egypt station; 11th Avenue and Marion Road surface water; Scituate Harbor riparian owners; parking rules and regulations; water liens; Federal liability as mortgagee; Water Department right to shut off consumer's water; legal data for P. W. A. grant for sew-

erage project; controversy with Cohasset over Aid to Dependent Children case; hearing before Department of Public Welfare Appeal Board on Cohasset case; easement for drainage on Old Oaken Bucket Road; granting of variation by Zoning Board of Appeals after hearing; fire trails; pensions for dependents of police officers; appointment of police officers under civil service; Board of Public Welfare bill in equity to recover from an estate for aid furnished to a legatee now deceased; U. S. Coast-guard vs. McDonald and Town; right of town to entertain distinguished guests; reconsideration of Zoning by-law or of application for variance under new Act; Special Town Meeting November 29; provision for W. P. A. expenses remainder of year by appropriation and until annual meeting in 1939 by new State law.

The above summary of legal affairs mentions several Court actions and hearings in all of which your town officials have been successful in their contentions. In other matters, litigation has been avoided by the exercise of sound judgment on the part of your public servants. You have won your cases.

No doubt the average citizen glancing over this report now has a better realization of the extent to which legal counsel and service are necessary for the efficient conduct of the town's business.

My report for 1937 touched upon this situation briefly and is again called to your attention for further light upon the legal problems confronting a municipality like Scituate.

VERNON W. MARR,
Town Counsel.

REPORT OF THE PLANNING BOARD

During 1938 your Planning Board devoted considerable time to the study of Building Laws now in force in other towns, similar in size to Scituate. As a result of this work and after giving consideration to the particular requirements of Scituate, a Proposed Building Law was written and put in printed form for the convenient study of our citizens and after a public hearing will be placed in the Town Warrant for 1939.

It is the opinion of your Board that a Building Law is essential to Scituate and for the best interests of our citizens.

The Planning Board wishes to go on record as favoring study of additional supervised playground facilities for the children of Scituate.

The Planning Board has cooperated with the other Boards and officials of the town and have considered and given opinion on all matters brought before them.

The member of your Board appointed to serve with the Committee appointed by the town to look into the centralizing of the Elementary Schools has worked with the other members to prepare a report.

Respectfully submitted,

The Planning Board,

RALPH C. ACKERMAN,
STEPHEN C. WEBSTER,
HAMILTON W. WELCH,
RICHARD A. LEVANGIE,
ALEXANDER K. WILLIAMS.

W. IRVING LINCOLN,
PHILIP S. BAILEY,

Selectmen of Scituate.

REPORT OF TREE WARDEN

To the Citizens of Scituate:—

During this past year this Department has planted 157 trees, consisting of maple, elm and willow trees.

The hurricane in September 1938 left in its wake tree disaster previously unknown to our town, and we all realize that the damage to the trees and foliage we were so proud of can never be totally corrected. Many trees whose anchorage defied the hurricane blasts, as well as some of the trees it was possible to re-set, are doomed to early destruction unless adequate care and attention are given them soon. Trees in a weakened condition, the same as other organisms similarly affected, are subject to diseases which their healthy neighbors escape. It should be emphasized however that not all tree pests can be controlled by maintaining trees in healthy condition, and the fact that a tree is healthy in no way nullifies the need for constant attention to keep it that way.

The Dutch Elm disease has not yet entered our State, but is very advanced in Connecticut and New York, and every precaution is being taken to keep it out of Massachusetts. If any discoloration is noticed in elm trees, samples should be subjected to cultural studies in order to determine whether the trees are affected by the Dutch Elm disease, since the program at present in operation throughout the United States directs the prompt destruction of elms affected.

Insects which infest trees and shrubs most frequently require specific identification in order to prescribe methods of control. However, infested dead branches should be cut off and burned immediately upon discovery, as the prompt destruction of diseased dead branches is a very valuable and important step in controlling this type of forestry ruin.

Frequently programs for spraying trees as a protection for the foliage may be drawn up to provide a measure of control against both leaf-eating insects and leaf-infesting fungi, and it is important that such programs be followed through as consistently and thoroughly as possible. Preparations which are adapted for and commonly used in this work include Lead Arsenate and Bordeaux Mixture.

I wish to mention that the Federal Government has helped this Department considerably during the 1937 season. We received sufficient appropriations to scout the entire town for Gypsy and Brown Tail Moth, and at present with Federal assistance there are twelve men employed pruning shade trees on our streets. Also valuable aid has been rendered by W. P. A. grants for tree preservation and improvement.

Respectfully submitted,

WILLIAM F. FORD,
Tree Warden.

REPORT OF
POLICE DEPARTMENT

Honorable Board of Selectmen,
Scituate, Mass.
Gentlemen:

The report of the Police Department is herewith submitted for your approval.

This report is based on the activities of the Department from January 1, 1938 to December 31, 1938.

Arrests, 176.

Abandonment	1
Abortion	1
Accessory before Abortion	2
Accessory after Abortion	2
Assault and Battery	2
Assault upon Police Officer	2
Attempted Larceny	2
Bastardy	1
Drunkenness	78
Desertion	1
Disturbing the Peace	5
Insane	5
Indecent Exposure	1
Juvenile Delinquency	2
Larceny	11
Keeping and Exposing	1
Non-Support	4

Neglected Child	10
Suspicious Person	2
Violation of Probation	3

MOTOR VEHICLE VIOLATIONS

Allowing a person to operate who has no legal right to do so	1
Leaving the Scene after causing damage to property	1
Operating so as to Endanger	2
Operating after revocation of license	1
Operating under the Influence	13
Speed	19
Violation of traffic ordinance	3

SUMMARY OF DISPOSITIONS

Appeals to the Superior Court	3
Dismissed-motion of complainant	8
Defaulted	3
Found Not Guilty	6
Fines imposed	47
Held for the Grand Jury	3
Probation	8
Released—first offence—drunk	50
Sentenced to County and State Institutions	22
Suspended sentences—placed on probation	17
Turned over to other Police Dept's.	1
Placed on file	8
Amount of fines imposed	\$740.00
Amount reverting to the credit of the town	\$99.55

All fines imposed for violation of the motor vehicle laws reverts to the County-fines levied in the District Court and appealed, if paid, in the Superior Court are also credited to the County. This explains the difference

between the amount of fines imposed and the amount returned to the town treasury.

Complaints investigated by Police Officers	2868
Cottages inspected	2637
Fires Discovered by Police Officers	3
Fires covered by Police Officers	47
Notice of intended sale or transfer of motor vehicles	77
Motor Vehicle accidents investigated by Police Officers	43
Operators booked by Police Officers	210
Summons served for other police depts.	92
Windows not secure and lights left on in stores etc.	254
Unlocked buildings secured by police officers	179
Pistol permits issued	18

REMARKS AND COMMENTS

The demands upon this department for service increase from year to year. The parking space at the Harbor, this past year has required much extra police service, in order that the space provided for the parking of motor vehicles be utilized to the fullest extent. The peak of the number of cars using this space, on an occasion when an actual count was taken, totalled 416 vehicles. This count of course does not include cars parked on Front Street from the Pier to its junction with First Parish Road. The parking space at Peggoty Beach has added to our problems. This space restricted in its use to residents and taxpayers requires constant supervision in order that trespassing by those not privileged be discouraged. Officers are detailed three times each day to both the Jenkins and Hatherly Schools to regulate traffic and safe-guard the pupils of these schools. Scituate Harbor is policed practically 24 hours of every day, officers working in 9 hour shifts, the night man on the desk at the

station house filling in between the hours of 4:00 and 8:00 A. M. An officer on duty between North Scituate and the Corners is on duty between the hours of 12:00 Noon and 3:00 A. M. The cruising car is on the road practically 24 hours of every day. Equipped as it is with 2 way radio, communication can readily be had between the car and the station on any and all occasions. The station house itself is covered 24 hours of every day.

The above summary is but a brief outline of the routine work of the department. It does not include the many special services which we are called upon to render.

The investigation of complaints, inspection of cottages, ambulance service and numberless other details with which the department has to cope are all aside from the regular routine.

Humarock Beach has requested additional service during the summer season—This request is that an officer be on duty daily from 12:00 noon to midnight. Heretofore we have provided two officers on Sundays only. We believe in view of the revenue in taxes received from property owners at this resort that their request is justified and should be complied with in so far as practical to do so. The Sandhills Association has also indicated a desire for extended police service, particularly on Sundays and Holidays. This anticipated request we shall also be happy to comply with in so far as our resources will permit.

The department has been sadly handicapped by the loss of its two regular members the late Officers Alton H. Curtis and Edward W. Carson but we were fortunate in having experienced men to fill in the positions left vacant by the passing of those two esteemed members of the organization.

THE INSPECTION OF COTTAGES

The inspection of untenanted cottages and summer homes has continued as in years past. This service is appreciated by the property owners as is evidenced by letters of appreciation received at this office. A total of 2637 inspections were made in 1938.

POLICE SCHOOL OF INSTRUCTION

The sessions of this school in 1938 were the best attended since its inception in 1930. Several officers headed by the Capt. and Sergt. from the Metropolitan District Police were regular attendants. Many officers representing the Police Depts. of Cohasset, Hull, Hingham, Hanover and Rockland were in attendance at each session. We were encouraged in our efforts by the interest manifest by other town officers and many citizens by their attendance. We are deeply indebted to the school authorities for their continued courtesy in making available the study library at the high school for these sessions.

AMBULANCE SERVICE

This humanitarian service we believe is more and more appreciated as time goes on. The Department continues to receive letters of commendation from many persons who have had occasion to take advantage of this service. The cost of up-keep and maintenance is negligible considering the benefits derived from its use. This past year the total cost amounts to \$301.98; of this amount the Town Treasurer received credits totaling \$165.00. These credits were received from people using the ambulance who are not residents or taxpayers of the Town of Scituate. Patients have been conveyed to many of the hospitals of Greater Boston. The total mileage 4799 miles represents 146 trips made by the ambulance

in 1938. The number of hours of service given by police officers totals 364 hours or 40 working days at 9 hours per day. The ambulance itself is in good mechanical condition—the brake linings will require replacement in order to give greater assurance of safety. I recommend that the sum of \$300.00 be placed in your budget for the up-keep and maintenance of the ambulance for 1939.

In Memoriam

The grim reaper visited our midst and took from our rolls two regular members of the organization during the year 1938.

Patrolman Alton H. Curtis died on May 17, 1938 at the Carney Hospital, Boston, following a prolonged illness. His loss to his wife, the community and to the members of the police department is immeasurable. In point of service he held first rank by reason of seniority. He was the first man appointed to serve the town as a police officer, following the organization of the department in 1924.

Of a quiet disposition, un-demonstrative, yet conscientious to a high degree, he performed his work well and earned the respect of all with whom he came in contact.

On the holiday eve, Sunday, Sept. 4th, the entire community was shocked and saddened at the sudden tragic death of Patrolman Edward W. Carson. He had just made his last call from the police box at North Scituate Beach and was on his way to the station to report off duty. On Hatherly Road at the junction of Gannet observing a speeding car crossing the intersection against the

red light, he gave chase on his motor cycle. A motorist who had stopped for the light and had observed the whole proceeding, came upon the officer a short time later, lying in the roadway on a bend in the road. He breathed his last at the Cohasset Hospital at 7:32 p. m., having made the supreme sacrifice in the performance of his duty.

Officer Carson was appointed a regular member of this department in 1930. He was the youngest member of the department, 30 years of age at the time of his tragic passing. He was well known and respected in police circles throughout the State, keen of mind, interested in his work, likeable and extremely popular, he gave every promise of becoming an out-standing officer in his chosen work.

A devoted son, husband and father, his loss to his family, his department and the community is in-estimable.

The aims and purposes of this department are at all times to render service efficiently and courteously. To this end we must depend in a large measure upon the co-operation received from your Honorable Board, who represent the people of Scituate. We are deeply grateful to your Board for your tolerance and expressed desire to be helpful at all times.

Respectfully submitted,

MICHAEL E. STEWART,
Chief of Police.

REPORT OF
SCITUATE NURSING SERVICE

January 17, 1939

Selectmen, School Committeemen, Board of
Health Officers, Directors of the Scituate Pub-
lic Health Nursing Service.

The following facts are presented for my eleventh
annual report:

Number of Nursing Service Visits	360
Number of Free Nursing Visits	198
Number of Prenatal Visits	43
Number of Infant Welfare Visits	132
Number of Visits for Pre-school Children	115
Number of School Visits	162
Number of Home Visits for School Children	131
Number of Children taken home ill	16
Number of Welfare Visits	16
Number of Doctor's Office Visits with patients ...	15
Number of Clinic Visits (Local)	18
Number of Hospital Clinic Visits	95
Number of Follow-up Visits	222
Number of Conferences with Health Workers	143
Number of Public Health Meetings attended	21
Number of Unclassified Visits pertaining to Public Health Work	429

Total Number of Visits 2116

1. A Well Baby Conference was held in the High
School Annex the fourth Wednesday of each month. The
attendance has been excellent.

2. At the Summer Round-up sponsored by the School Department, two thirds of the entering class reported for examination.

3. During July and August the Board of Health sponsored a Dental Clinic for pre-school children. Twenty-seven (27) children had dental defects corrected and work completed.

4. Children in the mentally retarded group received a thorough check-up at the special clinic.

5. Children in the Tuberculosis Clinic group receiving follow-up care, x-rays and examinations, have shown splendid improvement.

6. The results of the Audiometer Test are somewhat disappointing. Fourteen (14) new cases having defective hearing.

7. As in previous years, the Nursing Service sponsored a clinic for the correction of nose and throat defects. This work was done in the South Weymouth Hospital. Only half the usual number of cases received treatment. Parental difference is suspected as the reason. After all, parents should realize their obligations to their children. Failure to do so may result in serious consequences to the child's health if defects are neglected. I refer, of course, to all other defects including those of the nose and throat.

8. At the clinic sponsored by the Board of Health, seventy-nine (79) children received treatment for prevention of Diphtheria; thirty-seven (37) were of pre-school age.

Since the Secretary of the Nursing Service will, no doubt, give a more detailed report in regard to the appointment of an assistant, I shall only mention the fact that although the Board had voted in December 1937 to

give the nurse a helper whenever needed, difficulty arose when it became apparent that no helper was available when actual need existed, and helpers galore were ready when the emergency had passed.

Assistance given over a period of ten (10) months, averaged one day per month. Finally, after going deeply into the possibilities of getting a full time nurse assistant, it was agreed by the members of the four branches of the Health Department that a full time, non-nurse assistant would be provided. It is too early to judge the results, but the pressure of work has been eased considerably. Miss Helen Chicko, who, by training and experience qualified; received the appointment. She has given inestimable volunteer service to the Health Department during the past six (6) years. Plan of work requires two days per week for school Dental Clinic work. Other days to performing duties such as assisting at clinics, making surgical dressings and supplies; keeping the physical card of each school child up to date, and various other clerical work and etc.

I wish to express my sincere gratitude to the outgoing president Mrs. M. B. Gillespie. Her sympathetic understanding of the problems confronting a nurse, has been a source of great comfort to me. It is good to know that she is not completely severing her ties with the Nursing Service, but will remain to give the group the fruits of her experiences in the work.

To the Board Members; Doctors; Town, Health, and School Officials; Teachers and Parents, I extend my appreciation for your cooperation which has added much to the pleasure in serving as your Public Health Nurse.

Respectfully submitted,

MARGARET J. O'DONNELL, R. N.

Public Health Nurse.

REPORT OF
COUNTY AID TO AGRICULTURE

THE PLYMOUTH COUNTY EXTENSION SERVICE
(Trustees County Aid to Agriculture)

This service is available to every community and family in each of the towns of the county. It brings to each of our towns the resources not only of the local organization, but of Massachusetts State College, especially of its extension service with its corps of specialists in phases of agriculture and home making.

The Extension Service looks to the towns for assistance in planning and carrying out the local program. In 1938, there were 560 men and women in the county giving this type of help. With their assistance, 5000 Plymouth County homes participated directly in the program, and many others indirectly. Sixteen hundred boys and girls from 10 to 21 years old enrolled in 4-H clubs, 1300 farms were definitely influenced by the agricultural extension work, 1094 were enrolled in home demonstration groups, and many others received help through home and farm visits, letters, telephone and office calls, and other means.

Farmers and others interested in farm projects have participated chiefly in the following programs: dairy, poultry, fruit, market garden, farm management, cranberry culture.

Homemakers have participated in various programs in nutrition, clothing, food preservation, home grounds improvement, furniture renovation, kitchen improvement, child development, and recreation.

4-H clubs include poultry, dairy, garden, conservation, handicraft, food, canning, clothing, home furnishing, and other agricultural or homemaking subjects.

Scituate's chief agricultural interest has been in the market garden, poultry, and fruit programs. Farmers have also participated in dairy and cranberry meetings.

Homemakers have enrolled in clothing and recreation groups and have participated in the home grounds improvement program. Boys and girls were enrolled in the 4-H garden project.

REPORT OF WATER COMMISSIONERS

FOR THE YEAR 1938

Completing the erection of a standpipe in the latter part of June marked the achievement of a major objective of the Water Commissioners, from the time the water system was taken over by the Town. The capacity of the standpipe is 1,250,000 gallons and furnishes the very much needed additional storage. The new standpipe and the old standpipe now provide a total storage of 1,500,000 gallons.

The hurricane of September 21, 1938, proved very definitely the value of this additional storage, and if it had not been available, it would have become necessary to pump filtered water from the Old Oaken Bucket Pond. With this storage, however, it was possible to carry the town, at that time of the year, through the period, about 28 hours, when electric power was not available, without serious loss of head. The condition of the power lines was so indefinite, however, that the diesel motor was put in operation and preparations made to pump from the Greenbush Station.

Necessary maintenance and extension work was carried on during the summer, but because the Commissioners realize that there is a serious unemployment situation which becomes definitely acute in November and December, the greater part of the extension work was carried on in the latter part of the year.

This attempt on the part of the Commissioners to lessen the burden of unemployment has been very satisfactory and should be continued. Thus the money appropriated for the Water Department, for labor, is earned and received by the men at a time when other activities in the town are discontinued for the winter months.

Once more the water rates have been lowered by the Commissioners, and in 1939 the initial charge will be \$9.00 which is a reduction of one half the initial rate \$18.00 in 1931 when the system was taken over by the Town. We also beg to call your attention to the statistics in the superintendent's report that indicate the reduction in pumping costs from \$102.46 per million gallons in 1930, to \$44.34 per million gallons in 1938.

WILSON S. BROWN,
WILLIAMS B. JAMES,
STEPHEN C. WEBSTER.

**REPORT OF
WATER COMMISSIONERS
FOR THE YEAR ENDING DECEMBER 31, 1938**

Board of Water Commissioners,
Scituate, Mass.

Gentlemen:

Herewith I beg to submit the seventh annual report of the Scituate Water Dept., containing a chronicle of the work completed during the year 1938, and recommendations for the consideration of the Commissioners.

Outstanding among the major activities of the Scituate Water Dept., in 1938 was the erection of a welded steel standpipe. Proposals having been sent out in Dec. 1937, the bids were opened and accepted on January 12, 1938. The contract for furnishing and erecting the steel was awarded to the Pittsburgh Des Moines Steel Co., of Pittsburgh, Pa., the concrete foundation having been cast in December 1937. The fabrication and erection of the steel was carried on expeditiously by the contractor and on April 30, water was turned into the standpipe to test the bottom, and on May 7, 1938, the standpipe was full, and the test complete. The new main as well as the standpipe had been thoroughly chlorinated during the test. The standpipe was then emptied, the water being wasted in a nearby gravel bank, and the work of painting started. The standpipe was sand blasted inside and out, and three coats of paint (two prime coats and a finish coat) were applied, the inside finish coat being black and the outside gray. The paint was allowed to dry for a week before the water was turned in. The standpipe was again

chlorinated, filled, and emptied. On June 23, the standpipe was full of water and in service.

The wisdom of having an additional standpipe of this size in the system was very definitely established by the hurricane on Sept. 21, 1938. The storm put the electric power lines out of service for twenty-eight hours and there was, at the end of that time, a safe supply in the standpipes so that it was not necessary to use filtered water from the Old Oaken Bucket Pond.

Labor, for the W. P. A. project to lay mains and set three hydrants at the Jenkins School, became available the latter part of March, and this work was completed in about four weeks, thus providing hydrant service for the school building.

In conjunction with the W. P. A. work, the Water Dept., replaced old small or shallow lines on Ridge Hill and Crescent Ave., and placed hydrants for fire protection in these sections.

During the early part of the year a main was laid on Cedarwood Road to furnish water for domestic and fire service to a new development of several houses.

Extensions were made through the year, as shown in the accompanying tables, for domestic service and fire protection, and also to complete part of a grid.

Part of the work was done in November and December, particularly to take care of unemployed labor, and about sixty men carried on the payroll at a time when there was little, if any, other employment.

More of the many shallow lines and services in Humarock were eliminated by the installation of mains in the section south of Marshfield Avenue along the beach front. This work should be continued until the entire

grid is complete as many property owners are staying at the beach until freezing weather comes, and in some cases the owners are becoming permanent residents.

The hurricane on Sept. 21, 1938, demonstrated very definitely the desirability of an independent standby unit to operate one or more sets of pumps in case of emergency. The present diesel unit driving a generator by belt, will furnish power for one unit, and this, together with the water storage we now have, would carry over a short period. I would recommend, however, the installation of a generator with double the capacity of the present one, which could be operated more economically with the diesel motor we now have, and which would furnish sufficient power to operate at least two units in Webster Meadow, and furnish lights and power at the Old Oaken Bucket Plant.

The greater part of the water being used in the Town is obtained from Webster Meadow and has increased in hardness. While this condition is not serious, it can be remedied easily by the installation of a Zeolite water softening plant. Soft water would not only save a considerable part of the expense for soap, but would also add greatly to the life of the washed clothes and the comfort of the consumer.

I believe this matter should receive careful consideration by the Commissioners.

There are as yet, many shallow and small lines that must be replaced by mains of not less than six inches diameter and this work should be continued as rapidly as feasible.

The water main on Jericho Road from Beaver Dam Road to Turner Avenue, is entirely inadequate for fire

service, and should be replaced with a main of not less than ten inches diameter.

On Front Street, which is the principal business section of the town, there exists a condition that should be remedied in the very near future. There are no valves in this main between Beaver Dam Road and Brook Street, and if any trouble develops, it is necessary to shut off the entire business section to make repairs, and of course, the hydrants are temporarily out of use, in addition to the inconvenience of no available water in the buildings. I would recommend the installation of at least two valves in this section.

Signed:

WILLIAM J. LUMBERT,

Supt.

GENERAL STATISTICS

Population by census of 1935—3,846.

Construction of system started—1893.

Now owned by the Town of Scituate.

Valuation, December 31, 1938—\$926,235.36.

Sources of Supply. Ground water from wells.

Water is supplied to the system through pumps as shown.

PUMPING STATISTICS

1. Smith Vail Triplex pump electrically driven by 10 H. P. Century Motor.
2. Fairbanks Morse Turbine pump driven by 30 H. P. Fairbanks Morse electric motor.
3. Fairbanks Morse Duplex pump driven by 15 H. P. Howell Motor.

4. Dean Hill centrifugal pump driven by DeLaVergne 130 H. P. Diesel engine.
5. Smith Vail Triplex pump driven by DeLaVergne 35 H. P. diesel engine.
6. Byron Jackson centrifugal pump electrically driven by 40 H. P. G. E. Motor.
7. Byron Jackson centrifugal pump electrically driven by 75 H. P. G. E. Motor.
8. Sterling deep well pump electrically driven by 10 H. P. U. S. Motor with Morris centrifugal booster pump driven by 10 H. P. G. E. Motor.
9. Sterling deep well pump electrically driven by 10 H. P. G. E. Motor with Morris centrifugal booster pump driven by 7½ H. P. G. E. Motor.
10. Peerless deep well pump electrically driven by 15 H. P. G. E. Motor with Morris centrifugal booster pump driven by 7½ H. P. G. E. Motor.
11. Fairbanks Morse deep well pump driven by 15 H. P. Fairbanks Morse Motor.
12. Fairbanks Morse Turbine driven by 3 H. P. F. M. Electric motor.
13. Fairbanks Morse turbine driven by 3 H. P. F. M. electric motor.
14. Gardner Denver centrifugal driven by 20 H. P. G. E. Motor.

All pumping is done by Diesel engines or electric motors.

**REPORT OF
TOWN FOREST COMMITTEE**

December 31, 1938

To the Citizens of Scituate:

The appropriation this year was \$500. and it was used to good advantage.

The Hurricane of September 21 did considerable damage to the Pinson Hill plot. About seventy-five trees were blown over or uprooted. The wood has been cleared and distributed to orders given from the Welfare Department.

Again a general invitation to visit both plots, one on Mann Lot and the other on Pinson Hill, is extended by the committee.

Respectfully submitted,

WILLIAM F. FORD,
EMMA P. LITCHFIELD,
MARY E. CRESSY.

REPORT OF
TOWN ACCOUNTANT

To the Honorable Board of Selectmen:

Gentlemen:

In compliance with the provisions of Chapter 44 of the General Laws, I herewith submit the following report of the Accounting Department for the year ending December 31, 1938.

I have also included a detailed statement of disbursements showing amounts paid and the persons to whom payments were made, as requested by vote at the annual meeting held March 7, 1927.

Bertha A. Davenport,
Town Accountant.

SCHOOL CALENDAR — 1939

Winter Term—January 3 to February 17.

One Week Vacation.

February 27 to April 14.

One Week Vacation.

Spring Term—April 24 to June 20*.

Holiday—May 30.

Summer Vacation.

Fall Term—September 6 to December 22.

Holidays—October 12, November 30, December 1.

*This date is tentative. The statutes require high schools to have one hundred eighty sessions per year.

“NO SCHOOL” SIGNAL

The “No School” signal is 3-1-3, and will be sounded from the fire stations at North Scituate, Scituate Harbor and Greenbush at 7:45 a. m. and will apply only to the first eight grades. It is, however, the policy of the Committee to hold regular sessions whenever it is practicable to maintain transportation service.

COMMITTEE MEETINGS

The regular meetings of the Committee are held at the office of the Superintendent, Old High School Building, on the second Wednesday of each month, September to June inclusive.

Appointments with the Superintendent may be made upon request.

ANNUAL REPORT, TOWN OF SCITUATE, 1938

The age of admission to Grade One of the Hatherly and Jenkins Schools is five years and four months on the day of the opening of school in September.

A vaccination certificate must be presented to the school when the pupil enters for the first time.

A birth certificate must be presented by those whose births were recorded outside of Scituate.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Scituate:

The Scituate School Committee is pleased to present the following report compiled by the Superintendent of Schools. Accounts of what has been accomplished as well as a statement of future needs have been discussed.

The 1939 school budget—\$90,565.—is somewhat larger than last year, in order to maintain and improve what has been developed.

A bronze tablet is being placed in the Jenkins School by Mrs. Amy Dalby as a memorial to her sister, Miss E. Gertrude Gardner, who had taught in Scituate forty-seven years and was beloved by all who knew her.

In April, Mr. Wingate was re-elected as Superintendent of Union No. 1—the towns of Scituate and Marshfield—for the regular three-year period. His tact and sympathy are well known, and the Committee values his services highly.

The generous support of the public is sincerely appreciated.

Respectfully submitted,

MARION C. ALEXANDER,
RALPH S. BROWN,
PETER W. SHARP,
School Committee.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Scituate:

I take pleasure in submitting my thirteenth annual report for your consideration.

CHANGES IN OUR TEACHING STAFF

Three teacher resignations were received at the end of the last school year. Miss Adelaide Colburn, a member of the High School faculty for the past four years, accepted a position in the Melrose High School. The vacancy thus created was filled by the appointment of Miss Eleanor Gile, a graduate of Bates College, 1929, and a student of advanced courses in English and Education at that institution. Miss Gile has been the teacher of English at the York, Maine, High School for the past seven years.

The resignation of Miss Helen Knox from her position as second grade teacher at the Hatherly School was received in June. This vacancy was filled by the transfer of Miss Doris Crocker from grade five of the same school. The fifth grade position, thus made vacant, was filled by the appointment of Miss F. Thelma Annis of Chelmsford, Massachusetts, a graduate of Lowell Teachers' College and with one year's experience at Duxbury, Massachusetts.

Miss Lois G. Cushing, a graduate of The Wheelock School, who was an assistant teacher in the first grade at the Hatherly School last year, was promoted to the position of regular teacher in this grade and Miss Carol Vollmer, a graduate last June of the Bridgewater Teachers' College, was appointed as her assistant.

The position of Supervisor of Music, made vacant by the retirement of Miss Jeanne E. Bradford, was filled by the appointment of Philip W. L. Cox, Jr., of Maplewood, New Jersey. Mr. Cox is a graduate of the Music Education course at the University of Michigan. He has had six years' experience as instructor of vocal and instrumental music in the public schools of Scarsdale and Albany, New York, and of Madison, New Jersey.

The Special Class that was started at the Jenkins School towards the end of the last school year is being continued this year under the direction of Mrs. Rose M. Trefry. About ten pupils are enrolled, five of them from the Hatherly School district. The class is making good progress and seems to be appreciated by the parents of the children.

UPKEEP OF BUILDINGS AND GROUNDS

Among the major repairs undertaken this year was the remodeling of the boys' toilet room at the Hatherly School. Six new porcelain urinals were installed as well as two white enamel sinks. In connection with this the drainage line to the cesspool was lowered. At the Jenkins School two new celotex ceilings were placed over the badly-cracked plastered ceilings in the first and third grade rooms. At the High School, the interiors of the classrooms in the east wing of the building were painted; some of the desk tops were refinished; the ceiling in the boys' toilet room was replaced; and a large ventilating fan was installed in the outside wall of the boiler room. An oil heater was placed in the Household Arts building.

Equipment purchased during the year included twelve kindergarten and twelve visitors' chairs at the Hatherly School. A typewriter desk was placed in the Principal's office at the High School, and a large safe—

for the adequate protection of records—was also installed there. The small electric refrigerator in the cafeteria was replaced by a much larger one, and a new jig saw machine was added to the Practical Arts equipment. A Balopticon projector was purchased for the use of various high school groups, and a bass viol was added to the list of school-owned instruments in the music department. A Standard duplicating machine was placed in the Superintendent's office, and a small hand loom was added to the equipment of the Household Arts Department.

The shades on all south windows of the older section of the High School building had to be replaced, and heavy black shades—to aid in the showing of films and stereopticon slides—were placed in the laboratory and in the windows at the rear of the auditorium.

The routine work on the tennis courts and other portions of the Community Center grounds was carried on during the year. The metal fence surrounding the courts has begun to rust badly and needs to be refinished. A beginning has already been made on this work and it should be completed in 1939.

The rooms in the central part of the High School building, as well as the walls and ceiling of the auditorium should be repainted in the near future. The interior walls and ceilings of the Jenkins School also need refinishing. The exterior of the Household Arts building should soon be painted.

SCHOOL ENROLLMENT—TEN YEAR PERIOD

OCTOBER 1

	Elementary Grades I-VI	Junior High Grades VII-VIII	Senior High Grades IX-XII	Total
1929	369	88	135	592
1930	398	77	144	619
1931	421	73	162	656
1932	436	107	165	708
1933	443	131	173	747
1934	440	141	192	773
1935	400	135	206	741
1936	412	134	222	768
1937	388	134	224	746
1938	409	123	234	766

Our enrollment on October 1, 1938 was 766, twenty more than on the same date of 1937. While there was a decrease of eleven pupils in Grades VII and VIII, there was an increase of twenty-one in the elementary grades and of ten in the Senior High School. When the new High School building was first occupied in 1930, the combined Junior-Senior enrollment was 221. Last October this had increased to 357. Because of the need of enlarging the quarters of the Commercial Department, it was necessary—at the beginning of the last school year—to sacrifice one of our regular classrooms. To secure another room for recitation purposes, the music room at considerable inconvenience to that department was made into a regular class and recitation room. At the present time we have but five general-purpose classrooms available for the pupils of the Senior High School. One of the smaller of these rooms could profitably be used for other purposes. When federal funds are again

available—thus reducing the cost to the town substantially—it would seem proper to consider building an addition to the east wing of the High School. Preliminary plans for this addition have been drawn up and are available for consideration at any time.

SCHOOL FINANCES

The school budget for the year 1938 amounted to \$88,650. The Dog Fund—amounting to \$974.04—was given to the use of the schools by the vote of the Annual Town Meeting of 1938. In addition Federal Funds, as an aid to our Household Arts classes, were made available for school expenditures to the amount of \$250.91. The total receipts for the School Department were therefore \$89,874.95, and the expenditures were \$89,778.03. If to this we add the amount which was spent on the Community Center grounds—\$1,475.75—the total amount expended under the direction of the School Department in 1938 was \$91,253.78.

Below is a table of comparative school expenditures for the period of the last five years, and a table of School Department credits that are available for general town use but not for school purposes.

SCHOOL EXPENDITURES FOR FIVE YEAR PERIOD

	1934	1935	1936	1937	1938
General Expenses					
School Committee	\$197.13	\$234.25	\$218.50	\$198.30	\$220.40

Total	\$79,721.85	\$80,764.87	\$83,606.22	\$88,173.41	\$91,253.78

*Since 1935 the insurance of all Town property has been placed in the hands of the Selectmen.

SCHOOL DEPARTMENT CREDITS

(Not available for use of School Department)

	1934	1935	1936	1937	1938
From State Funds:					
On Employment of Teachers	\$5,582.00	\$5,633.66	\$5,683.66	\$5,818.94	\$6,257.23
Maintenance of Household Arts					
Classes	933.40	854.49	1,016.55	1,087.29	1,152.01
Trade School Tuition	453.02	17.50	142.19	149.62	96.44
Tuition of State Wards	355.98	288.61	332.67	503.54	554.84
From City of Boston—Tuition	393.75	392.00	570.27	577.18	653.43
Money Collected by Department	291.75	236.25	167.16	151.61	160.24
Total	\$8,009.90	\$7,422.51	\$7,912.50	\$8,288.18	\$8,874.19

It will be noted from the above that in the period of the last five years, school expenditures have increased over \$10,000, with little change in total enrollment. It will be further noted that this increase is almost entirely under the heading of Expenses of Instruction, which is made up largely of teachers' salaries. A part of the total increase from 1934—1938 inclusive resulted from the restoration of salaries which were reduced ten per cent at the beginning of 1933. Another large item in the increase is the employment of two additional teachers in the High School, due to the rapid pupil growth in Grades IX-XII. The decrease in the elementary and junior high enrollment has not been sufficiently large to dispense with the services of any teachers in those grades. A third reason for the increased expenditures is the establishment last year of the Special Class which was required by law, and which resulted in the employment of an additional teacher.

VOCATIONAL SCHOOL OPPORTUNITIES

Every year one or more Scituate pupils have been enrolled in the vocational schools at Boston or Quincy. A state-aided vocational school is also located at Weymouth. Many times it has been difficult, because the schools were filled to capacity, for pupils from outside towns to be accepted as students in particular courses. Because of the expense of equipping and maintaining vocational schools, even the larger towns cannot be expected to incorporate them as a part of their own school systems. Much interest is prevalent at the present time in the value—to many of our young people—of vocational training, and this interest throughout this section of Plymouth County has stimulated action which is likely to result in the near future in the establishment of a vocational school at Plymouth to serve the needs of all near-

by towns. The cost of tuition is paid by the town in which the pupil resides, but reimbursement of one-half the amount paid is made by the State. A bill now before the State Legislature, if passed, would make it permissive for towns to pay transportation costs to vocational schools.

At the beginning of this report I made mention of the retirement from school duties of two of our teachers. Both had given to the Scituate schools long terms of faithful service. Miss Knox resigned to be married and will continue to reside in Scituate. Miss Bradford retired from public school teaching because she had reached the age of retirement, and she will continue to live in her Scituate home. We miss them in our school life, but we know they are engaged in worth-while activities, and we wish them all happiness.

Your attention is called to the various individual reports that form a part of the School Report. The usual statistical tables and the Financial Statement for the year 1938 are included.

Respectfully submitted,

HAROLD C. WINGATE,

Superintendent of Schools.

REPORT OF HIGH SCHOOL PRINCIPAL

Mr. Harold C. Wingate
Superintendent of Schools
Scituate, Massachusetts

Dear Sir:

I submit herewith my fourth annual report as principal of the Scituate High School.

A shortage of rooms in our building continues to handicap our school program to a considerable extent.

Several classes are larger than best educational practices would approve but a breaking up of these groups is impossible, due to insufficient room space. The fact that nineteen pupils from out-of-town schools were enrolled in the school this September is indicative of the trend in population growth in Scituate.

The class formed one year ago in the senior high grades to improve reading ability, proved to be so helpful that two groups were formed in these grades this fall. A seventh grade group and an eighth grade group have also been started and the results are already noticeable. These practical remedial measures are aiding pupils of bad reading habits and those retarded because of physical weaknesses.

Our records show that eleven members of the graduating class of 1938 are in institutions of collegiate grade. Two of these pupils won scholarships in the schools they are attending, winning the awards in competition with graduates of other high schools and preparatory schools of New England. At the present time, we have graduates in the following colleges: Bates, Boston University, Bowdoin, Duke, Georgia Tech, Massachusetts State, Massachusetts School of Art, Northeastern, Rhode Island State, Smith, Tufts, and University of Wisconsin. All of these students entered College directly from Scituate High School.

Each pupil in the seventh and eighth grades is being given two periods of art work each week this year instead of the one period that former schedules provided. This means more time for handwork which is so much needed by pupils of that age group, and it is hoped that it will act as a stimulus for larger groups to elect art in the higher grades.

Our Household Arts Department is honored this

year, having been chosen by the Massachusetts Department of Education as one of four one-teacher vocational departments in this state where student teachers from the Framingham Teachers College will be placed for observing and practice teaching. Previously each girl spent eight weeks in a city school; now she will spend six weeks in the city, and two weeks in a smaller school. This will give her the opportunity to see how each functions.

Through the cooperation of local business offices, ten seniors in our commercial course were given two weeks' practical experience in May. The employers were requested to give the school constructive criticism which has been helpful to the commercial department. The project was so successful that we hope it may become a regular part of the business training.

Every year increases the demands upon the school for special observances and for the support of many objects not directly connected with the school system. The school is asked in increasing degree to foster essay contests and other competitions. These requests come from individuals and organizations whose aims we respect and with whose efforts we are in sympathy, but adequately to satisfy all the demands means that again and again the routine of the school must be interrupted and time taken from regular work.

Our teams in competitive sports have conducted themselves in a sportsmanlike manner and have had very successful seasons. The undefeated football team was given a banquet, the seniors given sweaters and other members of the squad given gold footballs, by a group of interested citizens of our town. Their enthusiasm and generosity are deeply appreciated.

During the year the school has received three books from the Scituate Parent Teacher Association as prizes

in the public speaking competition, two silver medals from the Scituate Post, No. 144, The American Legion, as prizes in the essay contest sponsored by that organization for Armistice Day, and continued to receive the Atlantic Monthly from Miss Emma Wood. We appreciate these gifts.

In conclusion, I am happy to express my gratitude for the splendid cooperation from all connected with the schools with whom I come in contact.

Respectfully submitted,

FREDERICK A. CALKIN,

Principal.

FOREIGN LANGUAGE—AN AID IN DEVELOPING FRIENDLY FOREIGN RELATIONS

Esther M. Harrington

Teacher of Languages, High School

In times like these when one views the strained relations existing among European and Asiatic peoples, a person who is interested in education is deeply concerned about what the school can do to develop a friendly and tolerant attitude among nations.

One of the main objectives of secondary education is to prepare boys and girls for worthy citizenship in the world in which they live. The foreign language teacher feels that her subject has some influence in accomplishing this aim.

Language is directly connected with life. It is the tool a student uses to get the meaning of what he is reading. Reading, in turn, presents an intimate picture of the people whose language he is studying and of the country in which they live. The student reads about what other people are doing, how they do it and why. For a time, at

least, he leaves his own world and becomes a part of theirs. He realizes that they are human beings like himself and he develops an appreciative understanding of their actions, their life and their culture.

The literature of a country is an excellent indication of its temperament. A person, therefore, who has had some opportunity, no matter how slight, to read some of another nation's literature in the original language is more likely to be intelligently interested in those people and their problems, than if he had not had the same opportunity. He is more likely to understand how to think through a problem connected with them than to make a judgment based on prejudice.

It cannot, of course, be expected that a student who has had only two, or perhaps three years' study of a foreign language is thoroughly prepared to understand that nation's social, economic or political policies, but it certainly is reasonable to expect that he will gain an interest in his foreign neighbors that can mature into a feeling of friendship and good will. Even after a short study a student can have the readiness to learn more about people of whom he already knows something. He has an emotional reaction toward them that he did not have before. He must understand a people before he can have a kindly feeling toward them or attempt to get along with them.

Today more than ever the radio and rapid means of travel make nearly all parts of the globe accessible to man. We feel that other nations actually are our neighbors. It is not at all unlikely that some of our students will have the opportunity to use their reading and oral knowledge of modern foreign language. If so, its practical value is apparent. If not, they can feel that they have at least some appreciative understanding of their foreign neighbors.

CRAFTS

Dorothy E. MacFarlane

Instructor in Home Economics

During the past two years we have added various crafts to the Household Arts curriculum. We felt that these would not only provide the girls with a worthy use of leisure time, but might lead to interesting as well as profitable hobbies.

One of the oldest of crafts is weaving. The joy of producing lovely fabrics is enough to make one feel that her time has been well spent. This fall, the school department purchased a table loom on which the girls are now weaving bureau scarves for the bedroom in the Household Arts department. Each girl has had the opportunity to learn to do all the steps in setting up the loom, and in weaving.

The girls make a study of china and pottery in connection with the "House Planning" course. After a discussion of the various types and makes each girl has the opportunity to design and mold a piece of pottery, giving her the fundamental steps in constructing hand built ware.

There has been an increasing popularity of handiwork of all kinds, and undoubtedly the one most frequently done in the home is embroidery. Instead of the time honored stitches, such as outlining, chain, and lazy-daisy stitch, we have been doing some far more fascinating and beautiful work such as the Italian lace stitch, Russian weaving, English shadow, Assissi, star and zipper stitches. The girls have developed these stitches on place mats and napkins, luncheon sets, and towels.

A great deal of pleasure can be derived from these crafts as they all involve the use and application of beautiful colors and materials.

PRACTICAL ARTS

Nels H. Sandberg

Instructor in Practical Arts

The opportunity Practical Arts work affords in preparing boys for living in this age of machinery cannot be over emphasized. The work offered in the course enables the boy to make an exploratory test of his abilities and aptitudes. It gives him an understanding of the part the worker in industry plays in the betterment of society. In the eighth grade it serves as a tryout, in order that a proper choice may be made in the secondary school program. The course leads to the development of hobbies to occupy advantageously leisure time.

In the eighth grades the work consists of small projects in which the aim is to develop elementary skills in the use of the more common tools, in modifying and handling material and in the understanding of the more common construction problems. In these grades the large number of boys enrolled and necessarily limited time available makes it advisable to have the classes work as a group on the same type of activity. In this way the greatest progress for the class as a whole, can be made.

In the upper grades, the work is more advanced. The classes are smaller. There is more time allotted to these grades. Here the individual project plan is employed. Each boy works on a different project, something he, himself, has expressed a desire to make. Good construction and design are stressed. In most cases, designs handed down to us by the 18th century craftsman are used as standards. The aim is to develop an appreciation of good workmanship, good design, and pride in ability to do useful things.

The department is called on at times to construct some school project. This might be a bulletin board for

the library, a cabinet for the Household Arts Department, tables for the typewriting room, scenery for class plays or goal posts for the athletic field. These are classed as general shop problems. Work of this sort instills an attitude of readiness to assist others and join in group undertakings.

There has been a steadily growing interest in the Practical Arts course in the school during the past four years. The number registering for the course has tripled. It is hoped the results attained will justify the continued interest.

REPORT FROM HATHERLY SCHOOL

George W. Burrill

Principal

At the beginning of the present year in September, the enrollment at Hatherly School showed an increase over that of last year due to a large entering class, forty-four being registered in that grade.

School opened with two new members welcomed to our group of teachers, Miss Thelma Annis in the fifth grade taking the place of Miss Crocker who was assigned to the second grade to fill the vacancy caused by the resignation of Miss Helen Knox. Miss Carol Vollmer was appointed as an assistant in the first grade. Miss Knox was a member of the Hatherly teaching staff for twelve years. She was always deeply interested in her work, loyal to her superiors and helpful to her co-workers. Her personal interest in the welfare of each of her pupils was recognized by all. Our best wishes go with her, and we are glad that she will continue to reside in Scituate.

We are endeavoring to improve the standard of reading in our school. Through the cooperation again of our local library we have been able to place many new desirable books on our tables available to the pupils for home reading. During National Book Week which was observed the week of November 13th, the different classes held a "Book Parade" in which individual children or groups of children, dressed in costume to represent characters in worthwhile books, went from room to room. This activity created an added interest in reading which has been shown by a greater demand for books.

The improvement in the toilet facilities of the boys' basement is one of note and is most sincerely apprecia-

ted. The time saved and the added convenience to those using the basement cannot be over estimated.

As in previous years we are enrolled in the Junior Red Cross one hundred per cent. Again we have given a sum of money to be used in providing milk for needy children. The gift of money from the North Scituate Welfare League to be used for this same purpose is gratefully acknowledged.

REPORT FROM JENKINS SCHOOL

LeRoy E. Fuller

Principal

Children ordinarily like to attend school and like the companionship of the other pupils. Is it not true that they await with impatience the day they can start to school? It has been a long time from June to September and they are eager to see their school friends and teachers. They enter school full of enthusiasm. If they lose this feeling for the school are they alone to blame? May not the school itself be somewhat at fault? The school must be made interesting and vital, and the pupils must be made to like their school and to realize what it has to give to them. This is what we aim to do in our school.

Our enrollment remains about the same as last year. Although several new families are represented, others have moved away. Attendance is good, the school maintaining an average of 92%. There are but few cases of tardiness and seldom is there a case of truancy. Those cases of prolonged absence are due to sickness or other legitimate reasons.

From our small school fund we have contributed some free milk, purchased books for the classroom libraries, subscribed to two monthly school magazines, and contributed to the Red Cross. Each room is enrolled in the Junior Red Cross and one class has made and distributed several scrapbooks to children in hospitals.

Again we shall carry on the reading of books on the State Reading List. This list contains books that have been read by children for many years as well as many of the more recent books. By so doing we hope to create in the children a desire to read the many well-written and well-illustrated books that are being published for children.

The late Miss E. Gertrude Gardner, for many years a teacher in the schools of Scituate, loved little children and that same spirit of love and affection toward her was always evident in her classroom. Mrs. Amy Dalby has presented a bronze plaque to Jenkins School in memory of her sister. This plaque is to be placed in the lower corridor near the entrance to the room she occupied for so many years.

REPORT OF THE ART SUPERVISOR

Mr. Harold C. Wingate,
Superintendent of Schools,
Scituate, Massachusetts.

Dear Sir:

In submitting a report of the Art Department this year, it might be well to discuss the change in the allotment of the Supervisor's time.

A few years ago, outside the two full days at Senior High School, only eleven teaching periods a week covered the work from Grade One through Grade Eight, plus eleven supervised lessons taught by the grade teachers.

Now, in addition to the fourteen periods per week taught in Senior High, seventeen teaching periods per week are necessary plus twenty-one supervised lessons taught by grade teachers.

Since the inauguration of the Junior High School, because of lack of teacher time, it has been possible to give only one lesson a week to the seventh and eighth grades. This admittedly was unfair to the classes and not according to state requirements.

The matter was taken up with the Massachusetts School of Art authorities and upon their advice the required two lessons per week was assigned to the Junior High School.

Ten periods per week have been arranged and it is hoped that another year smaller groups may be managed. The boys' groups are for the most part separate from the girls', allowing instrumental drawing to be introduced to the boys and their lessons on Representation and De-

sign are applied to lighting, automobiles, aeroplanes, engines, bridges, architecture and park and road planning.

A start has been made in planning in the art classes simple toys to be constructed in Manual Training. It is believed that part of the time in both boy and girl groups should be given to Art Appreciation so that those who do not elect Art in Senior High may have some foundation to help them as they grow to take their places as buyers of merchandise, builders of homes and citizens of the community.

With four months of the school year gone, a decided improvement in the work in Junior High has been noted. It is felt that this change will ultimately lead to a greater satisfaction and a larger High School Art Class enrollment.

Remodelling of the Art Room, its seating capacity, storage and bulletin space and equipment should be considered. Instrumental Drawing must be restored to the course in Senior High and Crafts classes are advised.

With the additional time given to the Junior High, the Jenkins and the Hatherly Schools are visited on alternating weeks. Every other Friday, lessons are taught in Grades One through Six and the room teachers, following lessons outlined by the Supervisor, teach at least three lessons between each of these visits. The grade teachers have co-operated in a splendid way to put over this new but necessary plan.

Last year the Supervisor was able to visit many schools, to study other systems and to spend some time in consultation at the State Art School.

It is interesting to note the comment in recent Art Publications by different leaders in Art Education. Having decried any guidance of the child in his art expres-

sion it is now being recognized that Creative Expression comes only when given proper art language.

To quote Pedro J. Lemos of California, as progressive an educator as they come: "For years we tried to produce out of Blue skies the same results with art as that supposedly achieved in Europe without guidance. Today we know that no such work was produced in Europe and that sympathetic examination of these exhibits and schools have proven that Preparation and Guidance were preliminaries. The blue skies of enthusiasm and imagination are needed, but the definite horizon of 'ground-work' gives footing and completes firm Art Education foundations."

Today the sources of free expression are now saying, "There must be some guidance and where the educator preferred art teachers who did not draw too well for fear of doing too much for the child, they now know that the greatest incentive to art growth is the teacher who can lead."

"Where the presence of tools and paints has been urged as a visual stimulus, it is now recognized that there is no stimulus equal to a fine demonstration of what can be done with those tools by the art teacher. The Bailey slogan 'Draw and the child draws with you—talk and you talk alone' is truer than ever. A whole window full of pianos, guitars and harmonicas may not stir you to become a musician until someone easily produces beautiful chords on one of those instruments."

Art teachers are now being urged to vary their methods of teaching to meet the needs of the human material with which they work and to make the instruction fit the different mentalities and abilities of the child.

Respectfully submitted,

DORIS D. WARD,

Supervisor of Art.

REPORT OF THE MUSIC SUPERVISOR

Mr. Harold C. Wingate,
Superintendent of Schools,
Scituate, Massachusetts.

Dear Sir:

Any new supervisor of music who enters a new community expects to undergo a strenuous change of principles and practices in order to adjust his teaching to the needs of the people. Unfortunately this change means the loss of months of progress, and the removal of much enthusiasm. In Scituate, however, such change has been unnecessary, and it is with the greatest appreciation that the present supervisor salutes a community which is flexible in its demands, utilizing the gifts of individual teachers without question or restraint.

This commendable outlook by the parents and their representatives, the school committee, the superintendent, and the principals, has enabled growth in new directions to take place in the short time of one school semester. Upon the foundations laid by Miss Bradford, the retiring supervisor, plans have been laid and building begun for new classes, and for new kinds of work.

Children in the grade schools are confronted with the fundamental problems of music, and the solution of these problems is purposely left to their natural interest in music, and to the skill and experience of their classroom teachers with whom they spend most of their music periods. Enlightenment upon various phases of music with which the children have a listening acquaintance, serves as a source of educating entertainment. There are victrola records, cardboard instruments, and now is added a Saturday class in band instruments, which will enable the maturing youngsters in the fourth, fifth and sixth grades to express themselves in auxiliary ways.

While working for the future music students, what of the present group who are occupied with the serious business of meeting the requirements of graduation? The great majority will have their music come to them on the radio, in concerts, and in church. Through glee club, orchestra and band instrument classes they are taught how music is produced, about the mental and physical energy necessary to enter into the spirit of a piece of music, and about the techniques for enjoying the great variety of music which surrounds them. This group will know good music by the quality of emotion aroused, and the grade of performance heard.

The existence of so much good music in our churches and in other Scituate musical organizations is encouraging to the supervisor who teaches the students to get the best from their voices and instruments. The needs of these adult groups are similar, all requiring new talent who can read their music and help the performances they give to succeed. For the school to overlook these needs would not be good co-operation, and with energy, classes have set about finding for themselves the notes of strange pieces, and putting across their own performances.

It has been said that a musical person can tell correct pitch, exact time, and proper loudness. If many of our "unmusical" boys and girls can be made sensitive to their own musical errors, it will be found that they, too, are as musical as others who have had advantages of music lessons at home. This does not guarantee artist-performance from school children, but it produces genuine music appreciation. The eye soon learns to see many things at a glance, and by the same token the ear can be trained to hear many things simultaneously, and it is the duty of a music department to train the child's ear.

The ultimate goals which the music department has set for its students to achieve are an A Cappella Chorus which can perform music without assistance from a piano or a leader, and a Symphony Orchestra which can express faithfully the messages from the masters, and a Marching Band which can march and play with the best on the South Shore. No supervisor alone can hope to achieve this ambitious program in a short time, but with the splendid support evidenced by the community the accomplishment need not be long delayed.

Respectfully submitted,

PHILIP W. L. COX, JR.,

Supervisor of Music.

REPORT OF SCHOOL PHYSICIAN

To the Scituate School Committee:

I have as is customary examined the pupils of the various schools.

The later half of last year there were many cases of Chicken-Pox, but thus far this year there has been no epidemic of contagious disease, and the physical condition of the pupils is excellent; at the time of the examinations there was practically none absent on account of sickness.

The Diphtheria preventive Clinic was continued this year thanks to the Board of Health.

The beneficial results of the Dental, and Tonsil Clinics are very apparent in many instances, and a continuation of this excellent work is hoped for.

The buildings have received inspections at various times, and the janitors in all instances are to be commended for their excellent condition.

The usual spirit of co-operation has been accorded me for which I express my thanks.

The statistics of the physical examinations will be found in the School Nurse's report.

Respectfully submitted,

T. B. ALEXANDER, M. D.,
School Physician.

REPORT OF SCHOOL NURSE

Mr. Harold C. Wingate
Superintendent of Schools
Scituate, Massachusetts

Dear Sir:

My eleventh annual report of work accomplished as part-time School Nurse is as follows:

Number of School Visits (including those made with school physician for examination), class and individual inspections, first aid treatments, dental and other clinics	162
Number of Home Visits for School Children	131
Number of Children taken home ill	16
Number of Children examined by School Physician ..	487
Number of Children found to have	
Nose and Throat Defects	126
Number of Children having had Nose and	
Throat Defects Corrected	41
Number of Children having Defective Vision	42
Number of Children having had	
Vision Defects corrected	22
Number of Children with Heart Defects	85
Number of Children with Posture Defects	10
Number of Children with Speech Defects.....	3
Number of Children with Defective Hearing	26
Number of Children receiving treatment for prevention of diphtheria (some of whom were in the pre-school age group)	79
Number of Cases of Mumps	42
Number of Cases of Chickenpox	9

ANNUAL REPORT, TOWN OF SCITUATE, 1938

Children were excluded from school for the following reasons:

Scabies	1
Impetigo	4
Pediculosis	9
Ringworm	2

Respectfully submitted,

MARGARET O'DONNELL, R. N.
School Nurse.

REPORT OF ATTENDANCE OFFICER

Mr. Harold C. Wingate,
Superintendent of Schools
Scituate, Massachusetts

Dear Sir:

All cases of absences concerning which I have been notified have received my prompt attention. In nearly all of the cases investigated, the reasons have been sickness or other conditions which justified the absence.

Respectfully submitted,

ANNIE M. S. LITCHFIELD,
Attendance Officer.

SELECTMEN'S REPORT

REPORT OF THE BOARD OF SELECTMEN FOR 1939

As we look over the record of the past years, which has now become a part of the History of Scituate, we may well have a feeling of satisfaction in the thought that we as a Town have been blessed with a measure of prosperity. Our financial condition is sound, and the departments rendering efficient services for the protection of life and property and the general happiness of the community. The interest for the public good taken by the citizens and local groups of our several villages is especially pleasing to the Selectmen. The civic pride of these groups has promoted the beautification of several spots and it is hoped that they may continue to make Scituate a more beautiful place in which to live.

A glance at our harbor in the middle of July will immediately convince one of the benefits derived from the tax money spent on the deepening of the channel and the enlarging of the anchorage basin. Our share in this project was small in comparison with the amount spent by the State and Federal Governments and the revenue accruing to the Town is unending. Each yacht anchored within the basin is a customer for the Scituate Merchants and it shows that more and more people enjoy the beauties of our waterfront.

Scituate is growing, becoming more and more a settlement of year round residences. Good roads and better transportation facilities are wiping out distances. The difference between our Winter and Summer populations is so great, being approximately a 5 to 1 ratio, the cost of some of the functions which the Town has to perform must seem high. Scituate is distinctively a Summer vacation land and in order to keep its attractive appearance and accommodate the ever increasing number who wish to enjoy the country and seashore we must improve our Parks and regulate the use of our waterfront. The problem which always presents itself where there are beaches is a hard one to solve. The property owners along the shore are entitled to a certain amount of privacy and the general public whose tax money is spent in the protection of these foreshores should have some privileges. Your Board is trying to work out plans which allow the proper use of the beaches without great hardship to any and for the proper enjoyment of all.

The voters at the last annual meeting provided funds to be used in conjunction with Federal monies to relieve unemployment. Without this help our burden of welfare would be much greater. A detailed report of these activities will be found under the report of the Town W. P. A. Agent and the Town Accountant. On account of this phase of activity many streets have been re-

SELECTMEN'S REPORT

built, drains constructed, roadsides cleared, fire hazards eliminated, miles of piping added to the water system, records indexed, veteran's graves mapped and a beautiful playground constructed. Surely these are worthwhile projects which are of great value and will be enjoyed by the present as well as the future residents.

We, in closing this report, wish to express our appreciation for the splendid co-operation given us by the citizens in our efforts to fulfill our obligation in administration and pledge our best endeavor for your well being.

Respectfully submitted,

JAMES W. TURNER,
W. IRVING LINCOLN,
PHILIP S. BAILEY,
Board of Selectmen.

TOWN CLERK'S REPORT

REPORT OF TOWN CLERK

ANNUAL TOWN MEETING

March 6, 1939

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs held at the High School Auditorium in said Scituate on Monday the sixth day of March, 1939 at seven o'clock P.M.; order was called by Moderator Dennis H. Shea.

The warrant was read by Town Clerk William M. Wade.

Tellers appointed by the Moderator and sworn to their duties by the Town Clerk: C. Harry Driscoll, Ralph C. Ackerman, J. George Vollmer, Kenmure W. Moffatt, Annie M. S. Litchfield, Eugene H. Lane, Thomas W. Macy.

ARTICLE 1.

To choose all the necessary Town Officers other than those elected by ballot, viz: Surveyor of Lumber, Measurer of Wood and Bark, two or more Field Drivers, one Pound Keeper.

VOTED: To elect same officers as in 1938. Surveyor of Lumber, Measurer of Wood and Bark, Ansel F. Servan.

Two or more Field Drivers: The Constables.

One Pound Keeper: Augustus L. Abbott.

ARTICLE 2.

To hear the report of the Selectmen or other Town Officers and standing Committees, and act thereon.

VOTED: To accept reports of Town Officers as printed in the Town Report.

ARTICLE 3.

Will the Town vote to establish salaries and compensation of all elected Town Officers, or act thereon. The following salaries are recommended:

Selectmen: Chairman, \$2,000.00 and legitimate expenses. Other members \$600.00 each and legitimate expenses.

Board of Public Welfare: Chairman, \$500.00 and legitimate expenses. Other members \$100.00 each and legitimate expenses.

Assessors: Chairman, \$2,000.00 and legitimate expenses. Other members \$500.00 each and legitimate expenses.

Highway Surveyor: \$2,200.00, he to furnish his own conveyance while in performance of his duties and receive \$250.00 to cover expense of same.

Town Collector: \$2,000.00 and legitimate expenses. All fees to accrue to the Town.

Town Treasurer: \$1,800.00 and legitimate expenses.

Town Clerk: \$1,200.00 and legitimate expenses.

TOWN CLERK'S REPORT

Tree Warden: \$300.00.

Board of Health: \$1,200.00 divided as follows: Secretary, \$500.00 and legitimate expenses. Other two members \$350.00 each and legitimate expenses. This sum shall include their charges for all service performed by them or either of them, other than the inspection of plumbing, inspection of meat and inspection of cattle.

Park Commissioners: Recommended that each member be paid on the same amount per hour for work actually performed as is paid laborers in the Highway Department.

Water Commissioners: \$180.00 for each member and legitimate expenses To be taken from the Water Department budget.

Moderator: \$10.00 for each meeting and adjournment thereof.

VOTED: To establish salaries and compensation of all elected Town Officers as follows:

Selectmen: Chairman \$1,800.00 and legitimate expenses. Other members \$540.00 each and legitimate expenses.

Board of Public Welfare: Chairman \$450.00 and legitimate expenses. Other members \$90.00 each and legitimate expenses.

Assessors: Chairman \$1,800.00 and legitimate expenses. Other members \$450.00 each and legitimate expenses.

Highway Surveyor: \$1,980.00, he to furnish his own conveyance while in the performance of his duties and receive \$250.00 to cover expense of same.

Town Collector: \$1,800.00 and legitimate expenses. All fees to accrue to the Town.

Town Treasurer: \$1,800.00 and legitimate expenses.

Town Clerk: \$1,200.00 and legitimate expenses.

Tree Warden: \$300.00.

Board of Health: The sum of \$1,200.00 to be paid to the Board of Health for salary, divided as follows: Secretary \$500.00 and legitimate expenses. Other members \$350.00 each and legitimate expenses. This sum shall include their charges for all services performed by them or either of them, other than the inspection of meat and inspection of cattle from appropriation for Board of Health.

Park Commissioners: Each member be paid the same amount per hour for work actually performed as is paid laborers in the Highway Department.

Water Commissioners: \$180.00 for each member and legitimate expenses to be taken from the Water Department budget.

Moderator: \$10.00 each meeting or adjournment thereof.

* Item 14. Voted that \$6,000.00 be appropriated for Insurance Premiums and that a committee consisting of Williams B. James, Mark W. Murrill, and Russell L. Fish be appointed to make a complete study of insurance matters in Town in any and all phases, especially as they apply to municipal property, private property and fire protection.

ARTICLE 5.

To see if the Town will authorize the Board of Public Welfare to contract at their descretion for the support of the Town's Poor, or act thereon.
—Selectmen.

VOTED: To so authorize the Board of Public Welfare.

ARTICLE 6.

To see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1st, 1940, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.
—Selectmen.

VOTED: That the Town do authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1st, 1940, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.
—Unanimous vote.

ARTICLE 7.

To hear the report of any Committee heretofore chosen, or act thereon.

VOTED: That the report of the School Site Committee be accepted and that a Committee of five, hereinafter named, be appointed to look into the matter of School Housing for the Elementary Grades, as to the present conditions and future requirements therefor, the School Committee and Superintendent of Schools to be advisory therein, the Committee so appointed to hold a public hearing in connection with their study of the matter, and to report its recommendations for consideration at the next Annual Town Meeting or at any Special Town Meeting that may be called prior thereto.

The members of said Committee to be Mr. Winthrop Richmond, Mr. Elwood Damon and Mr. John Goodnow, and such member of the Planning Board and such member of the Advisory Board as the majority of the three named individuals shall designate.

ARTICLE 8.

To see what action the Town will take relative to the report of the Committee appointed to make a study of a location for a central elementary school building, and to see what sum of money, if any, the Town will raise and appropriate under this article.
—School Committee.

VOTED: To indefinitely postpone.

TOWN CLERK'S REPORT

ARTICLE 9.

To see what sum of money the Town will vote to transfer from the Excess and Deficiency Account to be used by the Assessors in reducing the taxes for the current year.

—Advisory Board, Philip L. Schuyler, Chairman.

VOTED: To transfer from the Excess and Deficiency Account \$20,000.00 to be used by the Assessors in reducing the taxes for the current year.

—Unanimous vote.

ARTICLE 10.

Will the Town vote to appoint a Committee consisting of a member of each of the Board of Selectmen, School Committee, Fire Engineers, and Advisory Board to study the insurance needs of the Town and bring in a report with recommendations, if any, at a future Town Meeting.

—Advisory Board, Philip L. Schuyler, Chairman.

VOTED: To indefinitely postpone.

ARTICLE 11.

To see if the Town will appoint a Committee of five, comprised of one member from each of the following Boards: Board of Selectmen, Board of Public Welfare, School Committee, Board of Health, and the Chairman of the Advisory Board to make a survey of the medical, nursing and hospitalization costs; findings and recommendations of the Committee to be made available to the respective departments and the Town at the next Town Meeting.

—Board of Public Welfare, Nathaniel Tilden, Chairman.

VOTED: Yes. Unanimous vote.

ARTICLE 12.

To see if the Town will vote to instruct all Departments to consult with the Selectmen before purchasing supplies, where such supplies are in common use in other departments and particularly the following: Fuel, gasoline, lubricating oil, tires, and any other commodity where a saving can be made by combining purchases and when practical to contract under competitive bids therefor.

—Advisory Board, Philip L. Schuyler, Chairman.

VOTED: To instruct all Departments to consult with the Selectmen before purchasing supplies where such supplies are in common use in other departments and particularly the following: fuel, gasoline, lubricating oil, tires, and any other commodity where a saving can be made by combining purchases and when practical to contract under sealed competitive bids.

ARTICLE 13.

To see if the Town will vote to transfer the Dog Fund received from the County to either the Schools or Libraries, or act thereon.

—Selectmen.

VOTED: That the amount of money received from the Dog Fund be divided one-third each equally between the School Department, the Pierce Memorial Library and the Allen Memorial Library.

ARTICLE 14.

To see if the Town will accept the provisions of Chapter 133, Sections 1 and 2 of the Acts of 1938 relative to appeals under the Zoning By-Laws.

—Selectmen.

VOTED: Yes. Yes 310. No 25.

TOWN CLERK'S REPORT

ARTICLE 15.

Will the Town authorize the Board of Health to grant a permit for the extension of St. Mary's cemetery to include land on Meeting House Lane and Stockbridge road, now owned by Rockland Trust Co., formerly by the Harrub Estate, or take any action thereon? —Board of Health.

VOTED: To so authorize the Board of Health.

ARTICLE 16.

Will the Town raise and appropriate the sum of \$100.00 to meet foreclosure costs on tax titles, or act thereon? —Town Treasurer.

VOTED: To raise and appropriate \$100.00.

ARTICLE 17.

Will the Town authorize the Selectmen to sell at public auction the remaining portion of gravel pit on Gannett Road and convey same by quit claim deed?

VOTED: Yes. Yes 205. No 5.

ARTICLE 18.

To see if the Town will appropriate from funds in the Treasury the amount earned by or appropriated for the Water Department, and a sum of money equal to but not exceeding the amount of water revenue, to meet the payments for bonds, interest, operation and improvement of the Water Department for the ensuing year, or take action relative thereto. —Water Commissioners.

VOTED: That the Town appropriate from funds in the Treasury the amount earned by or appropriated for the Water Department and a sum of money equal to, but not exceeding the amount of water revenue for the ensuing year, for the use of the Water Department as follows: For payment of bonds \$33,000.00; for interest on water bonds \$23,886.25; for maintenance, operation, and improvement of the Water Department, the actual balance of the water revenue to be received, now estimated at \$37,000.00.

—Unanimous vote.

ARTICLE 19.

To see if the Town will raise and appropriate the sum of fifteen hundred (1,500.00) dollars for the care and upkeep of the Civic Center Grounds, under the jurisdiction of the School Board. —School Committee.

VOTED: To raise and appropriate \$1,500.00.

ARTICLE 20.

To see if the Town will raise and appropriate the sum of \$200.00 for the care and maintenance of the Comfort Station at the Parking Space East of Front Street, or act thereon. —Selectmen.

VOTED: To indefinitely postpone.

ARTICLE 21.

Will the Town raise and appropriate the sum of \$200.00 for care and maintenance of Minot Parking Space and Comfort Station, or act thereon? —Selectmen.

VOTED: To raise and appropriate \$200.00.

TOWN CLERK'S REPORT

ARTICLE 22.

To see if the Town will authorize the Highway Surveyor to purchase a new Caterpillar Tractor and to turn in the old used tractor on said purchase and raise and appropriate the sum of \$1,500.00 for said purpose, or act thereon.

—Highway Surveyor.

VOTED: To raise and appropriate \$1,500.00.

ARTICLE 23.

To see if the Town will raise and appropriate the sum of \$5,000.00 for the purchase of a motor grader and necessary accessories, or act thereon.

—Highway Surveyor.

VOTED: To raise and appropriate \$4,000.00.

ARTICLE 24.

To see if the Town will raise and appropriate the sum of \$15,000.00 to be expended in rebuilding the roadway on Elm Street and installing an adequate drainage system for the same.

—George H. Otis, et. al.

VOTED: To raise and appropriate \$1,500.00.

ARTICLE 25.

To see if the Town will accept the layout of the Selectmen as filed at the Office of the Town Clerk, making Cliff Avenue, so called from Mooreland Road to Collier Road, a Town Way and raise and appropriate the sum of \$1,600.00 to cover the cost of construction, or act thereon.

—Selectmen.

VOTED: To accept layout and raise and appropriate \$600.00.

ARTICLE 26.

To see if the Town will accept the layout of the Selectmen as on file at the Office of the Town Clerk making Jay Road, so called, from Hatherly Road to Norwell Avenue, a Town Way, and raise and appropriate the sum of \$1,000.00 to construct the same, or act thereon.

—Selectmen.

VOTED: To accept layout and raise and appropriate \$500.00.

ARTICLE 27.

To see if the Town will accept the layout of the Selectmen in accordance with a plan on file in the Town Clerk's Office as it refers to the taking of land and construction of road way on Turner Road at its intersection with Tilden Road, and raise and appropriate the sum of \$25.00 for land damages and the sum of \$375.00 for the necessary road construction, or act thereon.

—Selectmen.

VOTED: To indefinitely postpone.

ARTICLE 28.

Will the Town raise and appropriate the sum of \$4,500.00 to build a sidewalk on the Easterly side of Country Way from Ford Place to Union Street, said sidewalk to lie entirely within the layouts of said Country Ways or act thereon?

—Frank W. Clapp, et. al.

VOTED: To raise and appropriate \$2,700.00.

ARTICLE 29.

To see if the Town will raise and appropriate the sum of \$9,000.00 to construct a sidewalk from the Scituate Railroad Station to the Scituate Civic Center, all on first Parish Road, or act thereon.

Womens' Betterment Club—Bertha N. Bacon, President.

VOTED: To indefinitely postpone.

TOWN CLERK'S REPORT

ARTICLE 30.

To see if the Town will raise and appropriate the sum of \$3,600.00 to construct a sidewalk on Hatherly Road, Northerly from Gannett Road to the entrance to the Hatherly Country Club, or act thereon.

—North Scituate Beach Improvement Association.

VOTED: To indefinitely postpone.

ARTICLE 31.

To see if the Town will raise and appropriate the sum of \$4,000.00 to construct a sidewalk on the Easterly side of Hatherly Road, Northerly from Second Avenue for a distance of 1,400 feet, or act thereon.

—Selectmen.

VOTED: To indefinitely postpone.

ARTICLE 32.

To see if the Town will raise and appropriate the sum of \$2,000.00 to extend the sidewalk on the Easterly side of Jericho Road, Northerly for a distance of 500 feet and to install the necessary catch basins and drainage essential to the construction of said sidewalk, or act thereon.

—Selectmen.

VOTED: To indefinitely postpone.

At this point the meeting adjourned and reconvened Wednesday evening, March 8, 1939, at 7:30 P.M.

Tellers Eugene H. Lane and Annie M. S. Litchfield were absent and were replaced by Ernest B. Nord and Thomas W. Macy respectively.

ARTICLE 33.

To see if the Town will raise and appropriate the sum of \$215.00 for additional land damages and the sum of \$3,750.00 to be expended in conjunction with a like sum of \$3,750.00 from the County of Plymouth and such sum as the Department of Public Works shall authorize for an extension of work now contracted for in rebuilding Gannett Road, and that of the total of said \$215.00 and \$3,750.00 amounting to \$3,965.00, the sum of \$627.33 be transferred from the unexpended balance from the appropriation for the construction of Henry Turner Bailey Road and that the sum of \$3,337.67 be raised from the current tax levy for the above stated purpose, or act thereon.

—Selectmen.

VOTED: To raise and appropriate \$3,337.67.

ARTICLE 34.

To see if the Town will authorize the Town Accountant to transfer to the Excess and Deficiency Account the sum of \$647.67 representing an unexpended balance appropriated under Article 38 of the Annual Town Meeting of March 7, 1938 to conduct a study relative to the installation of a Public Sewer System, or act thereon.

—Selectmen.

VOTED: To transfer \$647.67 to Excess & Deficiency Account. Unanimous vote.

ARTICLE 35.

To see if the Town will vote to name the playground now under construction at North Scituate, The Henry Turner Bailey Playground, or act thereon.

—Park Commissioners.

VOTED: To indefinitely postpone.

ARTICLE 36.

To see if the Town will vote to name the parking space located East of Front Street at Scituate Harbor, Eastern Parkway, or act thereon.

—Selectmen.

VOTED: To indefinitely postpone.

TOWN CLERK'S REPORT

ARTICLE 37.

Will the Town raise and appropriate the sum of \$1,200.00 to be expended under the direction of the Board of Health for the eradication of a public health nuisance in and around Musquashicut Pond, or take any action thereon?

—Board of Health.

VOTED: To raise and appropriate \$1,200.00.

ARTICLE 38.

Will the Town raise and appropriate the sum of \$85.00 for the maintenance and care of the Old Cemetery on Cudworth Road, or act thereon?

—Selectmen.

VOTED: To raise and appropriate \$85.00.

ARTICLE 39.

Will the Town raise and appropriate the sum of \$500.00 for the maintenance and improvement of the Town Forest, or act thereon?

—Town Forest Committee.

VOTED: To raise and appropriate \$500.00 for Town Forests.

ARTICLE 40.

To see if the Town will raise and appropriate the sum of \$500.00 for a series of seven (7) band concerts to be given during the months of July and August, 1939.

—Satuit Band, Louis O. Haartz, President.

VOTED: To raise and appropriate \$400.00.

ARTICLE 41.

To see if the Town will vote to raise and appropriate \$100.00 for County Aid to Agriculture and choose a Town Director as provided in Section 41 and 45 of Revised Chapter 128 of the General Laws, or act thereon.

—County Treasurer.

VOTED: To raise and appropriate \$100.00 Charles E. Mitchell—Town Director.

ARTICLE 42.

To see if the Town will raise and appropriate \$20,000.00 to be administered by the Selectmen as a general unemployment relief fund for the Town's share of materials, trucking, and other necessary expenses in connection with Federal unemployment projects and for any proper Town improvement approved by the Selectmen who shall make appropriate rules for the employment of citizens of the Town in need thereof; or act thereon.

—Selectmen.

VOTED: That the Town raise and appropriate the sum of \$20,000.00 to be administered by the Selectmen as a fund to provide the Town's share of materials, trucking and other necessary expenses in connection with Federal unemployment projects, as authorized by law.

Yes 285. No 3.

ARTICLE 43.

Will the Town vote to raise and appropriate the sum of \$5,000.00 to the Reserve Fund or transfer the whole or any part thereof from any available funds, or act thereon?

—Selectmen.

VOTED: That the Town transfer the sum of \$5,000.00 to the reserve fund from the overlay surplus fund.

TOWN CLERK'S REPORT

ARTICLE 44.

Will the Town authorize the Selectmen to contract for the part time services of a Public Health Nurse to be employed under the direction of the Board of Health, Board of Public Welfare and the School Committee, and raise and appropriate the sum of \$1,600.00 for payment of said employment and the sum of \$1,280.00 to cover the cost of clerical assistance and transportation necessary in connection with said service, or act thereon? —Selectmen.

VOTED: To raise and appropriate \$2,880.00 to be expended as provided for in subject matter of this article.

Yes 237. No 11.

ARTICLE 45.

Will the Town raise and appropriate the sum of \$798.70 to provide for an overdraft for the Removal of Snow in 1938, or act thereon? —Selectmen.

VOTED: To raise and appropriate \$798.70.

ARTICLE 46.

To see if the Town will raise and appropriate the sum of \$90.00 to provide payment for an unpaid bill of 1938 due Vernon W. Marr for legal services and expenses, or act thereon. —Selectmen.

VOTED: To raise and appropriate \$90.00.

ARTICLE 47.

To see if the Town will instruct the Selectmen to contract for a street light to be placed at Pole No. 223, Chief Justice Cushing Way, and raise and appropriate the sum of \$17.00 to cover the cost of same, or act thereon?

—Archie L. Fish, et al.

VOTED: To refer to Board of Selectmen.

ARTICLE 48.

To see if the Town will raise and appropriate the sum of \$1,000.00 to provide payment of a pension of \$100.00 per month from March 1, 1939 to January 1, 1940, to the Widow and Child of the late Officer Edward W. Carson as certified by the Selectmen and in accordance with the provisions of Chapter 32, Section 89 of General Laws as amended by Chapter 326, Acts of 1936, or act thereon. —Selectmen.

VOTED: To raise and appropriate \$1,000.00.

ARTICLE 49.

To see if the Town will instruct the Selectmen to continue the light placed at the corner of Eaglenest Road and Gilson Road and appropriate a sufficient amount to provide therefor? —Thomas Sweeney, et. al.

VOTED: To refer to Board of Selectmen.

ARTICLE 50.

Will the Town raise and appropriate the sum of \$300.00 to provide for the care and maintenance of the Henry Turner Bailey Playground, or act thereon? —Park Commissioners.

VOTED: To increase Park Department appropriation under Article 4 to \$2,800.00; \$300.00 of which is to be used at the playground now under construction at the corner of Country Way and Henry Turner Bailey Road, to provide for care and maintenance.

TOWN CLERK'S REPORT

ARTICLE 51.

To see if the Town will raise and appropriate the sum of \$450.00 for the purpose of repainting that portion of steel sheathing above mean high water and for treatment of the filled surface of the Town Pier at Scituate Harbor, or act thereon?
—Selectmen.

VOTED: To raise and appropriate \$450.00.

ARTICLE 52.

To see if the Town will raise and appropriate the sum of \$200.00 to construct a fence on the triangle at Edward Foster Road, or act thereon.
—Selectmen.

VOTED: To raise and appropriate \$200.00.

ARTICLE 53.

To see if the Town will raise and appropriate the sum of \$50.00 for the maintenance and upkeep of the triangular plots at Greenbush, or act thereon.
—Womens' Betterment Club, Bertha N. Bacon, President.

VOTED: To raise and appropriate \$50.00.

ARTICLE 54.

To see if the Town will raise and appropriate the sum of \$180.00 for a life-guard at Peggotty Beach from June 20, 1939 to September 11, 1939 inclusive, or take any action relative thereon?

—Womens' Betterment Club, Bertha N. Bacon, President.

VOTED: To raise and appropriate \$180.00.

ARTICLE 55.

To see if the Town will vote to raise and appropriate the sum of \$400.00 for the bronze tablet to commemorate the founding of the mousing industry.

—C. Harry Driscoll.

VOTED: To indefinitely postpone.

ARTICLE 56.

To see what sum the Town will appropriate or what action the Town will take to provide quarters for the Satuit Post 3169, Veterans of Foreign Wars in accordance with the provisions of General Laws Chapter 40 (Ter. Ed.) Section 9.

—Alvin Eaton, Commander.

VOTED: To raise and appropriate \$350.00.

ARTICLE 57.

Will the Town raise and appropriate the sum of \$60.00 for payment of dues for a yearly membership in the Maritime Divisions of the Boston Chamber of Commerce, or act thereon?

—Selectmen.

VOTED: To raise and appropriate \$60.00.

ARTICLE 58.

Will the Town raise and appropriate the sum of \$75.00 for channel markings and regulations of the usage of North River from Humarock Bridge to the sea, same to be in conjunction with like control by the Town of Marshfield, or act thereon?

—Selectmen.

VOTED: To raise and appropriate \$75.00.

ARTICLE 59.

To see if the Town will accept the following by-law:

The Selectmen shall control and may regulate the taking of eels, clams,

TOWN CLERK'S REPORT

all other shellfish, and seaworms within the Town by appropriate rules and regulations in accordance with the provisions of General Laws or any amendment thereof.
—Selectmen.

VOTED: To accept the by-law as printed in warrant.
Yes 147. No 42.

ARTICLE 60.

To see if the Town will raise and appropriate the sum of \$2,200.00 to cover the cost of supervision and control of the Clam Flats within the Town of Scituate, or act thereon?
—Selectmen.

VOTED: To raise and appropriate \$2,200.00.

ARTICLE 61.

To see if the Town will raise and appropriate the sum of \$1,700.00 in addition to an unexpended balance of \$554.47 raised for sea wall repairs to be used in conjunction with such sum as the Department of Public Works shall authorize for reinforcement of the Minot Sea Wall, the cost of which is now estimated by said Department of Public Works at \$4,500.00. Said costs to be borne equally by the Commonwealth of Massachusetts and the Town of Scituate, or act thereon.
—Selectmen.

VOTED: To raise and appropriate \$1,700.00.
Yes 139. No. 4.

ARTICLE 62.

Will the Town raise and appropriate the sum of \$150.00 for the annual clean up and appoint a committee to have charge of same, or act thereon?
—Scituate Clean-up Committee.

VOTED: That the Town raise and appropriate the sum of \$150.00 for the annual clean-up and appoint the following committee to have charge of the same: Mrs. John L. Rothery, Philip L. Schuyler, Allan D. Creelman, Harold L. Bates, Ralph M. Litchfield.

A resolution put to the voters by Moderator Dennis H. Shea asking for an expression as to their preference in holding the Annual Town Meeting in the daytime or evening resulted as follows:

In the daytime 191.
In the evening 217.

The following resolution was voted:

“Be it resolved that the voters here assembled be recorded as strenuously opposed to the order of the N. Y. N. H. and Hartford Railroad as of effect this day, closing the Egypt Railroad Station to the further sale of tickets and that the Moderator be requested to appoint a Committee to appear before the officials of said Railroad Company to protest this order and if necessary to appear before the Board of Public Utilities in further protest, representing that this curtailment of service will seriously inconvenience not only those of our citizens now using this Station but also many of the Summer resident commuters and will act as a deterrent to the further growth of this fine residential community.”

Committee:

GEORGE GRAUER, Chairman,
CHARLES A. KANE,
EMMETT PISHON,
HAMILTON B. RENCURREL,
KENMURE MOFFATT.

TOWN CLERK'S REPORT

The following resolution offered by James W. Turner was adopted unanimously:

"Whereas the hand of death has this day removed from the roll-call of our citizens, Ansel F. Servan who in the course of a long and useful life had served this Town as Selectman and in other civic capacities, be it resolved that the citizens here assembled record their appreciation not only of the faithful and efficient public service rendered by him, but also of the fine example of citizenship his life among us has reflected; that our sincere sympathy be extended to Mrs. Servan in this her hour of desolation.

The following resolution submitted by Vera L. Wilder was ruled out of order by the Moderator:

"Resolved: — That we the citizens of Scituate in town meeting assembled, realize that a serious fire hazard exists in the Jenkins and the Hatherly Schools, and whereas this hazard is of long standing and has been called to our attention many times of late and no specific action has been taken to remedy the condition, we do hereby direct that the proper officials order installed therein immediately such complete and proper sprinkler systems as are necessary to safeguard our children, funds for same to be taken from any less necessary items in the school budget and or use any money available or that may be made available from any other source.

The meeting adjourned March 8, 1939, at 9:45 P.M.

ATTEST: WILLIAM M. WADE,

Town Clerk.

SPECIAL TOWN MEETING

July 31, 1939

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs held at the Scituate High School Auditorium in said Scituate on Monday the 31st day of July, 1939, at 8 o'clock P.M.; said meeting was called to order by Moderator Dennis H. Shea.

The Warrant was read by Town Clerk William M. Wade.

Tellers appointed by the Moderator and sworn to their duties by the Town Clerk were: C. Harry Driscoll, J. George Vollmer, Kenmure W. Moffatt, Eugene H. Lane, George F. Hennigan.

ARTICLE 1.

To see if the Town will authorize the allotment of \$1,000.00 from the funds raised under Article 42 of the Town Meeting of March 6, 1939, for the Town's share of costs of Federal Projects, to be used as the Town's share of additional costs in the completion of the North Scituate Recreational Field, more specifically known as project 16,559, or act thereon. —Selectmen.

VOTED: That the Town authorize the expenditure of a sum not to exceed \$1,000.00 to be used as the Town's share of costs in the completion of the Playground Project at North Scituate, said expenditure to be taken from the appropriation made at the Annual Town Meeting for Federal Projects.

Unanimous vote.

ARTICLE 2.

To see if the Town will vote to raise and appropriate or transfer from any available funds, the sum of \$10,000.00 to cover an overdraft in the appropriation for the removal of snow amounting to \$8944.63 and to provide the sum of \$1055.37 for further snow removal costs for the remainder of the year, or act thereon. —Highway Surveyor.

TOWN CLERK'S REPORT

VOTED: That \$10,000.00 be raised and appropriated under this article and that a committee of five composed as follows be appointed:

Chairman Board of Selectmen
Chairman Advisory Board
Highway Surveyor
Edward P. Breen
Matthew L. Brown

This Committee to make a study of the complete snow removal requirements of the Town, and report its findings and recommendations at a future Town Meeting.

ARTICLE 3.

Will the Town vote to raise and appropriate an amount of money not to exceed fifteen hundred dollars (\$1500) for the purchase of a light tractor to be used in plowing snow from sidewalks and other highway purposes.

—Highway Surveyor, C. M. Wagner.

VOTED: To indefinitely postpone.

ARTICLE 4.

Will the Town vote to instruct its Highway Surveyor to discontinue the practice which has built up over a period of years of removing at Town expense snow from private property.

—Advisory Board, Philip L. Schuyler, Chairman.

VOTED: To indefinitely postpone.

ARTICLE 5.

To see if the Town will raise and appropriate the sum of \$150.00 to provide 30 additional regulatory traffic signs, or act thereon. —Selectmen.

VOTED: To raise and appropriate \$150.00.

ARTICLE 6.

To see if the Town will raise and appropriate or transfer any part thereof from available funds a sum of money not to exceed one half the amount appropriated at the annual Town Meeting of March 6, 1939, under Article 33 for Chapter 90 construction, for the maintenance of roads within the Town, in conjunction with the State and County, or either of them, in lieu of the appropriation made for Chapter 90 construction and to rescind the appropriation made for said construction or take any action relative thereto. —Selectmen.

VOTED: That the Town rescind all action taken under Article 33 of the Annual Town Meeting of March 6, 1939, except so much of said Article as referred to the raising of \$215.00 for land damages; and that the Town now raise and appropriate the sum of \$1,247.67 and that the sum of \$627.33 representing an unexpended balance from the construction of Henry Turner Bailey Road be transferred to make up a total appropriation of \$1,875.00; said sum to be used in conjunction with such sums as may be contributed by the County of Plymouth and the Commonwealth of Massachusetts to be used to provide for the Town's share of extra drainage cost incurred under the contract for Gannett Road of 1938 and for the further improvements of roads.

VOTE: Yes, 100; No, 3.

ARTICLE 7.

Will the Town raise and appropriate the sum of \$1,000.00 for repairs and improvements of the Community Hall located at the junction of Clapp Road and Cedar Street, or act thereon.

—Mount Hope Improvement Society, by May S. Merritt, Secretary.

VOTED: To raise and appropriate \$1,000.00 for repairs and improvements.

TOWN CLERK'S REPORT

ARTICLE 8.

Will the Town vote to accept the provisions of Chapter 3 of the Acts of 1939 making the term of office of the Tree Warden three years, beginning at the next Annual Election? —Selectmen.

VOTED: To accept provisions of Chapter 3 of the Acts of 1939 making the term of office of the Tree Warden three years, beginning at the next Annual Election.

ARTICLE 9.

To see if the Town will accept the layout of the Selectmen as on file at the Office of the Town Clerk for a widening on the Southerly side of First Parish Road near the Norwell Town Line for the purpose of constructing a turning-place for vehicles, and raise and appropriate the sum of \$25.00 for land damage and the sum of \$1,000.00 for the cost of necessary construction, or act thereon. —Selectmen.

VOTED: To accept layout and raise and appropriate \$25.00 for land damage and \$1,000.00 for the cost of necessary construction.

Yes, 71; No, 43.

The meeting adjourned at 9 o'clock P.M.

Attest: WILLIAM M. WADE,
Town Clerk.

SPECIAL TOWN MEETING

October 16, 1939

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs held at the Scituate High School Auditorium in said Scituate on Monday the sixteenth day of October, 1939, at 8 o'clock P.M.; said meeting was called to order by Moderator Dennis H. Shea.

The warrant was read by Town Clerk William M. Wade.

Tellers appointed by the Moderator and sworn by the Town Clerk were: C. Harry Driscoll, Eugene H. Lane, D. Allen Killeffer, Mary W. Murrill.

ARTICLE 1.

To see if the Town will vote to make available for general shore protection the sum of two thousand two hundred and fifty-four dollars and forty-seven cents (\$2,254.47) provided under Article 61 at our Annual Town Meeting held March 6, 1939. Said sum to be spent in conjunction with such additional money as the State Department of Public Works may authorize, or act thereon. —Selectmen.

VOTED: That the Town authorize the transfer of the appropriation of \$2,254.47 provided for under Article 61 of the Annual Town Meeting of March 6, 1939, in order that the same be made available for general shore protection and that said sum be expended by the Department of Public Works in conjunction with such additional money as said Department may authorize for shore protection in the Town of Scituate.

Yes, 128; No, 1.

TOWN CLERK'S REPORT

ARTICLE 2.

To see what instructions the Town will vote to give their Selectmen or other officials relative to the discontinuance of the railroad service, or act thereon. —Selectmen.

The following resolution was offered by Town Counsel Vernon W. Marr and was unanimously accepted:

"That railroad passenger service is indispensable to the welfare of this community and necessary to transport the large number of persons now using trains to and from the four Scituate stations in winter and summer; that the proposal to discontinue all eighteen daily trains between Boston and Greenbush is unreasonable, unwarranted, unsound, ill-conceived and illogical without first giving trial to somewhat curtailed train service and seeking thereby profitable operation instead of abandonment of the line; that the citizens of Scituate demand fair play in the form of some continuance of passenger trains to accommodate year-round commuters and summer residents; that the Town of Scituate petition for careful consideration of our needs by the Railroad Trustees, by the Special Commission of the Commonwealth, and by any other regulating bodies having jurisdiction."

On motion of John F. McCormack it was voted that a committee of twelve be appointed by the Moderator to protect the interests of the citizens relating to the entire railroad situation.

The meeting adjourned at 9:15 P.M.

Attest: WILLIAM M. WADE,
Town Clerk.

MARRIAGES—1939

January 5, at Scituate, Louis Douros and Theodora Pappas, both of New York City, married by Allan D. Creelman, Clergyman.

January 12, at Hull, Salvatore Lombardo of Hingham and Rita Servant of Scituate, married by Frank P. Richardson, Justice of the Peace.

1911 Nov. 8	Dorothy Pauline Clark	George and Emily Clark	Cooper

TOWN CLERK'S REPORT

Parents, be sure to record the birth of your child with given name in full.

READ THE LAW!

"Parents, within forty days after the birth of a child, and every householder, within forty days after a birth in his house, shall cause notice thereof to be given to the clerk of the town where such child is born." General Laws, Chapter 46, Section 6.

SOME OF THE MANY REASONS WHY BIRTHS SHOULD BE RECORDED

To establish identity.

To prove nationality.

To prove legitimacy.

To show when the child has a right to enter school.

To show when the child has the right to seek employment under the child labor laws.

To establish the right of inheritance to property.

To establish liability to military duty, as well as exemption therefrom.

To establish the right to vote.

To qualify to hold title to, and to buy and sell real estate.

To prove the age at which the marriage contract may be entered into.

To establish the right to public office.

To make possible statistical studies of the health conditions.

Your co-operation to the end that all births may be properly recorded will be greatly appreciated.

Blanks for returns of births will be furnished upon application to parents, householders, physicians, and registered medical offices as provided in Chapter 46, Section 15, General Laws.

Attest: WILLIAM M. WADE,
Town Clerk.

TOWN CLERK'S REPORT

DEATHS REGISTERED IN SCITUATE IN THE YEAR 1939

Date	Name of Deceased	Age		Cause of Death	Names of Parents

WILLIAM M. WADE,
Town Clerk.

PARK COMMISSIONERS' REPORT

REPORT OF PARK COMMISSIONERS

Board of Selectmen,

Gentlemen:

The Department respectfully submits for your consideration a resume of their work during the past year.

After carefully considering all of the work necessary for the proper operation of our department, we started to work on the various parks in the town with a view to improve them as much as possible to the best of our ability.

The comfort station at Peggotty Beach was shingled, also the Scituate Light House was white washed and the trimmings on the house were painted. At Minot, fifty new rails were put along the sea wall.

We wish to thank the Women's Betterment Association for the bubbler that was installed in Hollet Island Park and also the Garden Club for tulips which were received from Mrs. Wolfe and were set out on the Common.

We are very thankful for the fine amount of co-operation we have received from the townspeople during the past year.

Respectfully submitted,

ERNEST F. LITCHFIELD, Chairman,
JOHN F. DALBY,
GEORGE V. YENETCHI.

REPORT OF THE FIRE DEPARTMENT

Board of Selectmen

Town of Scituate

Massachusetts

I respectfully submit a report of the Scituate Fire Department for the year ending December 31, 1939.

APPARATUS:

- Engine No. 1. White Truck—purchased May 1923
- Engine No. 2. White Truck—purchased May 1926
- Engine No. 3. GMC Truck—purchased July 1928
- Engine No. 4. White Truck—purchased March 1925
- Aerial Ladder Truck (Seagraves) purchased October 1937
- 1 Fire Alarm Truck—purchased 1931
- 1 Department Car—purchased 1937

All of these pieces of apparatus have been properly taken care of; repaired, painted and give the appearance of trucks in excellent condition, but because of their age may be a source of expense for repair and additional maintenance cost, with the exception of the Aerial Ladder Truck which is virtually new and is a very valuable piece of apparatus to the Department.

FIRE DEPARTMENT REPORT

FOREST FIRE TRUCKS:

- Truck No. 1. Ford, purchased 1929—rebuilt 1938
Truck No. 2. Ford, purchased 1929

HOSE:

- 4800' 2½" hose, purchased 1928-37, good condition, average life 6½ years
750' 2½" hose, fair condition, of which 350' has been discarded, average life 7½ years
2300' 1½" hose, good condition, average life 2 years.
800' 1" Booster hose, good condition
850' 1" Forestry hose, poor condition

Good practise requires 1,000 feet of 2½ inch hose, to be carried on each pumper and at least the same amount in storage for re-load after a fire. This means that we require 2,800 feet of 2½ inch hose to put the department in proper condition.

We feel in regard to this matter that we should purchase not less than 1,000 feet of 2½ inch hose and 500 feet of 1½ inch hose.

FIRE ALARM SYSTEM:

We have 39 Fire Boxes, 54 miles of circuit, together with all the necessary equipment for a department of our type, with Alarm Signals in four sections of the town.

In connection with the Fire Alarm System, it would appear reasonable to install not less than 5 new Fire Alarm boxes in the Sand Hill area, which is thickly inhabited in summer and has not an adequate number of Fire Alarm boxes.

FIRE DEPARTMENT BUILDINGS:

- Station No. 1. Brook Street House, rebuilt 1937, good condition.
Station No. 2. Humarock House, rented wooden building.
Station No. 3. North Scituate Corners, wooden building, fair condition.
Station No. 4. Minot Beach, brick building, erected 1925, fair condition.

It will be necessary to make repairs on North Scituate Station, principally, painting exterior and interior.

On Minot Beach House, to replace present doors which are in poor condition, with either new doors of the same type, or new roller door type.

Brook Street House will require some exterior painting.

PERSONNEL:

3 Fire Engineers

Permanent men:

Deputy Chief

Captain

Lieutenant

Supt. of Fire Alarms

5 Drivers

31 Callmen

5 Volunteer Callmen at Humarock

FIRES:

Your department has answered 139 calls, of which 3 were false alarms and 66 were grass or forest fires.

TOTAL FIRE LOSS SUFFERED:

Total fire loss (based on assessed value)	\$13,306.00
Assessed value of property	\$103,950.00
Amount paid by Insurance Co., (including contents)	\$20,356.00

FIRE DEPARTMENT REPORT

FIRE PREVENTION:

We have checked all power oil-burner permits and oil storage.

Have inspected all public buildings or buildings used by the public.

We have taken care of fire extinguishers in all public buildings.

We have had fire drills held at schools, and, from the time the alarm was sounded, the children were out of the building in the following time:

Hatherly School	50 seconds
Jenkins School	60 seconds
High School	50 seconds

These practise drills indicate that the principals in charge, have given the children excellent training and assures the safety of children in case of fire.

Your engineers have been endeavoring to obtain lower insurance rates for the inhabitants of the town, by a reclassification of insurance.

In the month of July, your department was inspected by the New England Fire Insurance Rating Association, who inspected and had operated, every piece of apparatus; examined all equipment; went over all written records; went over all fire alarm equipment, fire boxes and circuits and found there had been an improvement in the standing of our department, which permits the following change in insurance rates.

“We are graded as Fifth Class for specifically rated property under the the Analytic System of Schedule Rating, rather than the classification of Sixth. A revision of rates is now in effect which shows a 5 per cent saving on property insurance premiums and 3 per cent saving on content insurance rating.”

In connection with their examination and report, they recommend that the town adopt a building code. Regulating installation of electric wiring, same to be under an inspector.

We believe that it appears impossible to receive a rating which would place our town in the same class of other adjoining towns as to rates of fire insurance on dwellings, without a large expenditure of money.

We appreciate the co-operation of the citizens in all matters pertaining to the Fire Department and the faithful services given by the men of the Fire Department.

FIRE WARDEN REPORT

REPORT OF THE FIRE WARDEN

To the Board of Selectmen:

The Forest Fire Department is pleased to report that we have met with no serious fires and that as far as possible have removed all known fire hazards under our control.

We would suggest that all rubbish and all burnable debris be burned in an incinerator and that same be placed as far as possible from any building.

We would also request that a permit, for which there is no charge, be obtained from the Fire Wardens for any grass or brush burning and the reasonable regulations as set forth in the permit be observed.

In our opinion, these above requests may prevent fires and will be of great assistance to our department.

A. K. WILLIAMS,
Forest Fire Warden.

REPORT OF THE HIGHWAY DEPARTMENT

February 2, 1940.

To the Citizens of the Town of Scituate:

A resume of the activities of the Highway Department during the year ended December 31, 1939 is herewith rendered for your consideration and approval.

The yearly increase in the population of the Town of Scituate and the subsequent increase in the number of motor vehicles using the Town's streets has contributed in a large degree to the duties of the department in the following instances: (1) the construction and maintenance of newly accepted streets, (2) the elimination of dangerous corners and narrow curves on old lay-outs, and (3) the general repairs and reconditioning which must be done to keep existing streets suitable for the convenience and safety of vehicular traffic.

The following is a report of the work performed during the past year showing the various items and including the detailed account of streets upon which operations were conducted of a major nature.

Rebuilding

The reconstruction of the Town highways is a problem encountered frequently and requires much detailed study and planning. The roads of twenty-five or thirty years ago which have been maintained and repaired year after year down to the present time were built to provide suitable passageway for the small number of horse drawn vehicles then in use, and consequently are not suitable in this age of high-speed traffic and heavy trucking. Grades must be changed, new curves designed, sharp corners and steep hills eliminated and proper drainage provided. A list of streets upon which reconstruction work was performed together with the type of surface follows:

HIGHWAY DEPARTMENT REPORT

STREET	SURFACE
Greenfield Lane	Macadam
Cornet Stetson Road	Macadam
Damon Road	Macadam
Mordecai Lincoln Road	Macadam
Orchard Road	Tar and Gravel
Gannett Street	Bituminous Concrete
Cliff Avenue	Tar and Gravel

The rebuilding done on the above streets was planned according to modern engineering methods with the view in mind of furnishing a smooth, safe surface for the travel of pleasure vehicle owners and in providing a durable roadway which will withstand the pounding of heavy truck traffic.

Drainage

The drainage situation remains to be a major problem to the Highway Department and a considerable amount of the funds provided by the annual appropriation was used in the expansion of drainage systems. Streets upon which drains have been installed during the year are listed below.

Clapp Road	Hatherly Road
Edward Foster Road	Elm Street
Curtis Road	Mitchell Avenue
Cornet Stetson Road	Egypt Beach Road
Beaver Dam Road	Tilden Road
Turner Road	

Drainage is a necessary adjunct to highway construction and must be taken into consideration in rebuilding projects and new construction.

Surface Treatment

Over fifteen miles of hard-surfaced streets received an application of tar mixed with sand or pea stone during the last twelve-month period. Streets of this nature require a road oil treatment every three years in order to preserve the surface and extend the useful life.

Bituminous Resurfacing and Patching

On Marshfield Avenue in the Humarock section, a great amount of difficulty has been experienced in providing a stabilized surface, due to the nature of the base. Eighteen hundred eighty square yards of bituminous concrete cushion was applied and has given excellent results to date. This street is a direct approach to Humarock Beach and it is believed the present surface will serve for many years to come.

A great many of the streets throughout the Town have been in use for a good number of years and the constant thawing and freezing occurring in the winter months cause holes and breaks to appear. Heavy traffic breaks through weak spots in the wearing surface and streets are being constantly dug up by gas, electric and water companies. These bad places are immediately repaired with bituminous concrete patching material by the maintenance crew of the Highway Department who are continually on the lookout for these and other danger spots.

Street Cleaning

Over a thousand tons of sand were used as a safety measure on the slippery streets during the winter of 1938 and 1939. In the Spring, this sand was cleaned off the streets and removed from the gutters and catch basins where large quantities had deposited. The purchase of a rotary street brush which was attached to the front of the Town's portable compressor helped to keep the cost of this street clean-up work at a minimum.

HIGHWAY DEPARTMENT REPORT

Federal Projects

Highway reconstruction and improvements under the Federal Relief Program including such work as gravel-asphalt and macadam surfacing, the installing of curbing, guard rails and retaining walls together with the necessary ditching, grading and otherwise improving of the roadsides has been in continuous operation throughout the year. A list of streets which include hard-surfaced, bituminous, gravel or macadam, together with the type of improvement done on each is herewith presented.

STREET	IMPROVEMENT
Old Oaken Bucket Road	Drain
Garden Road	Rebuilt
Hawley Road	Rebuilt
Jay Road	Rebuilt
Irving Road	Rebuilt
Longley Road	Corner Rebuilt
Fay Road	Rebuilt
Norwell Avenue	Resurfaced
First Avenue	Resurfaced
Oceanside Drive	Resurfaced

Snow Removal

Probably one of the most difficult tasks confronting Highway Departments in this section of the country is the elimination of snow and ice from the highways during the winter months. The increase in winter driving makes it necessary that careful attention be given to the condition of the surface of the streets after a fall of rain, snow or hail. After snowstorms, the roads must be plowed as quickly as possible in order that traffic may not be impeded and also, the snow piled up in the business sections must be removed so as to allow business to continue normally. The use of up-to-date equipment together with the application of the knowledge gained by trial and practice in past years has placed the Highway Department in a position to cope with all snow removal problems in a speedy and satisfactory manner.

During the last few years, important advances have been made in the methods used in contending with the hazard which is always present in the event of hard-packed snow and ice being on the streets and sidewalks. The adoption and practice of these modern methods accomplishes the desired result of making safe travel for both pedestrians and motorists.

New Equipment

Through the use of special appropriations voted at the annual Town meeting, the acquisition of two new heavy-duty machines for road building work was made possible. A No. 66 Austin Western Motorgrader, a new type of equipment in the Highway Department, was bought in April and has proven invaluable in the variety of services to which it may be utilized. The small "Caterpillar" tractor, after a number of years of useful service, was turned in as a part of the purchase price of a modern tractor of the same make. In addition to the many benefits rendered by these machines in road construction and maintenance, they are also used in keeping the streets open during the winter season.

Miscellaneous

The buildings recently acquired in Egypt were painted and repaired throughout. This property has proven most valuable in the garaging of town equipment and in the provision of comfortable working quarters when overhauling machinery and making repairs during inclement weather.

PEIRCE MEMORIAL LIBRARY REPORT

The removal of protuding sections of ledge on Border Street has eliminated a dangerous traffic condition. The blasting operations were performed in the early part of the year in order not to interfere with summer traffic.

Other work performed by the Highway Department includes such items as the building of retaining walls, maintaining of guard rails, resurfacing of sidewalks, painting of street traffic lines and the repairing and painting of numerous street signs.

Conclusion

The trend in late years is to better highways — and the main objective of the Highway Department has been to produce the best roads attainable with the least expense to the taxpayer. (In 1939, the expense was about fourteen cents out of each dollar of taxes.) Common and skilled labor was secured entirely from local residents which alleviated greatly the burden of Town unemployment, and all expenditures were closely watched to safeguard the funds provided for the care and maintenance of highways. Honest criticism and suggestions have been welcomed and this opportunity is taken to express appreciation to all who have aided in the functions of this department.

Respectfully submitted,

Highway Surveyor.

REPORT OF PEIRCE MEMORIAL LIBRARY

The Trustees of the Peirce Memorial Library submit the following report for the year ending December, 1939, and express their thanks to the citizens of Scituate for their assistance and co-operation.

Books in circulation 1938	17,940
Books in circulation 1939	21,116
Gain	3,176
Magazines in circulation 1938	1,708
Magazines in circulation 1939	1,957
Gain	249
Books borrowed from State Library	92
Books purchased in 1939	616
Books given in 1939	41
Books rebound in 1939	32
Magazines subscribed, etc., in 1939	22
Number of active card-holders 1938	404
Number of active card-holders 1939	526
Gain	122

The financial report, covering the library expenses found on another page of this book, covers only the actual money appropriated by the town. The trustees appreciate the additional sum received this past year from a part of the town dog tax, but feel that the townspeople should know that the entire annual amount received from the town does not cover the entire running expenses of maintaining the library.

Respectfully submitted,

KATHERINE ELLIS, President.

ALLEN MEMORIAL LIBRARY REPORT

REPORT OF THE ALLEN MEMORIAL LIBRARY

To the Selectmen of Scituate:

Everything possible is being done to increase the usefulness of the library. It has been necessary to make many repairs to the building, originally of splendid construction.

The library hall has been let to the Veterans of Foreign Wars. It was necessary to install a new modern heating system. This has worked out very well. The library proper has been put in a more useable condition and the result is most satisfactory.

Extensive pruning has been done of old and out dated books, and valuable, worn books are being repaired. This is under State Supervision. This gives additional space for new literature.

The co-operation and valuable aid of the various committees have been most helpful.

It will be the effort of the Directors to make the library increasingly useful.

Respectfully submitted,

T. B. ALEXANDER,

President.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

North Scituate, Mass.

Board of Selectmen,
Scituate, Massachusetts.

Gentlemen:

My annual report for the year ending December 31, 1939 is as follows:

Devices sealed for use in trade totaled five hundred and ninety-three. Adjustments made were eighty-two. Condemned devices unfit for use, were only eight.

Numerous inspections were made of various package goods, weights of merchandise, etc.

Licenses of peddlers were checked and many peddlers not having proper licenses, were forced to leave Town.

Through the fine co-operation of our Town Clerk, William M. Wade, the transient vendor problem was well taken care of.

Sealing fees charged for 1939 amounted to \$95.20, adjusting charges totaled \$4.18. Fees collected for work done during 1938, \$3.44. Total outstanding December 31, 1939, \$2.50. I paid to the Town Treasurer during 1939, \$100.22.

Respectfully submitted,

EUGENE H. LANE,

Sealer of Weights and Measures.

BOARD OF REGISTRARS REPORT

REPORT OF THE BOARD OF REGISTRARS

Meetings for registration of voters in 1939:

February 17th at North Scituate
February 20th at Scituate Harbor
February 21st at Town Hall

A meeting was held on February 9th at the Town Clerk's Office for certification of names on nomination papers.

The Board made a house to house canvas as required by Chapter 440 of the Acts of 1938, an Act transferring certain duties of local assessors relative to the listing of inhabitants to Registrars of Voters.

Registered voters in the Town of Scituate on December 31, 1939:

Males	1,422
Females	1,392
	2,814

There were 110 names added to the voting list in 1939 by means of registrations while 73 names were dropped because of deaths and change of residence, resulting in a gain in registration of 37.

Respectfully submitted,
BERTHA L. TURNER,
J. EDWARD HARNEY,
DANIEL J. QUEENEY,
WILLIAM M. WADE,

Board of Registrars of Voters.

REPORT OF THE CLEAN UP COMMITTEE

Board of Selectmen,
Scituate, Massachusetts.

Gentlemen:

Your Committee believes that the service rendered to the Town through us is important and should be continued, but that some changes should be made.

This activity was inaugurated as a health measure to enable those residents who had no private dump facilities and could not transport their rubbish to the Town dump, to dispose of insect breeding articles such as empty cans, bottles, dishes, cooking utensils, etc. This has gradually grown until, in addition, we were asked to take such articles as old baby carriages, sewing machines, old stoves, bed springs, mattresses, auto parts, furniture, piles of brush cuttings, lawn rakings and finally shingles and roofing paper from a remodeling job.

The worst offenders seem to be the well-to-do who have plenty of motor transportation of their own.

We removed fifty-nine truckloads of material on May 13, 1939.

The amount of garbage and rubbish dumped along the roadside seems to have not been reduced at all. We recommend to our Police Department a definite

CLEAN UP COMMITTEE REPORT

follow-up in this practice with prosecution to the full extent of the law of offenders so as to make an example, thereby stopping this disfiguration of our town and eliminate a health menace.

We also recommend to our successors the consideration of changing this service to a later date and the possible need of an additional day in midsummer, thereby serving our summer population more fully, as well as a specification of what will be removed at Town expense.

Our Board of Health co-operated with us fully and greatly added to our results.

Respectfully submitted,

PHILIP L. SCHUYLER, Chairman,
MRS. LOUISE ROTHERY,
REV. ALLEN CREELMAN,
RALPH LITCHFIELD,
HAROLD BATES,

Clean Up Committee.

REPORT OF

SCITUATE PUBLIC HEALTH NURSING SERVICE

The Scituate Public Health Nursing Service has held ten regular meetings with an average attendance of fourteen members.

In January 1939, the Finance Committee purchased a new Plymouth car for the nurse. At the annual Town Meeting in March, it was voted that the Town furnish \$1280, in addition to the nurse's salary, to cover cost of clerical assistance and transportation necessary in connection with the nurse's work. Miss Helen Chicko has been doing this work, thus giving Miss O'Donnell needed time for her duties to the Board of Health, Board of Public Welfare, School Committee, and Nursing Service.

During the year, the By-laws have been revised and new copies provided for each member.

A very successful Membership Drive was carried out under the direction of Mrs. James Harris, netting the organization a substantial sum. Under the able chairmanship of Mrs. Robert Tilden, the T.B. Seal Sale was conducted this year. Of the Seal Sale receipts 5 per cent. goes to National Headquarters to help pay for material furnished, 10 per cent. to State Headquarters, 35 per cent. to Plymouth County, and 50 per cent. is returned to us to be used for pre-school clinics and conferences.

The work of the organization has followed the usual lines: pre-school, dental, and the customary Well-baby clinics. During the summer a tonsil clinic was conducted at Cohasset Hospital with Dr. Cowan surgeon, assisted by Dr. Alexander. Twenty cases were cared for at an expense of \$20.00 per child, of which some paid in full, others a part, others none.

The president and nurse have been sent as delegates to several conferences during the year, bringing to the members splendid reports of the work being done along the lines of Public Health work.

Miss Anna Foley, of Brockton, was the guest speaker at the November meeting, describing fully the work of the Plymouth County Health Association, stressing the value of the audiometer in the school.

SCITUATE PUBLIC HEALTH NURSING REPORT

A program committee of executive board members has been chosen to furnish speakers for the meetings. It was voted to hold the Annual Meeting with the P. T. A. as guests at the Scituate High School. The Community Federation of Boston is to furnish the program with the local workers present.

Thanks are due to all who have helped so generously with transportation and those whose gracious hospitality has made the meetings so pleasant.

A year ends, and we start forth on a new one with renewed conviction that health education and work in prevention of disease are of the greatest importance in our program of Public Health Service.

Respectfully submitted,

VERA L. WILDER,
Secretary of Nursing Service.

ANNUAL FINANCIAL STATEMENT OF THE SCITUATE PUBLIC HEALTH NURSING SERVICE

Receipts

January 1, 1939—Cash on hand	\$ 942.34
Town Payment toward expense	500.00

	\$2,312.37

REPORT OF THE BOARD OF HEALTH

To the Citizens of Scituate:

The Report of your Board of Health varies but very little from year to year, yet we are desirous to have the citizens of our town familiarize themselves with some of the problems that confront us from time to time. The matter of health and health conditions is one of vital importance and through the cooperation of every individual we can put into practice those health principles that make for the betterment of all. Therefore we seek your cooperation and trust that as time goes on we can increase our activities and eliminate some of the problems that now confront us; although not of a too serious nature at the present time, yet they nevertheless need attention when more money is available.

Collection of Garbage

The collection of garbage increases every year and at present it seems as if we may be forced to put on additional collections during the late fall and winter, but until such time as more money can be obtained it must remain with two collections per week in early Spring, three during the summer and early Fall and one during the winter.

Town Dump

The use of the Town Dump increases every year and it has been kept in a condition that reflects credit to the Town. The easy access to the dump is of great advantage. The accumulations around the back yards are no longer seen, which proves that the individuals are disposing of rubbish frequently. This in itself reduces the spread of disease.

Clinics

The school Dental Clinics have been held regularly during the School year and under the reports of the Health Nurse and School Dentists you will find what work has been done and the recommendations necessary. Your Board highly recommends the continuance of these clinics.

Well Baby Clinic

The Well Baby Clinic has been held as in former years under the direction of the Health Nursing Service. Favorable results have been obtained and it is highly recommended to continue this clinic and to enlarge its scope when possible.

Antitoxin Clinic

It has been recommended by the State Department of Health that clinics for immunization against diphtheria be held in as many towns as possible during 1940 and your Board will arrange with the Nursing Service to set a date for the holding of this clinic. We trust the parents will cooperate and have their children immunized.

Inspectors

The Animal Inspector, the Milk Inspector, and the Inspector of Plumbing, also the Meat and Slaughtering Inspector have all rendered separate reports and under those headings you will find the work covered by them.

Vital Statistics

The records of marriages, deaths and births, also burials, termed as Vital Statistics, are kept by the Town Clerk, and under his report can be found the information covered by this item.

Roadside Cleaning

Although we have been able to decrease this work to some extent, yet we are sorry to report that there are many people who have little regard for the keeping of our road sides free from rubbish of all types. The worst offences seem to come in early Spring and Fall. We make a strong appeal to our townspeople and our summer visitors to help in keeping the roadsides free from health menaces and to report any violations that we may be able to bring to justice those who are responsible.

Care of Beaches

We are called upon many times during the summer months to remove from beaches, kelp, dead fish and other waste brought in by the tides and after a storm. This, if left on the beach, would cause a very serious health menace. The past summer was very little worse than all former years and the expenditure was kept at a minimum. The results warrant the expenditure each year to keep good clean beaches for bathing.

Town Free Parking Spaces

Comfort Stations are maintained at all parking spaces with the exception of Humarock. Some action should be taken by our Selectmen to install a Comfort Station at this beach.

Musquashicut Pond

During the early part of the summer complaints were numerous and the State Department was called in several times to assist in determining the cause of a health nuisance existing at that point. The peculiar type of fly that was breeding there was causing great annoyance to those living near and around the pond. Following the recommendations of the State Department of Health, your Board purchased a number of ducks and also stocked the pond with such fish as were available and by these methods were able to reduce the nuisance to a great extent. It will again be necessary to secure an appropriation sufficient to carry on the work recommended in an attempt to abate this health menace.

All complaints properly brought before your Board have been investigated and satisfactory settlements made.

During the past year we have had a slight epidemic of Scarlet Fever, many of the cases were very mild, yet the epidemic could have been very serious, but was kept well in check by the cooperation of the School Doctor, the Health Nurse, and other agencies. We make a strong appeal to all parents to cooperate more fully than has been done in some cases. Where there has been a contact with disease do not hesitate to call your family doctor for advice; avoid contact with those in quarantine, report any violations of quarantine; call upon the Health Nurse for advice and assistance. Please assist all those who are doing everything in their power to check this and all contagious diseases.

BOARD OF HEALTH REPORT

All inspectors under our jurisdiction have carried on their work in a highly satisfactory manner and the Board takes this opportunity to thank them for their assistance and for the success they have attained in their work.

The cooperation of the School Doctor and Nurse has been very satisfactory. All cases brought to our attention have been reported to them. The careful check-up and follow-up of all cases has been highly satisfactory and has been instrumental in checking the spread of disease.

The cooperation of all heads of departments and Town officials has been very freely given and we take this opportunity to again thank them for the valuable assistance they have given us when called upon.

Respectfully submitted,

WALTER L. ENOS, Chairman

GEORGE H. OTIS,

DR. WILLIAM P. GROVESTEIN,

Board of Health.

REPORT OF THE PLUMBING INSPECTOR

Gentlemen:

In the year 1939 there were 45 permits issued and inspections made for the installation of plumbing.

With the ever-increasing number of water takers from the public supply it is imperative that plumbing arrangements within the home be properly installed to prevent the possible cross connection between waste and supply which might result in contamination of the supply, resulting in disease.

The situation in regard to the disposal of sewage was not as troublesome this year on account of less rainfall, but the Town must look forward to some adequate sewage disposal system in certain places to insure the health of the community.

Respectfully submitted,

PHILIP S. BAILEY, Inspector,

W. H. HARNEY, Assistant Inspector.

REPORT OF THE INSPECTOR OF ANIMALS

To the Board of Health, Scituate, Mass.

I wish to report inspection of all cattle, goats, swine, all found in good condition. Have quarantined all dogs that have bitten people. No signs of Rabies.

CHARLES O. CHASE,

Inspector of Animals.

BOARD OF HEALTH REPORT

REPORT OF MILK INSPECTOR

Board of Health,
Scituate, Mass.
Gentlemen:

I have issued fifty-three milk licenses, five oleomargine licenses, two licenses for the manufacture of ice cream and one license for the pasteurization of milk.

We have two local people manufacturing ice cream in Scituate and one milk producer has started a pasteurization plant.

There is a state wide movement to pasteurize all milk and there are several cities and towns in Massachusetts that sell nothing but pasteurized and certified milk.

We are very fortunate in this Town as the raw milk produced here is above standard and the producers are very careful to abide by all the milk rules and regulations, showing their willingness to cooperate in every way possible to produce a clean milk.

Samples of raw and pasteurized milk have been taken and tested at regular intervals by your Town and State inspectors.

Respectfully yours,

GEORGE H. OTIS,
Milk Inspector.

REPORT OF THE INSPECTOR OF SLAUGHTERING

Feb. 15, 1940

To the Board of Health, Scituate, Mass.

I have inspected all animals slaughtered in the town of Scituate and with no exceptions found them perfect.

Respectfully,

EDWIN L. MERRITT,
Inspector of Slaughtering.

REPORT OF SCHOOL DENTIST

Board of Health and Superintendent of Schools
Scituate, Massachusetts
Gentlemen:

I submit the following figures as a summary of the work accomplished in the Hatherly and Jenkins Schools from January 1939 to January 1940:

BOARD OF HEALTH REPORT

Fillings in Permanent Teeth	425
Fillings in Temporary Teeth	241
Permanent Teeth Extractions	5
Temporary Teeth Extractions	73
Teeth Treated	58
Cleansings	185
Completed Cases	184

Prospects are very bright for several 100% rooms at the Hatherly School before June. That means that every child in the room has been completed either at the clinic or by the family dentist.

This past year every child in the two sixth grades were given a chance to be completed at the clinic before passing into Junior High.

Respectfully submitted,

WILLIS B. PARSONS, D.M.D.

School Dentist.

PRE-DENTAL CLINIC REPORT

Scituate Board of Public Health

Scituate, Massachusetts

Dear Sirs:

Having completed ten mornings of Pre-School Dental Clinic, I am impressed with the vital need this clinic meets in the community, and the tremendous task and responsibility it has to cope with.

Of forty-four children examined, two hundred fifty-one defects were found within the oral cavity; a percentage far too high, and pointing to the need of an earlier approach.

Not enough parents realize what a healthy and normal mouth means to a child, or how important is the saving of deciduous teeth. More ills come from bad teeth and sick mouths in childhood, than from anything else.

If these same children could have had the benefit of clinical and radiodontic examination, together with a prophylaxis, beginning not later than the age of three, and the parent been informed of the dietary needs of the child, necessary to the building and maintaining of caries-resisting teeth, preventive dentistry could function to the end of sounder teeth at pre-school age.

Of the nineteen children treated at the clinic, nine were completed. Eighty-five deciduous teeth, and twelve permanent teeth were filled. Six treatments, one extraction, seven radiodontic examinations and nine prophylaxis were included in the work covered.

There are two points I would stress. First, that a sound and practical educational program for the parents be included and presented by the dentist, along with the clinical work, thereby giving him the opportunity of aiding the mother in the elementary principles of diet and oral hygiene; showing her, how decay in teeth, barring the influence of heredity, can be prevented; and secondly, if clinical facilities cannot be offered at the early age of three, that mothers attending the Baby Clinic perhaps, be afforded the same opportunity of such an educational program.

Yours respectfully,

JOHN F. CRIMMINS, D.M.D.

JFC:LG

REPORT OF THE
BOARD OF PUBLIC WELFARE

This department showed a considerable decrease in expenditures for Public Welfare during 1939 as we had predicted in our report of a year ago. Increased W.P.A. quotas and slightly improved business conditions accounted for this improvement. The Board has adhered to a strict policy of investigation, having in mind that our function is to be fair to both recipient and tax-payer. There have been several changes in the methods of handling Old Age Assistance and Aid to Dependent Children during the past year. We have conformed to all federal and state laws and rulings. Our accounts and records on Old Age Assistance and Aid to Dependent Children have been audited by the Government. Our same policy of detailed checking of settlements has been continued with resultant reimbursements. Our conformity to federal laws and regulations has enabled us to receive large federal grants under Old Age Assistance and Aid to Dependent Children.

At this time the Board wishes to thank all other town departments, societies, and individuals who have co-operated with us during the past year.

NATHANIEL TILDEN,
RALPH S. BROWN,
HARRY F. CLEVERLY

REPORT OF
ENGINEERING DEPARTMENT

Honorable Board of Selectmen:

Gentlemen:

The purpose of this report is to describe the work done by the Engineering Department and to explain the manner in which the money appropriated for Engineering was expended during the past year.

The Town Engineer and the assistants that he requires for both field and office work are paid, on an hourly basis for their services as rendered, from the Engineering Appropriation. All equipment and materials connected with engineering work are likewise paid for.

The engineering services rendered by this department during the year ending December 31, 1939 are listed as follows:

1. Attending hearings and viewing conditions on the ground preparatory to making layouts of unaccepted streets offered for acceptance as Town Ways.
2. Making surveys and plans for layouts of said streets.
3. Setting monuments in the ground to define the lines of streets accepted during 1939.
4. Making surveys and plans for easements for public utilities crossing private property.
5. Staking street lines for various Town Departments, public utilities and individuals.
6. Reproducing street lines and replacing monuments where monuments were destroyed.

ENGINEERING DEPARTMENT REPORT

7. Establishing definite street lines where none existed for Land Court surveys and other surveys, both public and private.

8. Locating property lines of Town property other than streets *i.e.*, cemeteries, gravel pits, parking spaces and playgrounds.

9. Attending hearings at the Massachusetts Department of Public Works relative to issues which involve the Town.

10. Appearing at the Massachusetts Land Court for protection of Town interests.

11. Making miscellaneous plans for various Town Departments; making plans and studies of proposed W. P. A. Projects for W. P. A. Officials.

12. Engineering design and supervision of construction projects, both Town and W. P. A., throughout the Town.

13. Estimating costs of various proposed improvements throughout the Town.

14. Locating details not shown on the Town Plan.

15. Acquiring information at the Plymouth Registry of Deeds relative to Town interests.

By comparative observation through each successive year, it is clearly apparent to those familiar with the administration of town government in Scituate that the various services required of the Engineering Department to satisfy the needs of the Town are constantly widening in scope; the amount of work assigned to this Department increases steadily each year.

We should regard this fact as an indication that Scituate is enjoying a healthy growth and realize that we who live here can enjoy the pleasure of being a part of a modern, progressive community.

Respectively submitted,

DANIEL F. APPLETON,

Town Engineer.

HENRY A. LITCHFIELD,

Assistant Town Engineer.

REPORT OF TOWN WPA AGENT

January 22, 1940.

To the Board of Selectmen,
Town of Scituate.

Gentlemen:

Through the co-operation of the Work Projects Administration by the allotment of Federal funds, and the Town by the appropriation of \$20,000 at its Annual Meeting in March for the purchase of materials, trucking, etc., to carry out approved work relief projects, unemployment in Scituate has been materially reduced and welfare aid substantially lightened during the year 1939.

At the beginning of the year there were 120 persons on local WPA pay rolls, including 12 men at the Hingham Arsenal project. A gradual reduction as a result of opportunities for private employment in the spring and summer brought the number down to 69 during August; from that period onward there was a

TOWN WPA AGENT REPORT

steady increase until the number reached 114 at the close of the year. The weekly average for the entire year was 95 as compared with 77 for the previous year, showing an increase of 18 over the year 1938.

During the year 1939 there were paid from Federal funds to the residents of Scituate for labor performed on WPA projects	\$53,923.90
Non-Labor	2,236.94
	\$56,160.84

Increase over the year 1938, \$14,225.66.

Value of Surplus Commodities distributed in Scituate	\$5,700.72
--	------------

Increase over the year 1938, \$1,010.32.

Following is a brief summary of the work projects operated or completed during the year 1939, those scheduled for operation during 1940, and new projects proposed and now awaiting approval for future operation:

Work Projects Started in 1938 and Operated in 1939

WP 16,475 Install a Water Main in Mann Lot Road from the Standpipe to Clapp Road. Started August 8, 1938, closed down February 4, 1939, reopened April 20, 1939 and completed July 11, 1939.

WP 16,559 Develop a Recreational Area at North Scituate. Field House, Tennis Courts and other facilities for games constructed. Started August 12, 1938 and completed December 15, 1939.

WP 17,899 Conserve Shade Trees throughout the Town. Started December 27, 1938, closed down April 30, 1939, reopened December 26, 1939. Operating January, 1940.

WP 19,509 Forest Fire Hazard Reduction Work. Under the supervision of the U. S. Department of Agriculture, Forest Service. Started November 25, 1938, closed March 24, 1939.

Work Projects Started and Operated in 1939

WP 17,264 Highway Department General Road Construction and Repairs, Drainage, etc. Blanket project. Started February 27, 1939 and operated continuously throughout the year. Operating January, 1940.

WP 17,686 Install New Filing System for Police Department. Non-Manual. Started March 31, 1939 and operated continuously for remainder of year. Operating January, 1940.

WP 18,097 Indexing and Classifying Old Town Records. Non-Manual. Supplementary to WP 15,129, starting April 25, 1938. Operating January, 1940.

WP 18,380 Control and Eliminate Leaf Feeding Pests. Started February 24, 1939. Operated until seasonal close down July 11, 1939. Reopened December 15, 1939. Operating January, 1940.

WP 18,431 Construct Fire Trails Through Woodlands. Started March 10, 1939. Closed down May 17, 1939. Expected reopening January, 1940.

WP 18,974 Prepare Record of the Graves in Scituate of Honorably Discharged Veterans of the Army, Navy or other Military Establishments of the United States. Non-Manual. Started September 26, 1939, and continued through December. Supplementary project approved. Operating January, 1940.

WP 20,319 Install Water Mains on Tilden Road and Norwell Avenue to Connect Two Main Lines in the Water System. Started October 3, 1939. Completed December 19, 1939.

WP 20,978 Improve Water Supply System. Lay Mains on Tilden Road, Hawley Road, Brockton Avenue, Cedar Street, and Front Street. Approved December 12, 1939. Operating January, 1940.

TOWN WPA AGENT REPORT

Construction Work at the Hingham Arsenal.

Scituate residents are assigned to this project which has operated continuously throughout the year, the weekly average being 13 men. Operating January, 1940.

Proposed Work Projects

Control and Eliminate Leaf Feeding Insect Pests. Creosoting, spraying, cutting webs, and thinning infested areas. Submitted November 15, 1939.

Install a New System of Water Department Records and Maps, showing location, size and age of Water Mains, including Service and Gate Location Cards. Submitted December 28, 1939.

To Prevent Mosquito Breeding in Low Wet Areas. Construct a Drainage System in the Swamp Area between Alden Avenue and Winslow Avenue, Shore Acres, with Outlet into the Sea at Brewster Avenue. Easements Requested December 20, 1939.

On July 11, 1939, the new WPA wage schedules, as provided in the Emergency Relief Act of 1939, were put into effect. This increased the number of hours worked per fiscal month to 120 hours for each classification, but without increase in the total monthly wage.

The new regulations for the referral of persons for certification for WPA employment became effective November 1, 1939. It provides that eligibility for assignment to work projects is determined on a basis of need and employability, and persons referred for certification as in need of relief by the Board of Public Welfare, must also be eligible according to the Federal regulations under which the Works Projects Administration functions.

The National Youth Administration provides a work program for unemployed out-of-school youth. Needy youths of both sexes are employed on a wide variety of work units, such as the construction of playground facilities, recreational leadership, clerical work, etc., on a part-time basis (55 hours a month) at a maximum wage of \$21 a month. Age limits 18 to 24 years, inclusive.

As provided thereunder, three young ladies are employed on local projects: two in the Allen Memorial Library and one in the Pierce Memorial Library assisting the librarians, while one has been certified to the High School Cafeteria.

Another NYA project has been approved to give part time employment to a number of local young men in general forestry work under Town supervision in our Town forest, but up to the close of the year it has been impossible to start operation because of the inability to secure a sufficient number to warrant it.

In August 1939, the law requiring the removal from WPA pay rolls of all persons having 18 months continuous employment became effective, and resulted in 12 men being dropped from the pay rolls before the close of the year. However, all had an opportunity to be referred for certification before the expiration of 30 days from the date of their removal. This made reinstatement more rapid, and assignments in nearly every case have been made.

The operation of these constructive projects has enabled several of the Town Departments to utilize the services of those persons who would otherwise have been unemployed much of the year, and has also made possible improvements of permanent value to the Town at a greatly reduced cost; they have been a source of security for the citizens and kept relief costs down.

Respectfully submitted,

HERBERT A. WHITING,

Town WPA Agent.

TOWN COUNSEL REPORT

REPORT OF TOWN COUNSEL

An examination of your counsel's previous reports will give you a good idea of the frequent need of legal assistance in our municipal affairs. Your counsel, moreover, holds himself available at all hours of day and night throughout the year to be of service to the town officials. He renders to some degree a protective service just as does a member of the police and fire departments.

Omitting detailed reference to our many legal problems, your counsel briefly points out particular instances of service in a few matters.

Representing the town in the matter of final decree in condemnation proceedings for the new coast guard station, your counsel obtained in 1939 the collection of \$1,737.01 taxes due the town on the premises taken by eminent domain by the United States government: case of *United States of America v. McDonald, Town of Scituate, et al.*

In the case of *William H. Doggett v. the Town*, land damage petition in the Plymouth Superior Court, a settlement was reached and the case closed without a trial; likewise, in a tort case an advantageous settlement was reached before trial.

Other notable matters handled were zoning appeals, Appellate Tax Board hearings and A.B.C. proceedings and Welfare settlements.

In the matter of the continued operation of the Old Colony Railroad, counsel has served the town without compensation. In August your counsel attended the hearing at New Haven which resulted in the abandonment of the plan to discontinue all passenger service on the Boston and Greenbush line September 24, 1939. In October your counsel filed a brief for the Town as *amicus curiae* in the case of *Palmer et al. v. Commonwealth* and attended the hearing before the United States Supreme Court at Washington. These proceedings resulted in the favorable decision set forth in Mr. Justice Frankfurter's opinion establishing the jurisdiction of our Massachusetts Department of Public Utilities and the Interstate Commerce Commission over the affairs of the Old Colony even though in bankruptcy. The Commonwealth was ably represented by Assistant Attorney General Edward O. Proctor.

The Governor, Attorney General, and Special Commission members all deserve our praise and thanks for their defense of our railroad facilities. It now appears as if the continuance of our passenger rail service depends upon the possibility of effecting economies in operation. It appears impractical for local counsel to assume a defense of our service other than supplementary to the efforts of the Commonwealth. Your counsel, however, believes the communities should stand ready to furnish assistance and should protect their own special interests involved in the operation and reorganization of the railroad system serving the South Shore.

VERNON W. MARR,

Town Counsel.

PLANNING BOARD REPORT

During the early spring your Planning Board received complaints from citizens on the appearance of the town occasioned by the unrestricted use of "For Sale" and "To Let" signs by realtors.

Many properties carried several signs and certain sections gave the impression that all property was on the market. As a result of this condition, a visitor to Scituate gained the impression that residents were attempting to unload their properties and that this was not a desirable town in which to own property.

A meeting of Scituate Realtors was called by your Board in an effort to get them to clear up and police this phase of their business without other interference. A voluntary agreement to dispense with all such signs for one year was reached. As a result practically all signs were removed as agreed. Somewhat later, one or two of the Real Estate agents who were part of this agreement re-erected some of their signs. Your Board believes that public opinion will be the strongest method of keeping this situation in hand.

Among others, the North Scituate Beach Improvement Association was interested in this problem of Real Estate signs and your Board met with their repre-

LIST OF JURORS FOR 1939

sentatives in an effort to work out a solution to the problem in their section. The entire matter of signs in Scituate was studied very thoroughly and the cooperation of your Selectmen was solicited in an effort to preserve the attractive appearance of our town.

During the year, Planning Board members devoted considerable time and effort to protect the town's zoning of residential areas from the encroachment of business. In all instances your Board sought to protect the interests of the greatest number of citizens. In this connection, several efforts have been made to open up some sections of Route 3A to business.

It is the belief of your Planning Board that to make one or two new business areas on Route 3A in the interest of one or two individuals is highly unfair to the rest of our citizens. As an alternative to this end and as it is felt by some that this route does represent a special opportunity for exploitation, we have suggested the creation of a Civic Market somewhere on the route. Such a market would be open to all. It would be well set back and attractively designed in order that it might be an asset rather than a liability to our town.

The Planning Board will welcome any suggestions for planning and operating a Civic Market. Obviously, there are many difficulties in the development of this idea. However, citizens who have known of the suggestion of your Board have given us a very favorable reaction. We hope to hear from many more.

The Planning Board believes that a Building Code should be considered and studied by the town as it would be a step toward better building and proper design, especially in the business areas.

Respectfully submitted,

RALPH C. ACKERMAN, Secretary,
RICHARD A. LEVANGIE,
H. W. WELCH,
S. C. WEBSTER,

REPORT OF TREE WARDEN

To the Citizens of Scituate:

During the year 1939 I have planted 179 trees: namely, Maple, Elms, Linden and Lombardy Poplars.

The town has been very fortunate to have a W.P.A. project that has helped our shade trees. All dead branches have been removed. Where trees were split open from the hurricane, they have been bolted. There is considerably more work to be done in other sections of our town. The work is slow and very dangerous.

The Elm Tree Beetle has been kept under control. I have tried to spray twice this year, but was unable to do so because the season started too late.

The Dutch Elm Disease still threatens us. The latest report says that the Dutch Elm Disease is not in Massachusetts yet, but it is very near our border.

The only hope of saving our Elms lies in an early discovery and prompt destruction of the first infected trees.

Watch for dying branches, wilting and yellowing of leaves on terminal twigs, and premature leaf falling. If these signs appear, cut a six inch section of the diseased twigs and send it to the State Agricultural College in Amherst, Mass., giving them your name and address.

WILLIAM F. FORD,
Tree Warden.

CHIEF OF POLICE REPORT

REPORT OF CHIEF OF POLICE

Scituate, Mass.
January, 1940

Honorable Board of Selectmen:
Scituate, Mass.

Gentlemen:

Unlocked buildings	214
Pistol permits issued	28
Summonses served for other police departments	98

PUBLIC HEALTH NURSE REPORT

AMBULANCE SERVICE

The ambulance was used on 168 occasions to convey patients to and from hospitals with a total of 6783 miles for the year 1939. Maintenance charges including—gas and oil—repairs—replacements of linen—laundry—etc., cost \$317.91. Charges were made on five non-resident cases and bills amounting to ninety dollars were submitted. This service required 441 hours of an officers time which is readily computed into 49 working days at nine hours a day.

The ambulance has been in service for five years. During this period, several hundred patients have been conveyed to and from hospitals. Most of these trips are to hospitals in the City of Boston—many to the Weymouth Hospital and a lesser number to hospitals closer at hand. We feel that service, in each and every case where service was required, has been rendered promptly and with courtesy. We further feel that this utility has been a boon to the unfortunates requiring such service and has reflected favorably to the credit of the Town of Scituate.

At the present time, this conveyance is suffering the natural and expected deterioration and we are now faced not alone with the added expense of constant garage service but with the likelihood that at some critical moment we may suffer a breakdown on the way to a hospital. We, therefore, recommend that your Board consider inserting an article in the warrant asking for a sum of money to replace the present ambulance.

1877

JOHN STONEFIELD

1939

It becomes our sad duty—to once again record the passing of one of our members—one whose loyalty and devotion to the Community and to the Department he served—stand as a monument to his memory. John “Jack” Stonefield—ever willing regardless of the hour or type of service to which he was assigned—always cheerful and friendly—his passing leaves a great void which time alone can fill. So, therefore, be it resolved—that whereas his Maker has seen fit to call him to a higher and greater service—we who are left to carry on—take inspiration from him and his deeds and find consolation in the thought that he has gone to his just reward.

May we extend our thanks and appreciation to your Honorable Board for your co-operation throughout the year.

Respectfully submitted,

M. E. STEWART,

Chief of Police.

PUBLIC HEALTH NURSE

Selectmen,

School Committeemen,

Board of Health Officers,

Directors and Members of the Scituate Public Health Nursing Service.

The twelfth annual report of work for the various departments in carrying on the health program is as follows:

Number of Nursing Visits	238
Number of Free Nursing Visits	197
Number of Prenatal Visits	11
Number of Infant Welfare Visits	107

PUBLIC HEALTH NURSE REPORT

Number of Visits for Preschool Children	64
Number of School Visits	197
Number of Home Visits for School Children	166
Number of Children taken home ill	48
Number of Welfare Visits	14
Number of Office Visits	126
Number of Doctor's Office Visits	51
Number of Local Clinic Visits	98
Number of Hospital Clinic Visits	143
Number of Follow up Visits	218
Number of Conferences with Health Workers	146
Number of Public Health Meetings attended	25
Number of Unclassified Visits pertaining to Public Health Work	533

TOTAL NUMBER OF VISITS 2382

1. The Well Baby Conference was held in the high school annex, the fourth Wednesday of each month, with an average attendance of fifteen (15) at each meeting.

2. The School Department sponsored a Summer Round-up. Dr. Nathan Gorin was in charge. Thirty-eight (38) children were examined, many of whom had defects corrected before entering school in September.

3. The Board of Health sponsored the Dental Clinic for school children, grades one through six. Also a dental clinic for pre-school children.

4. The program of the Plymouth County Hospital for the yearly examination of school children in designated grades, was omitted this year. In 1940, the opportunity to have the Tuberculin Test will be given to the entire high school group as well as to other children whose parents request it.

5. The school and health authorities have complied with recommendations made by the doctors in charge of the special clinic for retarded children.

6. The Tonsil Clinic, sponsored by the Scituate Nursing Service, was held at the Cohasset Hospital in July. It provided for the needs of twenty (20) cases.

7. During the year, effort was made to encourage the parents to assume the responsibility for immunizing their children against Diphtheria. The desired results were not obtained. Plans are now being made to have group immunization in April. Every child should be immunized by the end of its first year or as soon afterwards as possible.

There has been a marked decrease in the number of nursing visits. This was probably due to the fact that most of the maternity cases were cared for in hospitals and other arrangements were made for the care of the few home cases.

An outbreak of measles during the early part of the year, and whooping cough and scarlet fever during the latter part, increased the number of home visits for school children and follow-up visits. It also disclosed the need for health education in communicable disease control. The Program Committee of the Nursing Service will soon be ready with plans to disseminate knowledge on this and other very important subjects. It is a moral obligation of every member of a community to report to the health authorities, cases and suspected cases of contagious diseases.

Some of the clinic work was given over to the assistant, who also relieved the nurse of the bulk of clerical work, making of supplies and similar duties which did not require the nurse's services, but nevertheless, had a significant bearing on the entire health program. Telephone communications were approximately one thousand.

PLYMOUTH COUNTY EXTENSION SERVICE REPORT

We are constantly striving to meet new problems effectively and with this in mind, plans are being made for a Health Council which will have representation from all departments. This Health Council will endeavor to bring closer relationship of all groups concerned with community problems.

To my Board Members and co-workers and all others who have helped in multiple ways to carry on the health program, I express my sincere thanks.

Respectfully submitted,

MARGARET J. O'DONNELL, R.N.,

Public Health Nurse.

REPORT OF THE THE PLYMOUTH COUNTY EXTENSION SERVICE

Twenty-five years of Agricultural leadership has been provided the towns of Plymouth County through the Extension Service, officially recognized as County Aid to Agriculture. During this period of time, great agricultural achievements have been made through the initiative and leadership of agricultural associations, farmers' co-operatives, homemakers' groups, 4-H clubs and their many allied contributing sources.

This service available to all co-ordinates the efforts of the U. S. D. A., the Massachusetts State College, and local groups in the interest of rural people.

Educational programs are largely determined by county committees, assuring the practicability of meetings, speakers, and subjects of interest to commodity, homemakers' and 4-H club groups.

During 1939 the Extension Service agents directed personally in Plymouth County 813 meetings with an attendance of 21,485 people; made personal contact with 12,237 people on individual problems; and reached 87,000 people through circular letters.

Information and assistance has been available to everyone in the subjects pertaining to Agriculture, Home Economics and the 4-H Club. These include for farmers the subjects of: dairy, poultry, fruits, vegetables, cranberries, forestry, general livestock, farm accounts, and many others. For Homemakers in 1939 emphasis has been placed on Money Management, Nutrition, Child Development, Home Furnishing and Recreation. Additional work has been done in Clothing, Food Preservation, Home Grounds Improvement. For 4-H activities, clubs in Poultry, Dairy, Garden, Conservation, Handicraft, Food, Canning, Clothing, Home Furnishing and others have been used by 1959 enrolled members in the county.

The people of Scituate have been afforded this service in the best manner possible to meet the demands and interest of groups and individuals. The support of each town financially and morally is greatly appreciated by the Extension Service, and by the people who know its value as an influence in adult education.

CHARLES E. MITCHELL.

REPORT OF THE WATER COMMISSIONERS

The continued expansion of the Scituate Water system has been carried on to a considerable extent with the help of W. P. A., and in the early part of the year, the main on Mann Lot Road was laid from the new standpipe to Grove Street, and in the latter part of the year W. P. A. labor was again employed to lay a main on Tilden Road, and Norwell Avenue. In each case a circuit was completed and very much improved fire service was extended through larger mains.

The insertion of two valves in the main on Front Street, and the completion of the main on Hazel Avenue, with connections at Allen Street and Otis Street, have greatly reinforced the fire service in that section.

A recent very bad fire in the O'Hara property, very capably handled by the Fire Department, was quickly brought under control and extinguished, entirely by the use of hose directly connected to the hydrants. The Fire Department had sufficient water and pressure at all times for the required fire service, without recourse to the use of the Fire Department pumps.

The present shortage of water all over the country is apparently going to continue for some time, and while we were never near the limit of our supply in Scituate, during 1939, it is certainly well worth while to keep in mind the development of new sources and particularly the conservation of the supply already developed.

Advantages of soft water are numerous and might be obtained by the installation of a water softening plant at Webster Meadow where the greater part of the Scituate water supply is obtained.

The following report of the Superintendent, gives the details of the work carried on by the Water Department throughout the year.

Respectfully submitted,

S. C. WEBSTER, Chairman

W. B. JAMES, Secretary

J. F. McJENNETT.

The Honorable Board of Water Commissioners.
Scituate, Massachusetts.

Gentlemen: .

The eighth annual report of the Scituate Water Department is herewith submitted, and therein a chronicle of the work completed during the year 1939 and also recommendations for future consideration of the Commissioners.

Installation of a water main on Mann Lot Road, westerly from Route 3A, was carried on as a W. P. A. project until the last of January, at which time work was suspended on account of the winter weather conditions. This project was reopened in April and the work completed July 5, 1939, affording another feed line to the westerly part of the town, as well as domestic service and fire protection for a number of houses.

A 6" main was laid on Wampatuck Avenue to replace a small service line, from Hatherly Road to Oceanside Drive, thereby improving the fire service in the Sandhills section as well as giving better service to the consumers.

When the water system at Humarock Beach was taken over by the Scituate Water Department, all of the water lines were small and were covered only from 6" to 18" with sand. This meant shutting off water service and draining the

WATER COMMISSIONERS' REPORT

pipes in the fall, and turning on the water again in the spring, with considerable repairs and cleaning every year, at the expense of the Water Department. Replacement of these small lines has been started and this spring the section south of Marshfield Avenue and east of River Street was completed, allowing twelve months service to all of the houses in that section, and eliminating the cost of draining and repairing small lines.

Reconstruction and regrading of streets by the Highway Department, involved the installation of mains on Irving and Jay Roads during April and on Edgar Road during December.

These mains replaced small, shallow lines and completed a grid of six inch mains between Norwell Avenue and Hatherly Road.

Further construction under W. P. A. completed the eight inch line on Tilden Road and Norwell Avenue and thus added another main line feeding into the Hatherly Beach section, and reinforcing that section of the system to a very considerable extent.

A section of main on Greenfield Lane was lowered during the reconstruction of that street.

Another section of Gannett Road was rebuilt in addition to the completion of the section started last year, and this work required the relaying of a portion of the water main through a culvert and resetting several hydrants as well as the installation of main valves.

The main on Front Street from Beaver Dam Road to Brook Street was laid by the previous owners, without valves, and with the present congested condition, particularly during the summer, it seemed necessary, as a matter of protection and safety to have valves in the line at shorter intervals.

Accordingly two valves were inserted in the main during the early part of June. These valves were put in place and in service without shutting off the water pressure at any time, and that section is under much closer control than before.

Following a custom of the past several years, the Water Department installed mains on Marion Road and Hazel Avenue, thereby providing work for some 65 men, just before the holidays. The main on Marion Road completed the line from Hatherly to Oceanside Drive. The work on Hazel Avenue completed the line on Hazel Avenue from Beaver Dam Road to Brook Street and with connections on Allen and Otis Streets, reinforced the supply on Front Street.

Further replacement of small lines should be carried on and possible circuits completed. One of these possibilities is Tilden Road, where there is no main from Turner Avenue to Garden Road. This section should have an eight inch main to complete the loop and provide another line to feed the beach sections.

The present 6" line on Jericho Road is entirely inadequate to furnish water to the Sandhills and Light House Point in case of fire, and this line should be replaced with a larger main in the very near future. If funds to carry on the work of replacing this main were to be taken from the Water Department Budget, several years would be required to complete the work, but it would, however, be a very desirable project to be provided for under W. P. A. authority.

While the electric power lines have been stabilized to a very considerable extent, relative to continuity of power, there is always the possibility of storms such as snow and sleet disrupting the service in its entirety for a time. We have at present a standby unit for such an emergency but it is not capable of producing sufficient power to operate more than one pumping unit, and then only under fairly good conditions.

Part of this standby unit is a diesel motor in the Greenbush Pumping Station, used primarily to pump water from the Old Oaken Bucket Pond. This motor is of sufficient size and power to operate a much larger generator than the one

WATER COMMISSIONERS' REPORT

to which it is now connected. A larger generator could be installed to replace the present one and it would then be possible to operate two pumping units in Webster Meadow with power generated in the Greenbush Station, and this operation would be entirely independent of the power company service. With power to operate pumps in Webster Meadow, the possibility of using water from the Old Oaken Bucket Pond would be very remote.

Your attention is respectfully called to the table showing the relative costs per million gallons for actual pumping which includes all labor and repairs as well as material and power. These costs have been decreasing each year as the system has been revised and improved. The considerable reduction in the cost per million gallons pumped during the last two years, particularly in 1939 is to a very great extent due to the increased storage capacity afforded by the new standpipe on Mann Lot Road.

During the spring, the National Research Committee of the Rockefeller Institute spent several days investigating the electrical grounding conditions in Scituate. This research work is very important as there are many times when it would seem reasonable to think that poor grounding conditions cause electrolytic action and corrosive failure of the service pipe.

WILLIAM J. LUMBERT, Supt.

GENERAL STATISTICS

Population by census of 1935—3,846.

Construction of system started—1893.

Now owned by the Town of Scituate.

Valuation, December 31, 1939—\$927,410.22.

Sources of Supply. Ground water from wells, and the Old Oaken Bucket Pond. Water is supplied to the system through pumps as shown.

PUMPING STATISTICS

1. Smith Vail Triplex pump electrically driven by 10 H.P. Century Motor.
2. Fairbanks Morse Turbine pump driven by 30 H.P. Fairbanks Morse electric motor.
3. Fairbanks Morse Duplex pump driven by 15 H.P. Howell Motor.
4. Dean Hill centrifugal pump driven by DeLaVergne 130 H.P. Diesel engine.
5. Smith Vail Triplex pump driven by DeLaVergne 35 H.P. Diesel engine.
6. Byron Jackson centrifugal pump electrically driven by 40 H.P. G. E. Motor.
7. Byron Jackson centrifugal pump electrically driven by 75 H.P. G. E. Motor.
8. Byron Jackson centrifugal pump electrically driven by 75 H.P. G. E. Motor.
9. Sterling deep well pump electrically driven by 10 H.P. U. S. Motor with Morris centrifugal booster pump driven by 10 H.P. G. E. Motor.
10. Sterling deep well pump electrically driven by 10 H.P. G. E. Motor with Morris centrifugal booster pump driven by 7½ H.P. G. E. Motor.
11. Peerless deep well pump electrically driven by 15 H.P. G. E. Motor with Morris centrifugal booster pump driven by 7½ H.P. G. E. Motor.
12. Fairbanks Morse deep well pump driven by 15 H.P. Fairbanks Morse Motor.
14. Fairbanks Morse Turbine driven by 3 H.P. F. M. Electric Motor.
15. Fairbanks Morse turbine driven by 3 H.P. F. M. Electric Motor.
16. Gardner Denver centrifugal driven by 20 H.P. G. E. Motor.

All pumping is done by Diesel engines or electric motors.

Fuel oil purchased from the Gulf Refining Co.

Trade name, Gulf Solar Oil 33 degree Baume—19306 B.T.U. per lb.

Electric power is purchased from the Brockton Edison Co. Average price per K.W.H. \$0.0148.

WATER COMMISSIONERS' REPORT

Total Fuel Oil used—none.
 Total K.W.H. used—262,505 K.W.H.
 Total Water put into Dist. System—173,649,500 Gals.
 Average Dynamic Head—69.9.
 Average Static Head—67.9.
 Average Number of Gallons per K.W.H.—623 G. P. K.W.H.
 Average cost per K.W.H.—.0148.
 Maximum pumpage in one day. August 13, 1939.—1,091,200 Gals.
 Maximum pumpage in one week August 11 to 17, 1939—7,004,200 Gals.
 Water pumped Diesel Power—none.
 Water pumped Electrical power—173,649,500 Gals.

Number of services added 1939—45.

Average length. Apx. 16 feet.

Average cost to Department \$18.52.

Total Number of services 2646.

REPORT OF THE REPORT OF THE TOWN FOREST

To the Citizens of Scituate:

Work in our Town Forests concised of cleaning out all undergrowth and thinning out all weed trees, leaving all hard wood and white pine.

The forest at Mann Lot Road is in very good condition. It will not be necessary to do any more planting, the area has come in to natural growth of pine, maple, and oak.

The committee would like the town's people to visit both of the forests more frequently. We believe you will find it very interesting and enjoyable.

In the Pinson Hill Forest, there is a beautiful place for a day's recreation and camping.

There is an open fireplace for out-of-door cooking, it being one of the highest points in Scituate giving a beautiful lookout to all parts of the town.

Yours respectfully,

MARY CRESSY,

EMMA LITCHFIELD,

WILLIAM F. FORD,

Town Forest Committee.

REPORT OF STATE AUDIT

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Division of Accounts

State House, Boston

March 14, 1939

To the Board of Selectmen

Mr. James W. Turner, Chairman
Scituate, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Scituate for the year ending December 31, 1938, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts.

TNW:FC

STATE AUDIT REPORT

Mr. Theodore N. Waddell
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Scituate for the year ending December 31, 1938, and submit the following report thereon:

The records of the financial transactions of the several departments receiving or disbursing money for the town, or committing bills for collection, were examined, checked, and verified by a comparison with the reports and the records in the office of the town accountant.

The ledger accounts were analyzed, the appropriations, loan orders, and transfers being checked with the town clerk's records of town meetings and with the records of the advisory committee. A balance sheet showing the financial condition of the town on December 31, 1938, was prepared and is appended to this report.

The books and accounts of the town treasurer were examined and checked. The cash book additions were verified, and the recorded receipts were analyzed and compared with the town accountant's ledger and with the records of the departments making payments to the treasurer. The payments by the treasurer were compared with the selectmen's warrants authorizing the disbursement of town funds.

The treasurer's cash balance on January 28, 1939, was proved by a reconciliation of the bank balances with statements furnished by the banks in which town funds are deposited.

The recorded payments on account of maturing debt and interest were compared with the amounts falling due and with the cancelled securities and coupons on file.

The records of tax titles held by the town were examined and checked. The amounts added to the tax title account were compared with the collector's records, the reported redemptions and foreclosures were proved, and the tax titles on hand were listed and checked with the records in the Registry of Deeds.

The savings bank books representing the investments of the trust funds in the custody of the selectmen were examined and listed, the income being proved and the disbursements being verified.

The books and accounts of the town collector were examined and checked. The accounts outstanding at the time of the previous examination were audited and all subsequent commitments were proved. The payments to the treasurer by the collector were checked to the treasurer's books, the abatements as recorded were compared with the records of the departments authorized to grant abatements, and the outstanding accounts were listed and proved.

Verification of the correctness of the outstanding accounts in the collector's department was obtained by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

The records of licenses and permits issued by the selectmen, the town clerk, and the police and health departments were examined and checked, and the payments to the State and to the town were verified.

STATE AUDIT REPORT

Payments to the town treasurer by the town clerk of the money due the county for dog licenses issued should be made on the first Monday of each month in accordance with Section 147, Chapter 140, General Laws, as amended. The failure of the town clerk to make payments to the town treasurer monthly has been cited in annual audit reports for several years, beginning with 1934.

The surety bonds of the officials required by law to furnish them for the faithful performance of their duties were examined and found to be in proper form.

In addition to the accounts mentioned, the records of all other departments collecting money for the town or rendering bills for collection were examined and checked in detail.

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's and of the collector's cash, summaries of the tax, assessment, tax title, departmental, and water accounts, as well as tables showing the condition and transactions of the various trust funds.

While engaged in making the audit, co-operation was received from all town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

HERMAN B. DINE,

Assistant Director of Accounts.

SCHOOL COMMITTEE REPORT

SCHOOL CALENDAR—1940

WINTER TERM—January 2 to February 16 inclusive.

One Week Vacation.

February 26 to April 12 inclusive.

One Week Vacation.

Spring Term—April 22 to June 21.*

Holiday—May 30.

Summer Vacation.

Fall Term—September 4 to December 20 inclusive.

Holidays—November 11, 28 and 29.

* This date is tentative. The statutes require high schools to have one hundred eighty sessions per year.

“NO SCHOOL” SIGNAL

The “No School” signal is 3-1-3, and will be sounded from the fire stations at North Scituate, Scituate Harbor and Greenbush at 7:30 A.M. to designate the omission of school sessions for the first six grades—e.g. the Hatherly and Jenkins Schools. If the signal is repeated at 7:45 A.M., it will indicate no school in the High School. It is, however, the general policy of the Committee to hold regular sessions whenever it is practicable to maintain transportation service.

COMMITTEE MEETINGS

The regular meetings of the Committee are held monthly, at the office of the Superintendent, Old High School Building, September to June, inclusive.

Appointments with the Superintendent may be made upon request.

The age of admission to Grade One of the Hatherly and Jenkins Schools is five years and four months on the day of the opening of school in September.

No child will be admitted to school for the first time after October 1, unless, before this date, permission has been granted by the Superintendent for a later entrance.

A vaccination certificate must be presented to the school when the pupil enters for the first time.

A birth certificate must be presented by those pupils whose births were recorded outside of Scituate.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Scituate:

Education in our Town, during the past year has not differed materially from that of 1938. The Changes in the Teaching Staff, and other matters of similar interest will be found in the report of the Superintendent.

The routine work and duties of the School Committee pertain mostly to the Upkeep of Buildings, awarding Contracts and signing bills for payment.

The major item of importance this past year, was the change in Transportation Routes, and the purchasing of new Busses equipped with Steel Bodies, by the Contractors. The net saving to the Town is approximately three thousand dollars (\$3,000). In connection with Transportation, we are considering the erection of a Shelter for the scholars who now have to wait for connecting busses at the Jenkins School. The various Buildings have had our careful attention, and such repairs and painting as were deemed essential were attended to. The Auditorium Ceiling has been strapped and the Walls painted. We have also had Iron Gates placed at each entrance to the Gallery, or Balcony, as there are numerous times when it is advisable to restrict the attendance to the Main Floor.

The exterior of the High School, needs painting, and we hope to have it done this coming year.

Tables and chairs, in the Cafeteria are in poor condition and should be renewed.

The High School is becoming crowded and there is no room for expansion. With this thought in mind we have had preliminary Plans drawn for a new Wing to contain six rooms together with a small Hall.

We are anticipating the financial assistance of the P. W. A. in this undertaking, and hope that the Citizens will co-operate in approving this article at the Annual Town Meeting. At our appearance before the Advisory Board, we mentioned that we had included an amount in our Budget to provide for another teacher in the High School. The present Commercial Teacher, Miss Hawkes, is occupied every period of instruction, and we need this new Teacher to take charge of a new Practical Two Year Business Course, more for Boys, which will include Bookkeeping, Commercial Arithmetic, Salesmanship and Business Management. Mr. Edgar A. French, Attorney at Law, has offered his services, gratis, to give a series of talks during the winter months, on subjects such as Commercial Law and the Law of Contracts, which are very essential in a practical business course.

In our modern system of Education, Athletics have a prominent place; in the old days it was practically limited to Baseball. Today we have Football, Hockey, Baseball and Basketball, beside Gymnastics and Physical exercises. It is quite natural, that during these activities some accidents may occur which will require medical attention. We pay the School Physician, in addition to his regular salary, ten dollars for attendance at each Football game. If any of our Team should be injured, he has to render "First Aid". We have no legal right to have him render any services of a Surgical nature, and charge it to the Town. With this thought in mind, there has been established what is known as the "Athletes Accident Benefit Fund", which takes in the whole of New England, and is sponsored by the New England Council of Secondary School Principals Association. This Benefit Fund costs only one dollar per year for all School Sports; excluding Football, the cost is fifty cents per year per pupil, and is available for both Boys and Girls. The benefits paid range from Two dollars for a Chipped Tooth to Two hundred dollars for loss of sight of one eye. Broken nose is Ten dollars, Bone in hand, seven dollars and fifty cents, Collarbone Twenty dollars. There are too many benefits for us to enumerate them all. We desire to emphasize the fact that we cannot pay these bills and that it is the duty of every parent, whose children

SCHOOL COMMITTEE REPORT

partake in Athletics, and to their financial interests to see that their Boy or Girl is protected in this respect.

Your School authorities are in no way responsible nor is the Town financially liable for any bills contracted in connection with possible injuries received as a result of participating in School Athletics.

We believe that there are some of our citizens who would like to avail themselves of an opportunity of attending Evening Classes. Accordingly we are planning to make a start this year, by offering Shorthand and Typewriting. If there is a demand other subjects will be added later.

In conclusion, we desire to express our appreciation for the Financial support of the citizens and also that of the various organizations interested in our public schools.

Respectfully submitted,

RALPH S. BROWN, Chairman
PETER W. SHARP, Secretary
MRS. MARION C. ALEXANDER,
School Committee.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Scituate:

I take pleasure in submitting my fourteenth annual report for your consideration.

CHANGES IN TEACHING STAFF

At the end of the last school year, Miss Thelma Annis, teacher of the fifth grade at the Hatherly School, resigned to take a similar position in Reading. This vacancy was filled by advancing Miss Carol Vollmer from an assistant teacher in this building to the position of regular teacher of grade five. Miss Barbara Young of Winthrop, Mass., a graduate of the Perry Kindergarten Normal School, was chosen as assistant teacher for grade one.

Miss Dorothy E. MacFarlane, who had been teacher of the Household Arts department at the High School since September, 1930, resigned to take effect at the end of the February, 1939, vacation and Miss Mary S. Kingsbury of Malden, Mass., a graduate of Simmons College, was elected to fill the vacancy. Miss Kingsbury is continuing as teacher of this department for the 1939-40 school year.

In the Art department, Mrs. Doris D. Ward asked to be relieved of some of her duties this year. In accordance with this request, Mrs. Ward continues as Supervisor of Drawing in the Hatherly and Jenkins schools. The part-time position of Art instructor in the High School was filled by the selection of Miss Barbara Colman of Scituate, a graduate of the Massachusetts School of Art.

UPKEEP OF BUILDINGS AND GROUNDS

In the early part of 1939 a survey of the lighting facilities of the High School was made, and as the result of this study new electric light fixtures were placed in the library and in all of the classrooms of the older section of the building in which the electric fixtures had not been changed at the time the wings were added. Other major repairs to this building included the sanding and refinishing of the floors in the East Wing, calcimining the ceilings in the central part of the building, placing furring strips—for added protection—over the Auditorium ceiling, similar to those in the other parts of the building, and painting the walls of the Auditorium.

The equipment purchased or contracted for during the year included a new water cooler for the Cafeteria, a belt sanding machine for the Practical Arts

SCHOOL COMMITTEE REPORT

department, three new typewriters for the Commercial room, a piano to be used on the stage of the Auditorium, and two wire gates with wing panel returns to close off the balcony when it is not in use.

The outside of the Household Arts building was painted during the year; the painting of the wire fence around the tennis courts was completed; and a cement curbing was made on one side of the parking area for the courts.

At the Hatherly School, in response to a recommendation from the State Department of Public Safety, the glass in the outside and corridor doors was replaced with wire glass and an additional rail was placed around the upper landing of the fire escape. The blackboards in the fourth, fifth and sixth grade rooms have been resurfaced. A white enamel sink was placed in the girls' basement; the oil stove that had been used to prepare hot soup or cocoa for the noon lunch was replaced with two electric plates; and the entire building was equipped with new shades.

At the Jenkins School—as at the Hatherly—wire glass was placed in the outside doors, an additional rail was put on the fire escape and the blackboards in several of the rooms were resurfaced. New shades were also placed in the first grade room. A celotex ceiling was installed in the fourth grade room, so that now the ceilings of all elementary classrooms are either of metal or celotex. In addition, forty-two desk tops were sanded and refinished, the basement was whitewashed and the toilet rooms painted, three of the room ceilings were painted, and ten visitors' chairs were purchased.

It would be advisable to paint the exterior wood finish of the High School building during 1940, and there is also the need of some interior painting at the Hatherly and Jenkins schools.

The cement walk between the High School and the Household Arts buildings needs attention, as well as the steps leading into the Auditorium. A new power mower should be purchased for use on the Community Center grounds.

SCHOOL ENROLLMENT—OCTOBER 1

	Ten Year Period		
	Elementary	High School	Total
	Grades I-VI	Grades VII-XII	
1930	398	221	619
1931	421	235	656
1932	436	272	708
1933	443	304	747
1934	440	333	773
1935	400	341	741
1936	412	356	768
1937	388	358	746
1938	409	357	766
1939	411	368	779

From the above table it may be noted that the October 1, 1939 enrollment is the largest in the past ten years; it is also the largest in the history of the Scituate schools. It is interesting to note that while the elementary enrollment in 1939 was thirty-two *less* than in 1933, the high school enrollment had *increased* by sixty-four. In the ten year period beginning with 1930 the increase in the number of elementary pupils has been only thirteen, while the increase in the number of high school pupils has been one hundred and forty-seven.

SCHOOL COMMITTEE REPORT

SCHOOL FINANCES

The total funds available for the use of the School Department for the year 1939 were as follows:

Appropriation	\$90,570.00
From Dog Tax	302.43
From Federal Funds	
Smith-Hughes	125.92
George Deen	80.00
Total receipts	\$91,078.35

The receipt of the \$302.43 from the dog tax was made possible by the vote of the Town. By law this tax must be given to schools or libraries or divided between them. The above amount represents one-third of the total dog tax. The Federal Funds are available for the use of our Household Arts department and serve to reduce the cost of this department to the Town.

The amount expended for Community Center Grounds—appropriated by a special article in the Warrant—was \$1,248.35. Below is a table of school expenditures for a five-year period, and a list of the school department credits that are not available for the use of the school department.

SCHOOL COMMITTEE REPORT

SCHOOL EXPENDITURES FOR FIVE YEAR PERIOD

	1935	1936	1937	1938	1939
General Expenses					
School Committee	\$234.25	\$218.50	\$198.30	\$220.40	\$218.52
Superintendent, salary and expenses	2,616.70	2,562.06	2,560.13	2,592.60	2,564.34
Clerk and Attendance Officer	400.00	434.00	437.75	438.00	468.00
Other Expenses of Administration	57.60	60.42	30.02	30.03	43.20
Expenses of Instruction					
Supervisors and Teachers	42,880.25	45,972.00	48,163.25	51,162.42	52,674.00
Textbooks and Scholars' Supplies	3,950.28	4,146.94	4,747.78	4,362.70	4,726.38
Plant Operation and Maintenance

SCHOOL COMMITTEE REPORT

AMERICANIZATION CLASSES

On February 16, 1939, a letter was received by the School Department from the Portuguese Improvement Society of Scituate expressing its desire to have evening classes for adults—similar to the courses offered by the School Department from 1927 to 1932—re-established. In response to this request the School Committee voted to establish such classes, and they were started at the Hatherly School on October 24. There are three groups, the advanced and intermediate in charge of Miss Anne L. Cunneen and the beginning group in charge of Mrs. Edith W. Burrill. The latter class enrolls eighteen and the former twenty-four. They meet two evenings a week from 7:30 p.m. to 9:30 p.m., and will continue for a total of fifty to sixty evenings during the school year. The subjects taught include Reading, Writing, Citizenship and other common school subjects as the need for them arises.

HIGH SCHOOL GROWTH

Earlier in this report the school enrollment for the past decade was discussed. It is significant that the elementary increase in this period has been very slight. The high point was in 1933 and the low in 1937, the present enrollment being at about the median point. On the other hand, the high school increase has been very large and practically continuous although more rapid from 1930 to 1936 than since that time. However the past year has seen another large increase that is not fully reflected in the October first figure of 368 as the January 15, 1940 enrollment was 381.

The seventh and eighth grades have a total of 130 pupils and occupy four classrooms. The senior high school, grades IX-XII, enrolls 251, and there are only 258 pupil stations available for the use of these grades. The general purpose classrooms number but five, and there is a need of several more rooms of this type.

As this report is being written, an interest seems to be developing in high school evening classes for adults. The School Committee is considering the opening of a class in shorthand and typewriting to be held two evenings a week in the high school building.

Your attention is called to the report of the high school principal, to the three reports from the English, the science and the mathematics departments, the report from the Supervisor of Physical Education, and the regular annual reports of the School Physician and the School Nurse. The usual statistical tables and the Financial Statement for the year 1939 are included.

Respectfully submitted,

HAROLD C. WINGATE,
Superintendent of Schools.

REPORT OF THE HIGH SCHOOL PRINCIPAL

Mr. Harold C. Wingate
Superintendent of Schools
Scituate, Massachusetts

Dear Sir:

I submit herewith my fifth annual report as principal of the Scituate High School.

Our enrollment, as this report is written is 381, or 22 more than one year ago at this time. This increase for the most part is the result of an increase in our town population, as some twenty-three pupils transferred to our school from out of town. Of this number, eight last year attended private schools. The building is now accommodating over twenty percent more pupils than five years ago when it was thought to be filled, and it is hoped that some expansion may be possible in the coming year.

Scituate High School graduates continue to show the results of their preparation for college studies, at higher institutions. Very few schools of our size have such a large group in the better colleges. Our graduates are now matriculated at Bates, Boston College, Boston University, Bowdoin, Brown, Lowell Textile, Massachusetts Institute of Technology, Massachusetts State College, Massachusetts School of Art, Northeastern, Rhode Island State College, Simmons, and Tufts. Several of them have won scholarships at these institutions and others have been honored on "Deans' Lists."

Our weekly assemblies are still carrying their interest to our pupils. These programs broaden their general education at the same time they are forming entertainment. Among the more interesting assemblies of the year have been the following: Music Appreciation Concert by the Brockton W.P.A. Band, talk on the U. S. Constitution by the Reverend Victor Sawyer, "First Century of Baseball," a sound picture and talk by Irving "Bump" Hadley, Shakespearian and Dickens Characters portrayed by George Pearson, talk on Art by Dean Eleanor Cleare of the Vesper George School of Art, Demonstration of Glass Blowing by the Venetian Glass Blowers, Memorial Day Address by Reverend Gordon King, talk by Joe Mitchell Chapple, Armistice Day Address by Father George O'Connor, a talk on Books by Mrs. Donald Pitkin, A Crayon Talk by Pitt Parker, A Christmas Assembly given by the department of Music, and many sound and silent films pertaining to historical places and travel.

Three new clubs have been started this past year. In the 7th and 8th grades a Hobby Club was inaugurated after a hobby exhibit showed that over 75 percent of the pupils of those grades had an interest or hobby of some sort. About eighty boys and girls exhibited their displays in the art room early in October and the club now includes large groups in photography, puppetry, crayon stenciling, wood working, and soap sculpture.

In the senior high grades a Safety Driving Club was formed for students fifteen years of age or over. This club is in the form of a regular class of instruction and is one of many such organizations sponsored by the Registry of Motor Vehicles in high schools of the state. A written test will be given at the end of the course and pupils passing this will be excused from written or oral tests when they apply to the Registry for a driving license. The members discuss safety devices built into the modern automobile as well as safety regulations of the state and local authorities.

A third extra-curricula activity was started this fall with the organizing of the Camera Club in the senior high school. The purpose of this club is to "provide group activities for students interested in photography." Although the en-

SCHOOL COMMITTEE REPORT

rollment is smaller than in the two other clubs mentioned, much interest is being shown by its members. A darkroom for developing and printing is provided in the science laboratory and an exhibition is planned for next spring.

All of these student clubs have to meet after the regular school hours and the fact that so many pupils are attending these meetings regularly shows the interest being taken in them. Activities of this type, along with our many athletic groups, form fundamental reasons why so few of our pupils desire to leave school before they graduate.

Our athletic teams, in competition with schools from nearby towns, have carried on their games with credit to our school. All of our squads have been very successful in winning their share of games but have continued to place good sportsmanship above all else. The football team remains undefeated for the second successive year and its prowess was extolled at a banquet given them by friends of the school.

New lighting fixtures placed in many of the older rooms of our building during the summer are greatly appreciated by the teachers and pupils. These modern fixtures are extremely helpful in preventing eyestrain which was formerly possible on dark days.

I cannot close this report without thanking you, Mr. Wingate, and the members of the school committee for your always helpful support. I wish, also, to commend the fine spirit shown by the teachers of our school.

Respectfully submitted,

FREDERICK A. CALKIN,

Principal.

MATHEMATICS

M. B. Gillespie

Teacher of Mathematics

The mathematics program has been planned with the needs of three groups of students in mind. The first group includes those who elect the Practical Arts or Commercial course, the second group those in the College Preparatory course, and the third those who wish to secure a mathematical foundation which will enable them to continue along mechanical and scientific lines. Another objective is to have the courses so arranged that a student finding it necessary to leave school before graduation will still have a useful background of mathematics.

The material in the seventh and eighth grades is the same for all. The fundamentals given in the elementary school are reviewed and extended. Accuracy, neatness, and clear thinking are stressed. The mathematics of every day life which should be at the command of every citizen is studied. Also in these grades are given the beginnings of algebra and geometry as a preparation for the transition to the mathematics presented in the next four years and an opportunity for the student to decide what future course he will follow.

In the ninth grade the Practical Arts and Commercial students are given a one-year course in Survey of Mathematics. This provides a review of the seventh and eighth grade work with some study in advanced arithmetic and a survey of the various branches of mathematics so that the student who plans at the end of this year to conclude his mathematical training will have some appreciation of the cultural and scientific values of mathematics and will also acquire sufficient mathematical skill in arithmetic, algebra, and geometry to enable him to complete the work later to be given in the Science, Woodworking, and Commercial courses. It frequently happens that a boy or girl taking this survey course has his interest aroused and elects to continue study in mathematics. The class schedules are arranged so this is possible.

SCHOOL COMMITTEE REPORT

The College Preparatory course student beginning with the ninth grade takes a year and a half of Elementary Algebra to be followed by an equal period of Plane Geometry. In the twelfth grade (or Senior class) a General Review is given to prepare for entrance conditions set up by various schools and colleges. Advanced topics in mathematics are also given during this year as time allows. The completion of this work more than meets the entrance conditions in mathematics that colleges require.

For those who wish to be prepared to enter scientific schools such as Massachusetts Institute of Technology there are offered during the eleventh and twelfth years courses in Solid Geometry and Trigonometry which fully meet the requirements.

Throughout all the work in mathematics the attempt is made not only to make the subject effective as a useful tool in later life but to develop a type of mathematical thinking which will carry over into many other situations.

VALUE OF ORAL WORK

Eleanor Gile

Teacher of English

Oral work has many values. It offers to the pupil practice in the use of his own language, skill in expressing himself, the ability to face an audience with comparative ease and poise; and, above all, self-assurance.

In this day of speed, when we even clip our speech to save time, it is essential that there be some opportunity given to the pupil to realize the value of knowing his own language. In discussion of sentences, based on some grammatical usage, he finds a reason for placing words in their proper positions. Through his own work and the criticisms of others even the retarded pupil becomes sensitive to misused words and expressions and makes a conscious effort, we hope, to correct his speech wherever he may be. Everyone realizes the value of grammar drills that are of oral nature, drills that are used through each year of school.

In every walk of life the person who succeeds is he who can express himself well. It is the pupil who speaks easily who becomes the class president, the leader in school activities, and, later, the leading citizen of his social group and of his community. It is, therefore, necessary to give each one the opportunity to learn to speak well. The old saying, "Practice makes perfect", applies very well in this case.

In the English class there are numerous occasions for the oral speech. The important thing is to find subjects of common interest to the class. Often in freshman English an assignment like the following tends to make the boy or girl forget his reluctance to speak before the group: "Direct a stranger from the school building to your home." There is nothing very long or difficult in this assignment, but the pupil has to be careful to give a clear explanation. Many pupils like to talk about their hobbies. For such an assignment the athlete doesn't mind explaining to his fellow classmates just how his team made a brilliant play; or the girl, with domestic interests, how to mix a chocolate cake. Perhaps another pupil will bring a popular game to explain how it is played. These explanations come from the pupils' own experiences and help them to develop a certain skill in speaking before a group.

There is, of course, the inevitable book review, which teaches the speaker to give his own opinion of what he reads and to obtain better and richer reading experiences. As the pupil advances further in his high school career, he becomes more adept in this more difficult type of oral work.

The older boys and girls enjoy class discussions where they may express their own ideas and argue important issues of a question. One small class of juniors this fall, for example, argued for an entire class period on the topic: "It was easier for a boy to get a start in the world in Franklin's time than it is to-day." These

SCHOOL COMMITTEE REPORT

young people, who will very soon be out in the working world, brought out many sensible and logical statements and would have liked to continue the discussion the following day. In such discussions there is a student chairman whom the speakers address and whose duty it is to keep the group in order and to the point.

From such discussions the formal argument or debate may be developed. This type of oral work is, naturally, for the smaller group that has some interest and ability in oral work. The debate is one of the best means of teaching the pupil to think for himself, to express himself well at a moment's notice and to acquire poise and confidence in himself as a speaker. It is a type of expression that may be used equally well in the history class. In United States history, for example, there are many controversial subjects, and those pupils who have had experience in this kind of oral work enjoy the class debates which very often continue down the corridor at the end of the period.

In summary, each pupil benefits, according to his needs, from the oral assignment. It gives the shy pupil more confidence and, very often, the desire to speak more; and it adds to the ease, poise, and self-assurance of the pupil who begins with a slight or natural gift for expressing himself orally. And, finally, the ability to speak well is a skill that no one is ever sorry to possess.

GENERAL SCIENCE

Clare Walker

Teacher of Science and Mathematics

General Science in the Junior and Senior High School is presented to the pupil as an exploratory course. In grade eight he becomes aware of his environment and learns how living things adapt themselves to their environment. These "whys" and "hows" he has been wondering about for several years now become logically reasoned out by him. He soon knows why the sun rises and sets; why the wind blows; what causes a fog; how disease spreads; or why plants need the sunlight.

In grade nine his environment is still the topic of discussion but now he is learning how man endeavors to use and control his environment. In this course he sees how man harnesses the air and water to do his work. He is not as interested in why the sun rises and sets as he is in the fact that the sun is the source of all energy. He already knows why the wind blows but now he learns how man makes use of this factor in his environment. In these courses we try to have the pupils develop an understanding of the step by step method of scientific investigation. We want them to solve their problems by a process of logical reasoning.

We want the pupils to discover the importance of science to the home as they study lighting, heating, ventilation, and sound communication. As they learn the value of food, water, fuel, and clothing the pupils see how man, by controlling his environment, has improved living conditions for all. The health objective is an important one. The seventh grade course in Hygiene has given the pupil a background for his study of the importance of community health control.

The scientific approach to a problem helps the pupil to become open minded. With a bit of logical thinking he sees for himself that many superstitions and prejudices he has previously accepted cannot be true. The pupil also discovers how scientific research has improved living conditions and spread its influences into nearly every phase of modern civilization.

The survey science courses have started many hobbies. The child is introduced to many new fields of learning. New doors are opened for him and behind them he may find things of special interest to him. From these particular topics he may do home experiments or extra reading to supplement his class work. Many pupils have found pleasure and lasting interest in these new fields of work.

SCHOOL COMMITTEE REPORT

Although General Science is not a laboratory course experiments and projects are often carried out to clarify the study. We have been very fortunate in having assembly programs which have supplemented the class work. Besides a number of excellent moving pictures, lectures and demonstrations on glass blowing, properties of liquid air, electric lighting, and a water softening apparatus have proved to be very instructive.

Learning is a continuous process. From the start he receives in General Science, the pupil may enter courses in both the biological and the physical sciences during the remainder of his school course. But whether he does this or not he has had a chance to acquaint himself with the many practical facts of environmental science which have such an important influence upon his daily life.

PHYSICAL EDUCATION

Ruth A. Whidden

Supervisor

Many changes have taken place to broaden the scope and activity of the Physical Education program during the past ten years. The forms of German and Swedish drill have become a combination of free rhythm exercises. Indian Club, Wand, and Dumb-bell drills are seldom seen in our programs, but in their place are more natural forms of play and activity, many of which we are able to carry over and use later on during our leisure time. Our program is much more elastic, and where it still includes some formal work, it also includes every type of sport that our equipment allows for.

The child upon entering school is guided by natural forms of play and exercise, which without their consciousness of routine, tends to strengthen and build up muscular activity and coordination. We emphasize standing tall, and keeping our heads high, so that we will always look our best.

As we go further along we begin work on corrections for better posture so that we may all walk, stand and sit in good positions. If a child already has good posture we try to strengthen it with our continued skills of balance boards, marching and exercises of simple corrective measures. If we have not the best posture we try to attain it through the same work. We have no special time set aside for this sort of thing; it is all included in our general class work during the year.

Attractiveness is a general goal for girls and boys and a very important one. A very important factor conducive to attractiveness is again, that of posture and carriage. It probably should be "postures", because we mean that position of the body in any given activity, whether standing, sitting, playing tennis or walking. The type of posture that exists today is an active and alive posture and carriage, the kind that makes you efficient in walking, skating or playing basketball.

We continue in our check ups of this aim right through High School. The students frequently check their own positions by standing back to the wall and counting the six spots that should touch, namely the head, shoulders, buttocks, thigh, calf and heels. They walk away and return to discover whether or not it is natural or a slight effort to regain this position.

Other objectives toward this end in our Physical Education program are the protection and improvement of health and the development of organic fitness, increase in strength and muscular control, development of sportsmanship and desirable social attitudes, skills, better habits and attitudes in Physical Education activities which will contribute to more wholesome and better living conditions.

SCHOOL COMMITTEE REPORT

REPORT OF THE SCHOOL PHYSICIAN

To the School Committee of Scituate:

I have carried out my duties this year as usual. This includes an examination of all pupils and a re-examination of pupils of the High and Junior High Schools to determine their fitness for violent exertion as members of the athletic teams.

Many parents have availed themselves of the opportunity offered by the Board of Health and have had their small children receive immunization against Diphtheria. Smallpox vaccination must be more rigidly enforced as there are many who have entered from other towns who are unvaccinated.

The town has been experiencing a Scarlet Fever epidemic of long duration; there have not been many cases at one time but it keeps cropping up. There have been many instances where a woeful lack of co-operation existed and quarantines have not been properly observed by the families affected. Fortunately the cases thus far have been of a rather mild type, but this might not continue to be the rule.

The Chadwick Clinic is a valuable aid in detecting early cases of Tuberculosis. It is to be hoped that parents will continue to co-operate in this most valuable work. The result of cases treated at the Plymouth County Hospital in these early cases have been practically one hundred per cent cured.

I am pleased to report that all buildings are sanitary, and are kept in good condition by the janitors.

The report of the School Nurse contains a recapitulation of cases and your attention is called to it.

The assistance of all my associates has as usual been very helpful, and I would like to thank the Board of Health for their co-operation.

Respectfully submitted,

T. B. ALEXANDER, M.D.,
School Physician.

REPORT OF THE SCHOOL NURSE

Mr. Harold C. Wingate
Superintendent of Schools
Scituate, Massachusetts

Dear Sir:

The twelfth annual summary of my work as part-time school nurse reveals the following facts:

Number of School Visits (including those made with school physician for examination, class and individual inspections, and first aid treatments)	197
Number of Home Visits for School Children	166
Number of Children taken home ill	48
Number of Children examined by School Physician	510
Number of Children with Nose and Throat Defects	134

SCHOOL COMMITTEE REPORT

Number of Children with Vision Defects	23
Number of Children with Heart Murmurs	124
Number of Children with Posture Defects	7
Number of Children with Speech Defects	2
Number of Children with Hearing Defects	22
Number of Children having had Nose and Throat Defects—Corrected	18
Number of Children having had defective vision—Corrected	6
Number of Preschool Dental Clinics	11
Number of School Dental Clinics	64

The few cases of scabies, ringworm, impetigo, and pediculosis, responded quickly to treatment.

Despite the persistent efforts of school and health authorities to control communicable diseases, there were numerous cases of measles and whooping cough, and several cases of scarlet fever.

A paragraph in the annual report to the Health, Welfare and Nursing Service Departments refers to plans which are being formulated for the purpose of instructing the public regarding the seriousness of communicable diseases. The report also gives detailed information regarding the generalized community health program.

Respectfully submitted,

MARGARET J. O'DONNELL, R.N.,
School Nurse.

REPORT OF THE ATTENDANCE OFFICER

Mr. Harold C. Wingate
Superintendent of Schools
Scituate, Massachusetts

Dear Sir:

All cases of absences concerning which I have been notified have received my prompt attention. In nearly all the cases investigated the absence was justifiable.

Respectfully submitted,

ANNIE M. S. LITCHFIELD,
Attendance Officer.

SCHOOL COMMITTEE REPORT

ROLL OF PERFECT ATTENDANCE For the School Year Ending June 30, 1939
